Medical Properties Trust

THIRD QUARTER 2016

Supplemental Information

TABLE OF CONTENTS

FORWARD-LOOKING STATEMENT Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results of the Company or future events to differ materially from those expressed in or underlying such forward-looking statements, including without limitation: Normalized FFO per share; expected payout ratio, the amount of acquisitions of healthcare real estate, if any; estimated debt metrics, portfolio diversification, capital markets conditions, the repayment of debt arrangements; statements concerning the additional income to the Company as a result of ownership interests in certain hospital operations and the timing of such income; the payment of future dividends, if any; completion of additional debt arrangement, and additional investments; national and international economic, business, real estate and other market conditions; the competitive environment in which the Company operates; the execution of the Company's business plan; financing risks; the Company's ability to maintain its status as a REIT for income tax purposes; acquisition and development risks; potential environmental and other liabilities; and other factors affecting the real estate industry generally or healthcare real estate in particular. For further discussion of the factors that could affect outcomes, please refer to the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2015, and as updated by the Company's subsequently filed Quarterly Reports on Form 10-Q and other SEC filings. Except as otherwise required by the federal securities laws, the Company undertakes no obligation to update the information in this report.

On the Cover and Above: Saint Elizabeth's Medical Center (Steward Health Care) - Brighton, Massachusetts. Acquired in 2016.

COMPANY OVERVIEW

Medical Properties Trust, Inc. *is a Birmingham, Alabama based self-advised real estate investment trust formed to capitalize on the changing trends in healthcare delivery by acquiring and developing net-leased healthcare facilities. MPT's financing model allows hospitals and other healthcare facilities to unlock the value of their underlying real estate in order to fund facility improvements, technology upgrades, staff additions and new construction. Facilities include acute care hospitals, inpatient rehabilitation hospitals, long-term acute care hospitals, and other medical and surgical facilities.*

OFFICERS

Edward K. Aldag, Jr.	*Chairman, President and Chief Executive Officer*

Adjusted funds from operations	**$ 0.27**	**$ 0.30**	**$ 0.87**	**$ 0.85**

(A) Includes our share of real estate depreciation and acquisition expenses from unconsolidated joint ventures (if any). Any such amounts are included with the activity of all of our equity interests in the "Other income (expense)" line on the consolidated statements of income.

(B) Represents additional rent received from one tenant in advance of when we can recognize as revenue for accounting purposes. This additional rent is being recorded to revenue on a straight-line basis over the lease life.

Investors and analysts following the real estate industry utilize funds from operations, or FFO, as a supplemental performance measure. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assumes that the value of real estate diminishes predictably over time. We compute FFO in accordance with the definition provided by the National Association of Real Estate Investment Trusts, or NAREIT, which represents net income (loss) (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairment charges on real estate assets, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

In addition to presenting FFO in accordance with the NAREIT definition, we also disclose normalized FFO, which adjusts FFO for items that relate to unanticipated or non-core events or activities or accounting changes that, if not noted, would make comparison to prior period results and market expectations less meaningful to investors and analysts. We believe that the use of FFO, combined with the required GAAP presentations, improves the understanding of our operating results among investors and the use of normalized FFO makes comparisons of our operating results with prior periods and other companies more meaningful. While FFO and normalized FFO are relevant and widely used supplemental measures of operating and financial performance of REITs, they should not be viewed as a substitute measure of our operating performance since the measures do not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which can be significant economic costs that could materially impact our results of operations. FFO and normalized FFO should not be considered an alternative to net income (loss) (computed in accordance with GAAP) as indicators of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity.

We calculate adjusted funds from operations, or AFFO, by subtracting from or adding to normalized FFO (i) unbilled rent revenue, (ii) non-cash share-based compensation expense, and (iii) amortization of deferred financing costs. AFFO is an operating measurement that we use to analyze our results of operations based on the receipt, rather than the accrual, of our rental revenue and on certain other adjustments. We believe that this is an important measurement because our leases generally have significant contractual escalations of base rents and therefore result in recognition of rental income that is not collected until future periods, and costs that are deferred or are non-cash charges. Our calculation of AFFO may not be comparable to AFFO or similarly titled measures reported by other REITs. AFFO should not be considered as an alternative to net income (calculated pursuant to GAAP) as an indicator of our results of operations or to cash flow from operating activities (calculated pursuant to GAAP) as an indicator of our liquidity.
