Item 2.02. Results of Operations and Financial Condition.

On November 3, 2016, Medical Properties Trust, Inc. issued a press release announcing its financial results for the three and nine months ended September 30, 2016. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference. The information in this Current Report on Form 8-K, including the information set forth in Exhibit 99.1 and Exhibit 99.2 attached hereto, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liability of that section or Sections 11 and 12(a)(2) of the Securities Act of 1933, as amended. In addition, this information shall not be deemed incorporated by reference in any filing of Medical Properties Trust, Inc. with the Securities and Exchange Commission, except as expressly set forth by specific reference in any such filing.

The Company disclosed three non-GAAP financial measures in the attached press release for the three and nine months ended September 30, 2016: Funds from operations, Normalized funds from operations and Adjusted funds from operations. The most directly comparable GAAP financial measure to each of these non-GAAP financial measures is net income, which was \$70.4 million, or \$0.28 per diluted share for the three months ended September 30, 2016 compared to \$23.1 million, or \$0.10 per diluted share for the three months ended September 30, 2015. For the nine months ended September 30, 2016 net income was \$182.0 million, or \$0.75 per diluted share compared to \$81.4 million, or \$0.38 per diluted share for the nine months ended September 30, 2015. In the attached press release, the Company disclosed Funds from operations of \$50.1 million and \$183.6 million for the three and nine months ended September 30, 2016, respectively, and Normalized funds from operations of \$75.1 million and \$234.1 million for three and nine months ended September 30, 2016, respectively. Adjusted funds from operations were disclosed in the press release as \$67.3 million and \$211.1 million for the three and nine months ended September 30, 2016, respectively.

A reconciliation of the non-GAAP financial measures to net income as well as a statement disclosing the reasons why the Company's management believes that presentation of these non-GAAP financial measures provides useful information to investors regarding the Company's financial condition and results of operations are included in Exhibits 99.1 and 99.2.

Item 9.01. Financial Statements and Exhibits.

MEDICAL PROPERTIES TRUST, INC. REPORTS THIRD QUARTER RESULTS

Outstanding Balance Sheet and Liquidity Positions Company for Growth

Per Share Normalized FFO of \$0.30 and Net Income of \$0.28

Acquisitions to Exceed \$1.75 Billion in Record Setting Year

Introduces 2017 Normalized FFO Estimate of \$1.35 to \$1.40

Birmingham, AL – November 3, 2016 – Medical Properties Trust, Inc. (the “Company” or “MPT”) (NYSE: MPW) today announced financial and operating results for the third quarter ended September 30, 2016.

“MPT has demonstrated in 2016, and in particular since the beginning of the third quarter, the strength of our investment strategies and our ability to execute,” said Edward K. Aldag, Jr., MPT’s Chairman, President and Chief Executive Officer. “We proved the long-term value of our assets by selling multiple property types at substantial gains; refinanced \$1 billion in debt at historically low rates; reduced overall leverage to a level unmatched by any direct competitor; and further solidified our position as the undisputed global leader and innovator in the business of hospital real estate.

“We are now the second largest for-profit owner of hospital beds in the United States. We have accomplished this through our undivided focus on the hospital industry and our deep understanding and appreciation of the issues relevant to our operators. We are well-positioned to grow the Company further with our existing operators along with new relationships that are emerging at an accelerated pace. We expect that 2017 will again offer opportunities for us to demonstrate the unique strength of our investment strategies.”

THIRD QUARTER AND RECENT HIGHLIGHTS

- Positioned the Company for strong and immediately accretive growth with pro forma total assets now exceeding \$7 billion, net debt of 5.1 times pro forma EBITDA, liquidity in excess of \$1.0 billion, and a robust pipeline of high quality U.S. and European hospital assets;
- Completed the previously disclosed \$1.25 billion acquisition of Steward Health Care assets in October;

- Commenced closing on the previously announced \$297 million acquisitions of 29 post-acute hospitals leased to MEDIAN and its affiliates in Germany;
- Entered into definitive agreements to acquire and lease to RCCH HealthCare Partners (“RCCH”) the real estate of two acute care hospitals for an approximate investment of \$105 million, representing the first transaction pursuant to the Company’s March 2016 right of first refusal agreement with RCCH, an investee of Apollo Global Management, LLC;
- Issued 82.7 million shares of common stock (since June 1st) for aggregate proceeds of \$1.2 billion through the Company’s at-the-market, private placement and public offering programs, including a record setting successful equity offering of 57.5 million shares;
- Redeemed \$125 million of unsecured senior notes;
- Previously announced capital markets activities included issuance of \$500 million in 5.250% unsecured senior notes, and redemption of \$450 million in 6.875% unsecured senior notes;
- Previously announced property dispositions included the sale of three IRFs in July at valuations equivalent to a 6.7% capitalization rate, generating proceeds of \$111.5 million and gains of approximately \$45 million.

Included in the financial tables accompanying this press release is information about the Company’s assets and liabilities, net income and reconciliations of net income to Normalized Funds from Operations (“FFO”) and Adjusted Funds from Operations (“AFFO”), all on a basis comparable to 2015 results.

PORTFOLIO UPDATE

During and after the third quarter, MPT made investments in hospital real estate totaling approximately \$1.4 billion that was leased to operators under long-term absolute net leases with GAAP lease rates between 9.0% and 10.5%. The Company sold real estate totaling \$111.5 million.

The previously announced acquisitions of approximately \$297 million in post-acute German hospitals in July received clearance from Germany’s Federal Cartel Office (antitrust) and sale leaseback transactions have commenced closing as local governments waive their pre-emptive rights to acquire the real estate.

Adeptus Health recently reported that it raised \$57 million in liquidity for operations and that it is exploring options to further increase liquidity and improve profitability. As of September 30, 2016, MPT has leased 58 facilities to Adeptus, with an aggregate investment of approximately \$441 million. Important measures related to MPT’s investments include:

- The lease coverage ratio for these properties for the twelve months ended June 30, 2016 was 2.85 times;
- Adeptus has prepaid all rent through November;
- 65% of MPT’s Adeptus investments are leased to joint ventures with dominant, market leading hospital systems in each market;

- Almost 90% of MPT's facilities are expected to be operated as Hospital Outpatient Departments by December 31, 2016;
- Each facility is part of a master lease that precludes cherry picking of assets in the event of lease expiration;
- Based on expected openings in the fourth quarter of 2016, total revenue from Adeptus is expected to represent approximately 6% of MPT's 2017 total revenue.

The Company has pro forma total gross assets of approximately \$7.2 billion including \$4.7 billion in general acute care hospitals, \$1.8 billion in inpatient rehabilitation hospitals, and \$0.4 billion in long-term acute care hospitals. The portfolio includes 249 properties representing more than 27,000 licensed beds in 30 states and in Germany, the United Kingdom, Italy and Spain. The properties are leased to or mortgaged by 30 hospital operating companies.

OPERATING RESULTS AND OUTLOOK

Net income for the third quarter of 2016 was \$70.4 million (or \$0.28 per diluted share), compared to \$23.1 million (or \$0.10 per diluted share) in the third quarter of 2015. Net income for the third quarter of 2016 includes a net gain of \$44.6 million on the sale of real estate and other asset dispositions and debt refinancing costs of \$22.5 million. Net income for the third quarter of 2015 included \$24.9 million in acquisition expenses, of which approximately \$18 million was for real estate transfer taxes related to MEDIAN properties acquired in 2015.

Normalized FFO for 2016's third quarter increased 4% to \$75.1 million compared with \$72.5 million in the third quarter of 2015. Per share Normalized FFO was \$0.30 in the third quarter compared with \$0.32 in the third quarter of 2015 as a result of dispositions aggregating approximately \$800 million in 2016 and an increase in weighted average shares outstanding of 23.5 million.

Based on management's present investment, capital and operating strategies, and the expected timing of each, management estimates 2016 net income to be \$0.97 per share and 2016 Normalized FFO of \$1.27 per share.

The Company today is introducing its estimate of 2017 Normalized FFO as a range of between \$1.35 and \$1.40 per diluted share; 2017 net income is estimated as a range of between \$0.99 and \$1.05 per share. These estimates assume redemption of €200 million and issuance of €500 million in unsecured senior notes during the fourth quarter of 2016; acquisitions of between \$500 million and \$1.0 billion with leverage neutral financing; sales of \$75 million of properties in early 2017; and closing of the RCCH and MEDIAN transactions during the first half of 2017.

A reconciliation of our Normalized FFO guidance to our net income is included with the financial tables accompanying this press release.

These estimates do not include the effects, if any, of unexpected real estate operating costs, litigation costs, debt refinancing costs, acquisition costs, currency exchange rate movements, interest rate hedging activities, write-offs of straight-line rent or other non-recurring or unplanned transactions. These estimates may change if the Company acquires or sells assets, market interest rates change, debt is refinanced, new shares are issued, additional debt is incurred, other operating expenses vary, income from investments in tenant operations vary from expectations, or existing leases do not perform in accordance with their terms.

CONFERENCE CALL AND WEBCAST

The Company has scheduled a conference call and webcast for Thursday, November 3, 2016 at 11:00 a.m. Eastern Time to present the Company's financial and operating results for the quarter ended September 30, 2016. The dial-in numbers for the conference call are 855-365-5214 (U.S.) and 440-996-5721 (international); both numbers require passcode 98346050. The conference call will also be available via webcast in the Investor Relations' section of the Company's website, www.medicalpropertystrust.com.

A telephone and webcast replay of the call will be available beginning shortly after the call's completion through November 17, 2016. Dial-in numbers for the replay are 855-859-2056 and 404-537-3406 for U.S. and international callers, respectively. The replay passcode for both U.S. and international callers is 98346050.

The Company's supplemental information package for the current period will also be available on the Company's website under the "Investor Relations" section.

About Medical Properties Trust, Inc.

Medical Properties Trust, Inc. is a self-advised real estate investment trust formed to capitalize on the changing trends in healthcare delivery by acquiring and developing net-leased healthcare facilities. MPT's financing model allows hospitals and other healthcare facilities to unlock the value of their underlying real estate in order to fund facility improvements, technology upgrades, staff additions and new construction. Facilities include acute care hospitals, inpatient rehabilitation hospitals, long-term acute care hospitals, and other medical and surgical facilities. For more information, please visit the Company's website at www.medicalpropertystrust.com.

The statements in this press release that are forward looking are based on current expectations and actual results or future events may differ materially. Words such as "expects," "believes," "anticipates," "intends," "will," "should" and variations of such words and similar expressions are intended to identify such forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results of the Company or future events to differ materially from those expressed in or underlying such forward-looking statements, including without limitation: the satisfaction of all conditions to, and the timely closing (if at all) of pending transactions; net income per share; Normalized FFO per share; the amount of acquisitions of healthcare real estate, if any; results from the potential sales, if any, of assets; capital markets conditions; estimated leverage metrics; the repayment of debt arrangements; statements concerning the additional income to the Company as a result of ownership interests in certain hospital operations and the timing of such income; the payment of future dividends, if any; completion of additional debt arrangements, and additional investments; national and international economic, business, real estate and other market conditions; the competitive environment in which the Company operates; the execution of the Company's business plan; financing risks; the Company's ability to maintain its status as a REIT for income tax purposes; acquisition and development risks; potential environmental and other liabilities; and other factors affecting the real estate industry generally or healthcare real estate in particular. For further discussion of the factors that could affect outcomes, please refer to the

“Risk factors” section of the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 and as updated by the Company’s subsequently filed Quarterly Reports on Form 10-Q and other SEC filings. Except as otherwise required by the federal securities laws, the Company undertakes no obligation to update the information in this press release.

(A) Includes our share of real estate depreciation and acquisition expenses from unconsolidated joint ventures (if any). Any such amounts are included with the activity of all of our equity interests in the "Other income (expense)" line on the consolidated statements of income.

(B) Represents additional rent received from one tenant in advance of when we can recognize as revenue for accounting purposes. This additional rent is being recorded to revenue on a straight-line basis over the lease life.

Investors and analysts following the real estate industry utilize funds from operations, or FFO, as a supplemental performance measure. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assumes that the value of real estate diminishes predictably over time. We compute FFO in accordance with the definition provided by the National Association of Real Estate Investment Trusts, or NAREIT, which represents net income (loss) (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairment charges on real estate assets, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

In addition to presenting FFO in accordance with the NAREIT definition, we also disclose normalized FFO, which adjusts FFO for items that relate to unanticipated or non-core events or activities or accounting changes that, if not noted, would make comparison to prior period results and market expectations less meaningful to investors and analysts. We believe that the use of FFO, combined with the required GAAP presentations, improves the understanding of our operating results among investors and the use of normalized FFO makes comparisons of our operating results with prior periods and other companies more meaningful. While FFO and normalized FFO are relevant and widely used supplemental measures of operating and financial performance of REITs, they should not be viewed as a substitute measure of our operating performance since the measures do not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which can be significant economic costs that could materially impact our results of operations. FFO and normalized FFO should not be considered an alternative to net income (loss) (computed in accordance with GAAP) as indicators of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity.

We calculate adjusted funds from operations, or AFFO, by subtracting from or adding to normalized FFO (i) unbilled rent revenue, (ii) non-cash share-based compensation expense, and (iii) amortization of deferred financing costs. AFFO is an operating measurement that we use to analyze our results of operations based on the receipt, rather than the accrual, of our rental revenue and on certain other adjustments. We believe that this is an important measurement because our leases generally have significant contractual escalations of base rents and therefore result in recognition of rental income that is not collected until future periods, and costs that are deferred or are non-cash charges. Our calculation of AFFO may not be comparable to AFFO or similarly titled measures reported by other REITs. AFFO should not be considered as an alternative to net income (calculated pursuant to GAAP) as an indicator of our results of operations or to cash flow from operating activities (calculated pursuant to GAAP) as an indicator of our liquidity.

FORWARD-LOOKING STATEMENT Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results of the Company or future events to differ materially from those expressed in or underlying such forward-looking statements, including without limitation: Normalized FFO per share; expected payout ratio; the amount of acquisitions of healthcare real estate, if any; estimated debt metrics; portfolio diversification; capital markets conditions; the repayment of debt arrangements; statements concerning the additional income to the Company as a result of ownership interests in certain hospital operations and the timing of such income; the payment of future dividends, if any; completion of additional debt arrangement, and additional investments; national and international economic, business, real estate and other market conditions; the competitive environment in which the Company operates; the execution of the Company's business plan; financing risks; the Company's ability to maintain its status as a REIT for income tax purposes; acquisition and development risks; potential environmental and other liabilities; and other factors affecting the real estate industry generally or healthcare real estate in particular. For further discussion of the factors that could affect outcomes, please refer to the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2015, and as updated by the Company's subsequently filed Quarterly Reports on Form 10-Q and other SEC filings. Except as otherwise required by the federal securities laws, the Company undertakes no obligation to update the information in this report.

On the Cover and Above: Saint Elizabeth's Medical Center (Steward Health Care) - Brighton, Massachusetts. Acquired in 2016.

COMPANY OVERVIEW

Medical Properties Trust, Inc. is a Birmingham, Alabama based self-advised real estate investment trust formed to capitalize on the changing trends in healthcare delivery by acquiring and developing net-leased healthcare facilities. MPT's financing model allows hospitals and other healthcare facilities to unlock the value of their underlying real estate in order to fund facility improvements, technology upgrades, staff additions and new construction. Facilities include acute care hospitals, inpatient rehabilitation hospitals, long-term acute care hospitals, and other medical and surgical facilities.

(A) Includes our share of real estate depreciation and acquisition expenses from unconsolidated joint ventures (if any). Any such amounts are included with the activity of all of our equity interests in the "Other income (expense)" line on the consolidated statements of income.

(B) Represents additional rent received from one tenant in advance of when we can recognize as revenue for accounting purposes. This additional rent is being recorded to revenue on a straight-line basis over the lease life.

Investors and analysts following the real estate industry utilize funds from operations, or FFO, as a supplemental performance measure. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assumes that the value of real estate diminishes predictably over time. We compute FFO in accordance with the definition provided by the National Association of Real Estate Investment Trusts, or NAREIT, which represents net income (loss) (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairment charges on real estate assets, plus real estate depreciation and amortization and other adjustments for unconsolidated partnerships and joint ventures.

In addition to presenting FFO in accordance with the NAREIT definition, we also disclose normalized FFO, which adjusts FFO for items that relate to unanticipated or non-core events or activities or accounting changes that, if not noted, would make comparison to prior period results and market expectations less meaningful to investors and analysts. We believe that the use of FFO, combined with the required GAAP presentations, improves the understanding of our operating results among investors and the use of normalized FFO makes comparisons of our operating results with prior periods and other companies more meaningful. While FFO and normalized FFO are relevant and widely used supplemental measures of operating and financial performance of REITs, they should not be viewed as a substitute measure of our operating performance since the measures do not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which can be significant economic costs that could materially impact our results of operations. FFO and normalized FFO should not be considered an alternative to net income (loss) (computed in accordance with GAAP) as indicators of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity.

We calculate adjusted funds from operations, or AFFO, by subtracting from or adding to normalized FFO (i) unbilled rent revenue, (ii) non-cash share-based compensation expense, and (iii) amortization of deferred financing costs. AFFO is an operating measurement that we use to analyze our results of operations based on the receipt, rather than the accrual, of our rental revenue and on certain other adjustments. We believe that this is an important measurement because our leases generally have significant contractual escalations of base rents and therefore result in recognition of rental income that is not collected until future periods, and costs that are deferred or are non-cash charges. Our calculation of AFFO may not be comparable to AFFO or similarly titled measures reported by other REITs. AFFO should not be considered an alternative to net income (calculated pursuant to GAAP) as an indicator of our results of operations or to cash flow from operating activities (calculated pursuant to GAAP) as an indicator of our liquidity.
