EXPLANATORY NOTE

This report combines the Annual Reports on Form 10-K for the year ended December 31, 2014, of Medical Properties Trust, Inc., a Maryland corporation, and MPT Operating Partnership, L.P., a Delaware limited partnership, through which Medical Properties Trust, Inc. conducts substantially all of its operations. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “we,” “us,” “our,” “our company,” “Medical Properties,” “MPT,” or “the Company” refer to Medical Properties Trust, Inc. together with its consolidated subsidiaries, including MPT Operating Partnership, L.P. Unless otherwise indicated or unless the context requires otherwise, all references to “our operating partnership” or “the operating partnership” refer to MPT Operating Partnership, L.P. together with its consolidated subsidiaries.

CAUTIONARY LANGUAGE REGARDING FORWARD LOOKING STATEMENTS

We make forward-looking statements in this Annual Report on Form 10-K that are subject to risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our business, financial condition, liquidity, results of operations, plans and objectives. Statements regarding the following subjects, among others, are forward-looking by their nature:

- our business strategy;
- our projected operating results;
- our ability to acquire or develop net-leased facilities;
- availability of suitable facilities to acquire or develop;
- our ability to enter into, and the terms of, our prospective leases and loans;
- our ability to raise additional funds through offerings of debt and equity securities and/or property disposals;
- our ability to obtain future financing arrangements;
- estimates relating to, and our ability to pay, future distributions;
- our ability to compete in the marketplace;
- lease rates and interest rates;
- market trends;
- projected capital expenditures; and
- the impact of technology on our facilities, operations and business.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account information currently available to us. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. You should carefully consider these risks before you make an investment decision with respect to our common stock and other securities, along with, among others, the following factors that could cause actual results to vary from our forward-looking statements:

- the factors referenced in this Annual Report on Form 10-K, including those set forth under the sections captioned “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Business;”
- U.S. (both national and local) and European (in particular Germany and the U.K.) economic, business, real estate, and other market conditions;

[Table of Contents](#)

[Index to Financial Statements](#)

- the satisfaction of all conditions to, the timely closing (if at all) of, and our ability to realize the anticipated benefits from, the Median transactions;
- the competitive environment in which we operate;
- the execution of our business plan;
- financing risks;
- acquisition and development risks;
- potential environmental contingencies and other liabilities;
- other factors affecting the real estate industry generally or the healthcare real estate industry in particular;
- our ability to maintain our status as a real estate investment trust, or REIT for U.S. federal and state income tax purposes;
- our ability to attract and retain qualified personnel;
- changes in foreign currency exchange rates;
- U.S. (both federal and state) and European (in particular Germany and the U.K.) healthcare and other regulatory requirements; and
- U.S. national and local economic conditions, as well as conditions in Europe and any other foreign jurisdictions where we own or will own healthcare facilities, which may have a negative effect on the following, among other things:
 - the financial condition of our tenants, our lenders, counterparties to our interest rate swaps and other hedged transactions and institutions that hold our cash balances, which may expose us to increased risks of default by these parties;
 - our ability to obtain equity or debt financing on attractive terms or at all, which may adversely impact our ability to pursue acquisition and development opportunities, refinance existing debt and our future interest expense; and
 - the value of our real estate assets, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis.

When we use the words “believe,” “expect,” “may,” “potential,” “anticipate,” “estimate,” “plan,” “will,” “could,” “intend” or similar expressions, we are identifying forward-looking statements. You should not place undue reliance on these forward-looking statements. Except as required by law, we disclaim any obligation to update such statements or to publicly announce the result of any revisions to any of the forward-looking statements contained in this Annual Report on Form 10-K to reflect future events or developments.

PART I

ITEM 1. *Business*

Overview

We are a self-advised real estate investment trust (“REIT”) focused on investing in and owning net-leased healthcare facilities. We conduct substantially all of our business through MPT Operating Partnership, L.P. We acquire and develop healthcare facilities and lease the facilities to healthcare operating companies under long-term net leases, which require the tenant to bear most of the costs associated with the property. We also make mortgage loans to healthcare operators collateralized by their real estate assets. In addition, we selectively make loans to certain of our operators through our taxable REIT subsidiaries, the proceeds of which are typically used for acquisition and working capital. Finally, from time to time, we acquire a profits or other equity interest in our tenants that gives us a right to share in such tenants’ profits and losses.

[Table of Contents](#)

[Index to Financial Statements](#)

Our investments in healthcare real estate, including mortgage and other loans, as well as any equity investments in our tenants are considered a single reportable segment as further discussed in Note 1 of Item 8 in Part II of this Annual Report on Form 10-K. All of our investments are currently located in the United States and Europe. At December 31, 2014 and 2013, we had \$3.7 billion and \$2.9 billion, respectively, in total assets made up of the following:

	2014		2013	
	(Dollars in thousands)			
Real estate owned (gross)(1)	\$2,589,128	69.1%	\$2,254,708	77.6%
Mortgage loans	397,594	10.6%	388,756	13.4%
Other loans	573,167	15.3%	160,990	5.5%
Construction in progress	23,163	0.6%	41,771	1.4%
Other assets(1)	164,284	4.4%	58,470	2.1%
Total	<u>\$3,747,336</u>	<u>100.0%</u>	<u>\$2,904,695</u>	<u>100.0%</u>

(1) Includes \$784.2 million and \$240.5 million of healthcare real estate assets in Europe in 2014 and 2013, respectively.

Revenue by property type:

The following is our revenue by property type for the year ended December 31 (dollars in thousands):

	2014		2013		2012	
General Acute Care Hospitals(1)(2)	\$ 186,399	59.6%	\$ 144,291	59.5%	\$ 113,173	57.1%
Rehabilitation Hospitals(2)	71,564	22.9%	43,441	17.9%	34,252	17.3%
Long-Term Acute Care Hospitals	53,908	17.2%	53,130	21.9%	49,039	24.8%
Wellness Centers	661	0.3%	1,661	0.7%	1,661	0.8%
Total revenue	<u>\$ 312,532</u>	<u>100.0%</u>	<u>\$ 242,523</u>	<u>100.0%</u>	<u>\$ 198,125</u>	<u>100.0%</u>

(1) Includes three medical office buildings.

(2) Includes \$26.0 million and \$1.8 million in revenue from the healthcare real estate assets in Europe in 2014 and 2013, respectively.

See "Overview" in Item 7 of this Annual Report on Form 10-K for details of transaction activity for 2014, 2013 and 2012. More information is available on the Internet at www.medicalproptiestrust.com.

Portfolio of Properties

As of February 26, 2015, our portfolio consisted of 138 properties: 117 facilities (of the 130 facilities that we own) are leased to 27 tenants, 13 are under development (including 11 development projects with First Choice Emergency Room), and the remaining assets are in the form of mortgage loans to three operators. Our facilities consist of 73 general acute care hospitals, 23 long-term acute care hospitals, 33 inpatient rehabilitation hospitals, three medical office buildings, and six wellness centers.

At December 31, 2014, no single property accounted for more than 4% of our total assets.

Outlook and Strategy

Our strategy is to lease the facilities that we acquire or develop to experienced healthcare operators pursuant to long-term net leases. Alternatively, we have structured certain of our investments as long-term, interest-only mortgage loans to healthcare operators, and we may make similar investments in the future. Our mortgage loans

are structured such that we obtain similar economic return as our triple-net leases. In addition, we have obtained and will continue to obtain profits or other interests in certain of our tenants' operations in order to enhance our overall return. The market for healthcare real estate is extensive and includes real estate owned by a variety of healthcare operators. We focus on acquiring and developing those net-leased facilities that are specifically designed to reflect the latest trends in healthcare delivery methods. These facilities include but are not limited to: physical rehabilitation hospitals, long-term acute care hospitals, general acute care hospitals, ambulatory surgery centers, and other single-discipline healthcare facilities.

Diversification

A fundamental component of our business plan is the continued diversification of our tenant relationships, the types of hospitals we own and the geographic areas in which we invest. From a tenant relationship perspective, see section titled "Significant Tenants" below for detail. See sections titled "Revenue by Property Type" and "Portfolio of Properties" above for information on the diversification of our hospital types. From a geography perspective, we have investments across the United States. See below for investment concentration in the United States:

In November 2013, we expanded our footprint into Europe (via Germany) by acquiring 11 rehabilitation facilities in Germany from RHM Klinik-und Altenheimbetriebe GmbH & Co. KG ("RHM") and continued expanding in Germany and the United Kingdom in 2014. See below for our global geography concentration at December 31, 2014:

In December 2014, we, along with Waterland Private Equity, completed Step 1 of the acquisition of Median Kliniken S.à r.l. (“Median”), a German provider of post-acute and acute rehabilitation services. Once Step 2 (sale-lease back step) of this acquisition is completed in early 2015, we will have added another 38 rehabilitation hospitals and two acute care hospitals, located across 11 states, in the Federal Republic of Germany for an estimated aggregate purchase price of approximately €705 million (or approximately \$881 million). See Note 3 of Item 8 of this Annual Report on Form 10-K for further details of this acquisition.

The continued expansion into the German market represents an attractive investment opportunity for us given Germany’s strong macroeconomic position and healthcare environment. Germany’s GDP, which is approximately \$3,400 billion according to World Bank 2012 data, has been relatively more stable than other countries in the European Union due to Germany’s culture, which embodies stable business practices and monetary policy. In addition to cultural influences, government policies emphasizing sound public finance and a significant presence of small and medium-sized enterprises (which employ 60% of the employment base) have also contributed to Germany’s strong and sustainable economic position. The above factors have contributed to an unemployment rate in Germany of 5.3% as of July 2013, which is significantly less than the 11.0% unemployment rate in the European Union generally as of July 2013, according to Eurostat.

The United Kingdom represents an attractive investment opportunity, as well, because of the magnitude of the British economy and its position as the third largest economy in Europe after Germany and France. While the British National Health System (“NHS”) operates as a government owned and controlled system throughout the United Kingdom, recent legislation has emphasized private competition in the provision of hospital services.

Over the past two decades, the government has greatly reduced public ownership. Services, particularly banking, insurance and business services are key drivers of British GDP growth. In 2013, GDP grew 1.4% after a slow recovery from the recession which began in 2008. An important component of the British economy is the NHS. It is funded through central taxation and provides a comprehensive range of health services at no charge to its beneficiaries. Approximately 41% of the NHS budget is spent on hospital care. It is a large system employing more than 1.6 million people making it one of the top five employers in the world.

Recently, legislation has been passed and produced The Health & Social Care Act 2012 which allows for more private care to be delivered and financed. The law introduced the concept of “Choose and Book” which is a general practitioner referral system for follow-on appointments that allows private and NHS hospitals to compete for patients equally.

Underwriting/Asset Management

Our revenue is derived from rents we earn pursuant to the lease agreements with our tenants, from interest income from loans to our tenants and other facility owners and from profits or equity interests in certain of our tenants’ operations. Our tenants operate in the healthcare industry, generally providing medical, surgical and rehabilitative care to patients. The capacity of our tenants to pay our rents and interest is dependent upon their ability to conduct their operations at profitable levels. We believe that the business environment of the industry segments in which our tenants operate is generally positive for efficient operators. However, our tenants’ operations are subject to economic, regulatory and market conditions that may affect their profitability, which could impact our results. Accordingly, we monitor certain key factors, changes to which we believe may provide early indications of conditions that may affect the level of risk in our portfolio.

Key factors that we consider in underwriting prospective tenants and in monitoring the performance of existing tenants include the following:

- admission levels and surgery/procedure/diagnosis volumes by type;
- the current, historical and prospective operating margins (measured by a tenant’s earnings before interest, taxes, depreciation, amortization and facility rent) of each tenant and at each facility;

[Table of Contents](#)

[Index to Financial Statements](#)

- the ratio of our tenants' operating earnings both to facility rent and to facility rent plus other fixed costs, including debt costs;
- trends in the source of our tenants' revenue, including the relative mix of public payors (including Medicare, Medicaid/MediCal, and managed care in the U.S. and pension funds in Germany) and private payors (including commercial insurance and private pay patients);
- the effect of evolving healthcare legislation and other regulations on our tenants' profitability and liquidity; and
- the competition and demographics of the local and surrounding areas in which the tenants operate.

Healthcare Industry

Healthcare is the single largest industry in the United States ("U.S.") based on Gross Domestic Product ("GDP"). According to the National Health Expenditures report dated January 2013 by the Centers for Medicare and Medicaid Services: (i) national health expenditures are projected to grow 5.6% in 2015; (ii) the average compound annual growth rate for national health expenditures, over the projection period of 2015 through 2023, is anticipated to be 6.0%; and (iii) the healthcare industry is projected to represent 19.3% of U.S. GDP by 2023.

In regards to Germany, the healthcare industry is the single largest industry like in the U.S. Behind only the U.S., Netherlands and France, Germany's healthcare expenditures represent approximately 11.3% of its total GDP according to the Organisation for Economic Co-operation and Development's 2011 data.

Germany and the United Kingdom healthcare systems as compared to that of the U.S. are set forth below:

United States	Germany	United Kingdom
	<u>Coverage</u>	
<ul style="list-style-type: none">• Coverage depends on individual's ability to pay and/or plan benefits• Insurance primarily offered through employers and government	<ul style="list-style-type: none">• German law mandates universal coverage and access• Statutory health insurance and special programs cover 90% of Germany's population• 10% Covered by private insurance	<ul style="list-style-type: none">• Defined healthcare benefits are free to all residents in the UK through the National Health Service
	<u>Payors</u>	
<ul style="list-style-type: none">• Medicare — Federal government sponsored• Medicaid — State and Federal government sponsored• Commercial insurance — Private	<ul style="list-style-type: none">• Statutory Health Insurance• Pension Funds — National and Regional funds that pay for rehabilitation services• Private Health Insurance —limited to higher earners	<ul style="list-style-type: none">• National Health Service — Single payor government system• Private Health insurance
	<u>Laws</u>	
<ul style="list-style-type: none">• Affordable Care Act — movement towards universal care	<ul style="list-style-type: none">• Universal healthcare reimbursement mandated by law	<ul style="list-style-type: none">• Universal healthcare reimbursement mandated by law

[Table of Contents](#)

[Index to Financial Statements](#)

The German rehabilitation market (which includes our facilities in Germany) serves a broader scope of treatment with over 1,233 rehabilitation facilities (compared to 1,165 in the U.S.) and 208.5 beds per 100,000 population (compared to 114.7 in the U.S.). Approximately 90% of the payments in the German system come from governmental sources. The largest payor category is the public pension fund system representing 39% of payments. Public health insurance and payments for government employees represent 46% of payments. The balance of the payments into the German rehabilitation market come from a variety of sources including private pay and private insurance. One particular focus area of investors in the German market is the healthcare industry because the German Social Code mandates universal access, coverage and a high standard of care, thereby creating a robust healthcare dynamic in the country.

The delivery of healthcare services, whether in the U.S. or elsewhere, requires real estate and, as a consequence, healthcare providers depend on real estate to maintain and grow their businesses. We believe that the healthcare real estate market provides investment opportunities due to the:

- compelling demographics driving the demand for healthcare services;
- specialized nature of healthcare real estate investing; and
- consolidation of the fragmented healthcare real estate sector.

Our Leases and Loans

The leases for our facilities are “net” leases with terms generally requiring the tenant to pay all ongoing operating and maintenance expenses of the facility, including property, casualty, general liability and other insurance coverages, utilities and other charges incurred in the operation of the facilities, as well as real estate and certain other taxes, ground lease rent (if any) and the costs of capital expenditures, repairs and maintenance (including any repairs mandated by regulatory requirements). Similarly, borrowers under our mortgage loan arrangements retain the responsibilities of ownership, including physical maintenance and improvements and all costs and expenses. Our leases and loans typically require our tenants to indemnify us for any past or future environmental liabilities. Our current leases and loans have a weighted-average remaining initial lease term of 12.7 years (see Item 2 for more information on remaining lease terms). Based on current monthly revenue, approximately 90% of our domestic leases and loans provide for annual rent or interest escalations based on either increases in the U.S. Consumer Price Index (“CPI”) or minimum annual rent or interest escalations ranging from 0.5% to 4%. In some cases, our domestic leases and loans provide for escalations based on CPI subject to floors and/or ceilings (which is the case with our Ernest and Prime master leases (discussed below under “Significant Tenants”). In certain limited cases, we may have arrangements that provide for additional rents based on the level of a tenant’s revenue.

Our master lease for our current RHM properties in Germany provides for annual rent increases of 2.0% from 2015 through 2017, and of 0.5% thereafter. On December 31, 2020 and every three years thereafter, rent will also be increased to reflect 70% of cumulative increases in the German consumer price index.

RIDEA Investments

We have and will make equity investments, loans (with equity like returns) and obtain profit interests in certain of our tenants. These investments fall under a structure permitted by the Housing and Economic Recovery Act of 2008 (“RIDEA”). Under the provisions of RIDEA, a REIT may lease “qualified health care properties” on an arm’s length basis to a taxable REIT subsidiary (“TRS”) if the property is operated on behalf of such subsidiary by a person who qualifies as an “eligible independent contractor.” We view RIDEA as a structure primarily to be used on properties that present attractive valuation entry points.

At December 31, 2014, our RIDEA investments (excluding our RIDEA investment with affiliates of Ernest Health, Inc. (“Ernest”)) were \$11.4 million generating income in 2014 of \$2.6 million — more than a 20% annualized return. Our Ernest operating investment of \$96.5 million generated income in 2014, including interest from our acquisition note, of \$15.3 million, yielding slightly more than a 15% annualized return.

[Table of Contents](#)

[Index to Financial Statements](#)

Significant Tenants

On December 31, 2014, we had total assets of approximately \$3.7 billion comprised of 132 healthcare properties in 27 states, in Germany, and in the United Kingdom. The properties are leased to or mortgaged by 27 different hospital operating companies.

Affiliates of Prime Healthcare Services, Inc. (“Prime”) lease 14 facilities pursuant to master lease agreements. The master leases are for 10 years (initial expiration in 2022) and contain two renewal options of five years each. The annual escalators reflect 100% of CPI increases, along with a 2% minimum floor. At the end of the initial or any renewal term, Prime must exercise any available extension or purchase option with respect to all or none of the leased and mortgaged properties. The master leases include repurchase options, including provisions establishing minimum repurchase prices equal to our total investment. In addition to leases, we hold mortgage loans on three facilities owned by affiliates of Prime that will mature in 2022. The terms and provisions of these loans are generally equivalent to the terms and provisions of our Prime lease arrangements. Prime represented 20.0% of our total assets at December 31, 2014 and 24.5% at December 31, 2013.

Ernest leases 22 facilities pursuant to a master lease agreement. The original master lease agreement has a 20-year term with three five-year extension options and provided for an initial rental rate of 9%, with consumer price-indexed increases, limited to a 2% floor and 5% ceiling annually thereafter. At December 31, 2014, these facilities had an average remaining lease term of approximately 17 years. In addition to the master lease, we hold a mortgage loan on four facilities owned by affiliates of Ernest that will mature in 2032. The terms and provisions of these loans are generally equivalent to the terms and provisions of the master lease agreement. Ernest represented 13.0% of our total assets at December 31, 2014 and 15.9% at December 31, 2013.

We completed our initial investment with respect to the Median transaction, including interim loans to Waterland and Median in aggregate amounts up to €425 million (\$531 million) in 2014. At December 31, 2014, Median represented 11.3% of our total assets.

No other tenant accounted for more than 10% of our total assets at December 31, 2014.

Environmental Matters

Under various federal, state and local environmental laws and regulations, a current or previous owner, operator or tenant of real estate may be required to remediate hazardous or toxic substance releases or threats of releases. There may also be certain obligations and liabilities on property owners with respect to asbestos containing materials. Investigation, remediation and monitoring costs may be substantial. The confirmed presence of contamination or the failure to properly remediate contamination on a property may adversely affect our ability to sell or rent that property or to borrow funds using such property as collateral and may adversely impact our investment in that property.

Generally, prior to completing any acquisition or closing any mortgage loan, we obtain Phase I environmental assessments (or their equivalent studies outside the United States) in order to attempt to identify potential environmental concerns at the facilities. These assessments are carried out in accordance with an appropriate level of due diligence and generally include a physical site inspection, a review of relevant environmental and health agency database records, one or more interviews with appropriate site-related personnel, review of the property’s chain of title and review of historic aerial photographs and other information on past uses of the property. We may also conduct limited subsurface investigations and test for substances of concern where the results of the Phase I environmental assessments or other information indicates possible contamination or where our consultants recommend such procedures. Upon closing and for the remainder of the lease or loan term, our transaction documents require our tenants to repair and remediate any environmental concern at the applicable facility, and to comply in full with all environmental laws and regulations.

California Seismic Standards

California's Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1973 (the "Alquist Act") required that the California Building Standards Commission adopt earthquake performance categories, seismic evaluation procedures, standards and timeframes for upgrading certain facilities, and seismic retrofit building standards. These regulations required hospitals to meet certain seismic performance standards to ensure that they are capable of providing medical services to the public after an earthquake or other disaster. The Building Standards Commission completed its adoption of evaluation criteria and retrofit standards in 1998. The Alquist Act required the Building Standards Commission adopt certain evaluation criteria and retrofit standards such as:

- 1) hospitals in California must conduct seismic evaluations and submit these evaluations to the Office of Statewide Health Planning and Development ("OSHPD"), Facilities Development Division for its review and approval;
- 2) hospitals in California must identify the most critical nonstructural systems that represent the greatest risk of failure during an earthquake and submit timetables for upgrading these systems to the OSHPD, Facilities Development Division for its review and approval; and
- 3) hospitals in California must prepare a plan and compliance schedule for each regulated building demonstrating the steps a hospital will take to bring the hospital buildings into substantial compliance with the regulations and standards.

Within the past several years, engineering studies were conducted at our hospitals to determine whether and to what extent modifications to the hospital facilities will be required. These studies were commissioned by our tenants, and it was determined that, for some of our facilities, capital expenditures may be required in the future to comply with the seismic standards.

Since the original Alquist Act, several amendments have been adopted that have modified the requirements of seismic safety standards and deadlines for compliance. OSHPD implemented a voluntary program to re-evaluate the seismic risk of hospital buildings classified as Structural Performance Category ("SPC-1"). Buildings classified as SPC-1 are considered hazardous and at risk of collapse in the event of an earthquake and must have been retrofitted, replaced or removed from providing acute care services by January 1, 2013. Senate Bill 499 was signed into law in October 2009 that provides for a number of seismic relief measures, including reclassifying HAZUS, a state-of-the-art loss estimation methodology, thresholds, which will enable more SPC-1 buildings to be reclassified as SPC-2, a lower seismic risk category. The SPC-2 buildings would have until January 1, 2030 to comply with the structural seismic safety standards. Any buildings that are denied reclassification will remain in the SPC-1 category, and these buildings must have met seismic compliance standards by January 1, 2013, unless further extensions are granted. Furthermore, the AB 306 legislation permits OSHPD to grant an extension to acute care hospitals that lacked the financial capacity to meet the January 1, 2013 retrofit deadline, and instead, requires them to replace those buildings by January 1, 2020. More recently, SB 90 allows a hospital to seek an extension for seismic compliance for its SPC-1 buildings up to seven years based on three elements:

- 1) the structural integrity of the building;
- 2) the loss of essential hospital services to the community if the hospital is close; and
- 3) financial hardship.

At December 31, 2014, we have 13 facilities in California totaling investments of \$547.1 million. Exclusive of approved SB 90 extensions at four facilities, all of our California buildings are seismically compliant through 2030 as determined by OSHPD. For the four hospitals with SB 90 extensions, voluntary retrofit plans are underway and full compliance is expected. Under our current leases, our tenants are responsible for any capital expenditures in connection with seismic laws. Thus, we do not expect the California seismic standards to have a negative impact on our financial condition or cash flows. We also do not expect such compliance with California seismic standards to materially impact the financial condition of our tenants.

Competition

We compete in acquiring and developing facilities with financial institutions, other lenders, real estate developers, healthcare operators, other REITs, other public and private real estate companies, and private real estate investors. Among the factors that may adversely affect our ability to compete are the following:

- we may have less knowledge than our competitors of certain markets in which we seek to invest in or develop facilities;
- some of our competitors may have greater financial and operational resources than we have;
- some of our competitors may have lower costs of capital than we do;
- our competitors or other entities may pursue a strategy similar to ours; and
- some of our competitors may have existing relationships with our potential customers.

To the extent that we experience vacancies in our facilities, we will also face competition in leasing those facilities to prospective tenants. The actual competition for tenants varies depending on the characteristics of each local market. Virtually all of our facilities operate in highly competitive environments, and patients and referral sources, including physicians, may change their preferences for healthcare facilities from time to time. The operators of our properties compete on a local and regional basis with operators of properties that provide comparable services. Operators compete for patients and residents based on a number of factors including quality of care, reputation, physical appearance of a facility, location, services offered, physicians, staff, and price. We also face competition from other health care facilities for tenants, such as physicians and other health care providers that provide comparable facilities and services.

For additional information, see “Risk Factors” in Item 1A.

Insurance

Our leases and mortgage loans require the tenants to carry property, general liability, professional liability, loss of earnings and other insurance coverages and to name us as an additional insured under these policies. We monitor the adequacy of such coverages at least annually basis upon insurance renewal. In addition, we have separately purchased contingent general liability insurance, that provides coverage for bodily injury and property damage to third parties resulting from our ownership of the healthcare facilities that are leased to and occupied by our tenants, and contingent business interruption insurance. At December 31, 2014, we believe that the policy specifications and insured limits are appropriate given the relative risk of loss, the cost of the coverage, and industry practice.

Healthcare Regulatory Matters

The following discussion describes certain material federal healthcare laws and regulations that may affect our operations and those of our tenants. The discussion, however, does not address all applicable federal healthcare laws, and does not address state healthcare laws and regulations, except as otherwise indicated. These state laws and regulations, like the federal healthcare laws and regulations, could affect the operations of our tenants and, accordingly, our operations. In addition, in some instances we own a minority interest in our tenants’ operations and, in addition to the effect on these tenants’ ability to meet their financial obligations to us, our ownership and investment returns may also be negatively impacted by such laws and regulations. Moreover, the discussion relating to reimbursement for healthcare services addresses matters that are subject to frequent review and revision by Congress and the agencies responsible for administering federal payment programs. Consequently, predicting future reimbursement trends or changes, along with the potential impact to us, is inherently difficult.

Ownership and operation of hospitals and other healthcare facilities are subject, directly and indirectly, to substantial federal, state, and local government healthcare laws, rules, and regulations. Our tenants’ failure to comply with these laws and regulations could adversely affect their ability to meet their obligations to us.

Physician investment in us or in our facilities also will be subject to such laws and regulations. Although we are not a healthcare provider or in a position to influence the referral of patients or ordering of items and services reimbursable by the federal government, to the extent that a healthcare provider engages in transactions with our tenants, such as sublease or other financial arrangements, the Anti-Kickback Statute and the Stark Law (both discussed in this section) could be implicated. Our leases and mortgage loans require the tenants to comply with all applicable laws, including healthcare laws. We intend for all of our business activities and operations to conform in all material respects with all applicable laws, rules, and regulations, including healthcare laws, rules, and regulations.

Applicable Laws

Anti-Kickback Statute. The federal Anti-Kickback Statute (codified at 42 U.S.C. § 1320a-7b(b)) prohibits, among other things, the offer, payment, solicitation, or acceptance of remuneration, directly or indirectly, in return for referring an individual to a provider of items or services for which payment may be made in whole, or in part, under a federal healthcare program, including the Medicare or Medicaid programs. Violation of the Anti-Kickback Statute is a crime, punishable by fines of up to \$25,000 per violation, five years imprisonment, or both. Violations may also result in civil sanctions, including civil monetary penalties of up to \$50,000 per violation, exclusion from participation in federal healthcare programs, including Medicare and Medicaid, and additional monetary penalties in amounts treble to the underlying remuneration.

The Office of Inspector General of the Department of Health and Human Services (“OIG”) has issued “Safe Harbor Regulations” that describe practices that will not be considered violations of the Anti-Kickback Statute. Nonetheless, the fact that a particular arrangement does not meet safe harbor requirements does not also mean that the arrangement violates the Anti-Kickback Statute. Rather, the safe harbor regulations simply provide a guaranty that qualifying arrangements will not be prosecuted under the Anti-Kickback Statute. We intend to use commercially reasonable efforts to structure our arrangements involving facilities in which referring physicians are investors and tenants, and other arrangements with physicians, so as to satisfy, or meet as closely as possible, safe harbor conditions. We cannot assure you, however, that we will meet all the conditions for the safe harbor.

Physician Self-Referral Statute (“Stark Law”). Any physicians investing in us or our subsidiary entities could also be subject to the Ethics in Patient Referrals Act of 1989, or the Stark Law (codified at 42 U.S.C. § 1395nn). Unless subject to an exception, the Stark Law prohibits a physician from making a referral to an “entity” furnishing “designated health services,” including inpatient and outpatient hospital services, clinical laboratory services and radiology services, paid by Medicare or Medicaid if the physician or a member of his immediate family has a “financial relationship” with that entity. A reciprocal prohibition bars the entity from billing Medicare or Medicaid for any services furnished pursuant to a prohibited referral. Sanctions for violating the Stark Law include denial of payment, refunding amounts received for services provided pursuant to prohibited referrals, civil monetary penalties of up to \$15,000 per prohibited service provided, and exclusion from the participation in federal healthcare programs. The statute also provides for a penalty of up to \$100,000 for a circumvention scheme.

There are exceptions to the self-referral prohibition for many of the customary financial arrangements between physicians and providers, including employment contracts, leases, and recruitment agreements. Unlike safe harbors under the Anti-Kickback Statute, the Stark Law imposes strict liability and an arrangement must comply with every requirement of a Stark Law exception or the arrangement is in violation of the Stark Law.

Centers for Medicare and Medicaid Services (“CMS”) has issued multiple phases of final regulations implementing the Stark Law and continues to make changes to these regulations. While these regulations help clarify the exceptions to the Stark Law, it is unclear how the government will interpret many of these exceptions for enforcement purposes. Although our lease agreements require lessees to comply with the Stark Law, and we intend for facilities to comply with the Stark Law where we own an interest in our tenants’ operations, we cannot offer assurance that the arrangements entered into by us and our facilities will be found to be in compliance with the Stark Law, as it ultimately may be implemented or interpreted.

[Index to Financial Statements](#)

False Claims Act. The federal False Claims Act prohibits the making or presenting of any false claim for payment to the federal government; it is the civil equivalent to federal criminal provisions prohibiting the submission of false claims to federally funded programs. Additionally, *qui tam*, or whistleblower, provisions of the federal False Claims Act allow private individuals to bring actions on behalf of the government alleging that the defendant has defrauded the federal government. Whistleblowers may collect a portion of the government's recovery — an incentive which increases the frequency of such actions. A successful False Claims Act case may result in a penalty of three times actual damages, plus additional civil penalties payable to the government, plus reimbursement of the fees of counsel for the whistleblower. Many states have enacted similar statutes preventing the presentation of a false claim to a state government, and we expect more to do so because the Social Security Act provides a financial incentive for states to enact statutes establishing state level liability.

The Civil Monetary Penalties Law. Among other things, the Civil Monetary Penalties law prohibits the knowing presentation of a claim for certain healthcare services that is false or fraudulent, the presentation of false or misleading information in connection with claims for payment, and other acts involving fraudulent conduct. Penalties include a monetary civil penalty of up to \$10,000 for each item or service, \$15,000 for each individual with respect to whom false or misleading information was given, as well as treble damages for the total amount of remuneration claimed.

Licensure. The tenant operators of the healthcare facilities in our portfolio are subject to extensive federal, state, and local licensure, certification, and inspection laws and regulations including, in some cases, certificate of need laws. Further, various licenses and permits are required to dispense narcotics, operate pharmacies, handle radioactive materials, and operate equipment. Failure to comply with any of these laws could result in loss of licensure, certification or accreditation, denial of reimbursement, imposition of fines, and suspension or decertification from federal and state healthcare programs.

EMTALA. All of our healthcare facilities that provide emergency care are subject to the Emergency Medical Treatment and Active Labor Act ("EMTALA"). This federal law requires such facilities to conduct an appropriate medical screening examination of every individual who presents to the hospital's emergency room for treatment and, if the individual is suffering from an emergency medical condition, to either stabilize the condition or make an appropriate transfer of the individual to a facility able to handle the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of an individual's ability to pay for treatment. There are severe penalties under EMTALA if a hospital fails to screen or appropriately stabilize or transfer an individual or if the hospital delays appropriate treatment in order to first inquire about the individual's ability to pay. Liability for violations of EMTALA includes, among other things, civil monetary penalties and exclusion from participation in the federal healthcare programs. Our lease and mortgage loan agreements require our tenants to comply with EMTALA, and we believe our tenants conduct business in substantial compliance with EMTALA.

Reimbursement Pressures. Healthcare facility operating margins face significant pressure due to the deterioration in pricing flexibility and payor mix, increases in operating expenses that exceed increases in payments under the Medicare program, and reductions in levels of Medicaid funding due to state budget shortfalls.

Further, long term acute care hospitals ("LTACHs"), which account for a significant percentage of our tenants, are subject to reimbursement pressure resulting from the passage of the SGR Reform Act of 2013 (the "SGR Act") in December 2013. The SGR Act impacts the provision of, and payment for, services provided by LTACHs to Medicare beneficiaries. As of October 1, 2014, the SGR Act imposes new criteria for LTACHs to be paid under the LTACH prospective payment system rather than the acute inpatient prospective payment system, or "IPPS," rate. This "site-neutral" payment rate provides that LTACHs are reimbursed at the rate otherwise paid under the IPPS unless the patient has met certain qualifications. Payment at the IPPS rate results in reduced reimbursement. The SGR Act also delays full implementation of the so-called "25% rule" for three years, through fiscal year 2017. Under the 25% rule, if an LTACH admits more than the specified percentage of its

[Table of Contents](#)

[Index to Financial Statements](#)

patients from a single acute care hospital during a fiscal year, it will be paid at a rate comparable to the IPPS rate for patients above the specified percentage. Finally, as of January 1, 2015, the moratorium on establishing or increasing LTACH beds was reinstated, and the moratorium now extends through September 30, 2017.

We cannot predict how and to what extent these or other initiatives will impact the business of our tenants, or whether our business will be adversely impacted.

Healthcare Reform. Though we have not provided a detailed discussion of the Patient Protection and Affordable Care Act (the “Reform Law”), generally, the Reform Law provides expanded health insurance coverage through tax subsidies and federal health insurance programs, individual and employer mandates for health insurance coverage, and health insurance exchanges. The Reform Law also includes various cost containment initiatives, including quality control and payment system refinements for federal programs, such as pay-for-performance criteria and value-based purchasing programs, bundled provider payments, accountable care organizations, geographic payment variations, comparative effectiveness research, and lower payments for hospital readmissions. The Reform Law also increases health information technology standards for healthcare providers in an effort to improve quality and reduce costs. The Reform Law has led, and will continue to lead, to significant changes in the healthcare system. We cannot predict the continued impact of the Reform Law on our business, as some aspects benefit the operations of our tenants, while other aspects present challenges.

Our principal executive offices are located at 1000 Urban Center Drive, Suite 501, Birmingham, Alabama 35242. Our telephone number is (205) 969-3755. Medical Properties Trust, Inc. was incorporated under Maryland law on August 27, 2003, and MPT Operating Partnership, L.P. was formed under Delaware law on September 10, 2003. Medical Properties Trust, Inc. has operated as a REIT since April 6, 2004, and accordingly, elected REIT status upon the filing of its calendar year 2004 United States federal income tax return.

Employees

We have 45 employees as of February 26, 2015. As we continue to grow, we would expect our head count to increase as well. However, we do not believe that any adjustments to the number of employees will have a material effect on our operations or to general and administrative expenses as a percent of revenues. We believe that our relations with our employees are good. None of our employees are members of any union.

Available Information

Our website address is www.medicalproptiestrust.com and provides access in the “Investor Relations” section, free of charge, to our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, including exhibits, and all amendments to these reports as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission. Also available on our website, free of charge, are our Corporate Governance Guidelines, the charters of our Ethics, Nominating and Corporate Governance, Audit and Compensation Committees and our Code of Ethics and Business Conduct. If you are not able to access our website, the information is available in print free of charge to any stockholder who should request the information directly from us at (205) 969-3755. Information on or connected to our website is neither part of nor incorporated by reference into this Annual Report or any other SEC filings.

ITEM 1A. Risk Factors

The risks and uncertainties described herein are not the only ones facing us and there may be additional risks that we do not presently know of or that we currently consider not likely to have a significant impact on us. All of these risks could adversely affect our business, results of operations and financial condition. Some statements in this report including statements in the following risk factors constitute forward-looking statements. Please refer to the section entitled “Cautionary Language Regarding Forward Looking Statements” at the beginning of this Annual Report.

RISKS RELATED TO OUR BUSINESS AND GROWTH STRATEGY (Including Financing Risks)

Limited access to capital may restrict our growth.

Our business plan contemplates growth through acquisitions and development of facilities. As a REIT, we are required to make cash distributions, which reduce our ability to fund acquisitions and developments with retained earnings. We are dependent on acquisition financing and access to the capital markets for cash to make investments in new facilities. Due to market or other conditions, we may have limited access to capital from the equity and debt markets. We may not be able to obtain additional equity or debt capital or dispose of assets on favorable terms, if at all, at the time we need additional capital to acquire healthcare properties or to meet our obligations, which could have a material adverse effect on our results of operations and our ability to make distributions to our stockholders.

Our indebtedness could adversely affect our financial condition and may otherwise adversely impact our business operations and our ability to make distributions to stockholders.

As of February 26, 2015, we had \$1.9 billion of debt outstanding.

Our indebtedness could have significant effects on our business. For example, it could:

- require us to use a substantial portion of our cash flow from operations to service our indebtedness, which would reduce the available cash flow to fund working capital, development projects and other general corporate purposes and reduce cash for distributions;
- require payments of principal and interest that may be greater than our cash flow from operations;
- force us to dispose of one or more of our properties, possibly on disadvantageous terms, to make payments on our debt;
- increase our vulnerability to general adverse economic and industry conditions; limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- restrict us from making strategic acquisitions or exploiting other business opportunities;
- make it more difficult for us to satisfy our obligations; and
- place us at a competitive disadvantage compared to our competitors that have less debt.

Our future borrowings under our loan facilities may bear interest at variable rates in addition to the \$718.5 million in variable interest rate debt (excluding any debt we have fixed with interest rate swaps) that we had outstanding as of December 31, 2014. If interest rates increase significantly, our operating results would decline along with the cash available for distributions to our stockholders.

In addition, most of our current debt is, and we anticipate that much of our future debt will be, non-amortizing and payable in balloon payments. Therefore, we will likely need to refinance at least a portion of that debt as it matures. Although we have no significant debt maturities in 2015, there is a risk that we may not be able to refinance debt maturing in future years or that the terms of any refinancing will not be as favorable as the terms of the then-existing debt. If principal payments due at maturity cannot be refinanced, extended or repaid with proceeds from other sources, such as new equity capital or sales of facilities, our cash flow may not be sufficient to repay all maturing debt in years when significant balloon payments come due. Additionally, we may incur significant penalties if we choose to prepay the debt. See Item 7 of Part II of this Form 10-K for further information on debt maturities.

Covenants in our debt instruments limit our operational flexibility, and a breach of these covenants could materially affect our financial condition and results of operations.

The terms of our unsecured credit facility and the indentures governing our outstanding unsecured senior notes, and other debt instruments that we may enter into in the future are subject to customary financial and operational covenants. For example, our unsecured credit facility imposes certain restrictions on us, including restrictions on our ability to: incur debts; create or incur liens; provide guarantees in respect of obligations of any other entity; make redemptions and repurchases of our capital stock; prepay, redeem or repurchase debt; engage in mergers or consolidations; enter into affiliated transactions; dispose of real estate; and change our business. In addition, the agreements governing our unsecured credit facility limit the amount of dividends we can pay as a percentage of normalized adjusted funds from operations, as defined, on a rolling four quarter basis. Through the quarter ending December 31, 2014, the dividend restriction was 95% of normalized adjusted FFO. The indentures governing our senior unsecured notes also limit the amount of dividends we can pay based on the sum of 95% of funds from operations, proceeds of equity issuances and certain other net cash proceeds. Finally, our senior unsecured notes require us to maintain total unencumbered assets (as defined in the related indenture) of not less than 150% of our unsecured indebtedness.

Our continued ability to incur debt and operate our business is subject to compliance with the covenants in our debt instruments, which limit operational flexibility. Breaches of these covenants could result in defaults under applicable debt instruments, even if payment obligations are satisfied. Financial and other covenants that limit our operational flexibility, as well as defaults resulting from a breach of any of these covenants in our debt instruments, could have a material adverse effect on our financial condition and results of operations.

Failure to hedge effectively against interest rate changes may adversely affect our results of operations and our ability to make distributions to our stockholders.

Excluding our 2006 senior unsecured notes, as of February 26, 2015, we had \$416.5 million in variable interest rate debt, which constitutes 22% of our overall indebtedness and subjects us to interest rate volatility. We may seek to manage our exposure to interest rate volatility by using interest rate hedging arrangements, such as the \$125.0 million of interest rate swaps entered into in 2010 to fix the interest rate on our 2006 senior unsecured notes. However, even these hedging arrangements involve risk, including the risk that counterparties may fail to honor their obligations under these arrangements, that these arrangements may not be effective in reducing our exposure to interest rate changes and that these arrangements may result in higher interest rates than we would otherwise have. Moreover, no hedging activity can completely insulate us from the risks associated with changes in interest rates. Failure to hedge effectively against interest rate changes may materially adversely affect our results of operations and our ability to make distributions to our stockholders.

Dependence on our tenants for payments of rent and interest may adversely impact our ability to make distributions to our stockholders.

We expect to continue to qualify as a REIT and, accordingly, as a REIT operating in the healthcare industry, we are severely limited by current tax law with respect to our ability to operate or manage the businesses conducted in our facilities.

Accordingly, we rely heavily on rent payments from our tenants under leases or interest payments from operators under mortgage or other loans for cash with which to make distributions to our stockholders. We have no control over the success or failure of these tenants' businesses. Significant adverse changes in the operations of our facilities, or the financial condition of our tenants, operators or guarantors, could have a material adverse effect on our ability to collect rent and interest payments and, accordingly, on our ability to make distributions to our stockholders. Facility management by our tenants and their compliance with healthcare and other laws could have a material impact on our tenants' operating and financial condition and, in turn, their ability to pay rent and interest to us.

It may be costly to replace defaulting tenants and we may not be able to replace defaulting tenants with suitable replacements on suitable terms.

Failure on the part of a tenant to comply materially with the terms of a lease could give us the right to terminate our lease with that tenant, repossess the applicable facility, cross default certain other leases and loans with that tenant and enforce the payment obligations under the lease. The process of terminating a lease with a defaulting tenant and repossessing the applicable facility may be costly and require a disproportionate amount of management's attention. In addition, defaulting tenants or their affiliates may initiate litigation in connection with a lease termination or repossession against us or our subsidiaries. If a tenant-operator defaults and we choose to terminate our lease, we are then required to find another tenant-operator, such as the case was with our Monroe facility in 2014. The transfer of most types of healthcare facilities is highly regulated, which may result in delays and increased costs in locating a suitable replacement tenant. The sale or lease of these properties to entities other than healthcare operators may be difficult due to the added cost and time of refitting the properties. If we are unable to re-let the properties to healthcare operators, we may be forced to sell the properties at a loss due to the repositioning expenses likely to be incurred by non-healthcare purchasers. Alternatively, we may be required to spend substantial amounts to adapt the facility to other uses. There can be no assurance that we would be able to find another tenant in a timely fashion, or at all, or that, if another tenant were found, we would be able to enter into a new lease on favorable terms. Defaults by our tenants under our leases may adversely affect our results of operations, financial condition, and our ability to make distributions to our stockholders. Defaults by our significant tenants under master leases (like Prime, Ernest, RHM and Median) will have an even greater effect.

It may be costly to find new tenants when lease terms end and we may not be able to replace such tenants with suitable replacements on suitable terms.

Failure on the part of a tenant to renew or extend the lease at the end of its fixed term on one of our facilities could result in us having to search for, negotiate with and execute new lease agreements, such as the case with our two South Carolina facilities – Bennettsville and Cheraw. The process of finding and negotiating with a new tenant along with costs (such as maintenance, property taxes, utilities, etc.) that we will incur while the facility is untenanted may be costly and require a disproportionate amount of management's attention. There can be no assurance that we would be able to find another tenant in a timely fashion, or at all, or that, if another tenant were found, we would be able to enter into a new lease on favorable terms. If we are unable to re-let the properties to healthcare operators, we may be forced to sell the properties at a loss due to the repositioning expenses likely to be incurred by non-healthcare purchasers. Alternatively, we may be required to spend substantial amounts to adapt the facility to other uses. Thus, the non-renewal or extension of leases may adversely affect our results of operations, financial condition, and our ability to make distributions to our stockholders. This risk is even greater for those properties under master leases (like Prime and Ernest) because several properties have the same lease ending dates.

We have made investments in the operators of certain of our healthcare facilities and the cash flows (and related returns) from these investments are subject to more volatility than our properties with the traditional triple-net leasing structure.

Through December 31, 2014, we have made eleven investments in the operations of certain of our healthcare facilities by utilizing RIDEA investments. These RIDEA investments include profits interest, equity investments, and equity like loans that generate returns dependent upon the operator's performance. As a result, the cash flow and returns from these RIDEA investments may be more volatile than that of our traditional triple-net leasing structure. Our business, results of operations, and financial condition may be adversely affected if the related operators fail to successfully operate the facilities efficiently and in a manner that is in our best interest.

We have limited experience with healthcare facilities in Germany, United Kingdom or anywhere else outside the United States.

We have limited experience investing in healthcare properties or other real estate-related assets located outside the United States. Investing in real estate located in foreign countries, including Germany and the United Kingdom, creates risks associated with the uncertainty of foreign laws and markets including, without limitation, laws respecting foreign ownership, the enforceability of loan and lease documents and foreclosure laws. German real estate and tax laws are complex and subject to change, and we cannot assure you we will always be in compliance with those laws or that compliance will not expose us to additional expense. The properties we acquired in connection with the RHM Portfolio Acquisition and the Median Acquisition (as more fully described in Note 3 to Item 8 of this Form 10-K) will also face risks in connection with unexpected changes in German or European regulatory requirements, political and economic instability, potential imposition of adverse or confiscatory taxes, possible challenges to the anticipated tax treatment of the structures that allow us to acquire and hold investments, possible currency transfer restrictions, the difficulty in enforcing obligations in other countries and the burden of complying with a wide variety of foreign laws. In addition, to qualify as a REIT, we generally will be required to operate any non-U.S. investments in accordance with the rules applicable to U.S. REITs, which may be inconsistent with local practices. We may also be subject to fluctuations in German real estate values or markets or the German and European economy as a whole, which may adversely affect our German and any other European investments.

In addition, the rents payable under our leases of foreign assets are payable in either euros or British pounds, which could expose us to losses resulting from fluctuations in exchange rates to the extent we have not hedged our position, which in turn could adversely affect our revenues, operating margins and dividends, and may also affect the book value of our assets and the amount of stockholders' equity. Further, any international currency gain recognized with respect to changes in exchange rates may not qualify under the 75% gross income test that we must satisfy annually in order to qualify and maintain our status as a REIT. Although we expect to hedge some of our foreign currency risk, we may not be able to do so successfully and may incur losses on our investments as a result of exchange rate fluctuations. Furthermore, we are subject to laws and regulations, such as the Foreign Corrupt Practices Act and similar local anti-bribery laws, that generally prohibit companies and their employees, agents and contractors from making improper payments to governmental officials for the purpose of obtaining or retaining business. Failure to comply with these laws could subject us to civil and criminal penalties that could materially adversely affect our results of operations, the value of our international investments, and our ability to make distributions to our stockholders.

Our revenues are dependent upon our relationship with, and success of, our significant tenants.

As of December 31, 2014, our real estate portfolio included 132 healthcare properties in 27 states and in Germany and the United Kingdom of which 115 facilities were leased to 27 hospital operating companies and eight of the investments were in the form of mortgage loans. Affiliates of Prime leased or mortgaged 17 facilities, representing 20.0% of our total assets as of December 31, 2014. Total revenues from Prime were \$84.0 million, or 26.9% of our total revenue for the year ended December 31, 2014. Affiliates of Ernest leased or mortgaged 22 facilities, representing 13.0% of our total assets as of December 31, 2014. Total revenues from Ernest were \$57.3 million, or 18.3% of our total revenue for the year ended December 31, 2014.

In addition, affiliates of Waterland Private Equity Investments B.V. control RHM, the operator and lessee of 14 German facilities that we currently own, and Median, the operator and lessee of the 40 German facilities we expect to acquire via sale leaseback transactions in early 2015. Waterland has announced its intent to merge RHM and Median during the course of 2015. Pro forma for the merger, and after giving effect to the Median sale leaseback transactions (assuming full funding of our remaining development commitments), the combined Median-RHM portfolio will represent approximately 27% of our portfolio by investment amount.

Our relationships with our significant tenants, and their financial performance and resulting ability to satisfy their lease and loan obligations to us are material to our financial results and our ability to service our debt and make distributions to our stockholders. We are dependent upon the ability of our significant tenants to make rent and loan payments to us, and their failure or delay to meet these obligations could have a material adverse effect on our financial condition and results of operations. In addition, we are dependent on Ernest's financial performance and future cash flows to avoid any impairment on our \$96.5 million of RIDEA investments in them. For additional discussion of risks relating to our tenants' operations and obligations to comply with applicable industry laws, rules and regulations, see "Risks Relating to the Healthcare Industry" below.

We have now, and may have in the future, exposure to contingent rent escalators, which could hinder our growth and profitability.

We receive a significant portion of our revenues by leasing assets under long-term triple-net leases that generally provide for fixed rental rates subject to annual escalations. These annual escalations may be contingent on changes in the consumer price index, "CPI", typically with specified caps and floors. Certain of our other leases may provide for additional rents contingent upon a percentage of the tenant's revenues in excess of specified threshold. If, as a result of weak economic conditions or other factors, the CPI does not increase or the properties subject to these leases do not generate sufficient revenue to achieve the specified threshold, our growth and profitability may be hindered by these leases. In addition, if strong economic conditions result in significant increases in CPI, but the escalations under our leases are capped, our growth and profitability may be limited.

The bankruptcy or insolvency of our tenants or investees could harm our operating results and financial condition.

Some of our tenants/investees are, and some of our prospective tenants/investees may be, newly organized, have limited or no operating history and may be dependent on loans from us to acquire the facility's operations and for initial working capital. Any bankruptcy filings by or relating to one of our tenants/investees could bar us from collecting pre-bankruptcy debts from that tenant or their property, unless we receive an order permitting us to do so from the bankruptcy court. A tenant bankruptcy can be expected to delay our efforts to collect past due balances under our leases and loans, and could ultimately preclude collection of these sums. If a lease is assumed by a tenant in bankruptcy, we expect that all pre-bankruptcy balances due under the lease would be paid to us in full. However, if a lease is rejected by a tenant in bankruptcy, we would have only a general unsecured claim for damages. Any secured claims we have against our tenants may only be paid to the extent of the value of the collateral, which may not cover any or all of our losses. Any unsecured claim (such as our equity interests in our tenants) we hold against a bankrupt entity may be paid only to the extent that funds are available and only in the same percentage as is paid to all other holders of unsecured claims. We may recover none or substantially less than the full value of any unsecured claims, which would harm our financial condition.

At December 31, 2014, we had two facilities in which the tenant was still working through the bankruptcy process. These two tenants are current on their rental obligations through February 2015; however, no assurances can be made that we will not incur loss revenues on these properties in future periods.

Our business is highly competitive and we may be unable to compete successfully.

We compete for development opportunities and opportunities to purchase healthcare facilities with, among others:

- private investors, including large private equity funds;
- healthcare providers, including physicians;
- other REITs;
- real estate developers;
- government-sponsored and/or not-for-profit agencies;

[Table of Contents](#)

[Index to Financial Statements](#)

- financial institutions; and
- other lenders.

Some of these competitors may have substantially greater financial and other resources than we have and may have better relationships with lenders and sellers. Competition for healthcare facilities from competitors may adversely affect our ability to acquire or develop healthcare facilities and the prices we pay for those facilities. If we are unable to acquire or develop facilities or if we pay too much for facilities, our revenue, earnings growth and financial return could be materially adversely affected. Certain of our facilities, or facilities we may acquire or develop in the future will face competition from other nearby facilities that provide services comparable to those offered at our facilities. Some of those facilities are owned by governmental agencies and supported by tax revenues, and others are owned by tax-exempt corporations and may be supported to a large extent by endowments and charitable contributions. Those types of support are not generally available to our facilities. In addition, competing healthcare facilities located in the areas served by our facilities may provide healthcare services that are not available at our facilities and additional facilities we may acquire or develop. From time to time, referral sources, including physicians and managed care organizations, may change the healthcare facilities to which they refer patients, which could adversely affect our tenants and thus our rental revenues, interest income, and/or our earnings from equity investments.

Most of our current tenants have, and prospective tenants may have, an option to purchase the facilities we lease to them which could disrupt our operations.

Most of our current tenants have, and some prospective tenants will have, the option to purchase the facilities we lease to them. There is no assurance that the formulas we have developed for setting the purchase price will yield a fair market value purchase price.

In the event our tenants and prospective tenants determine to purchase the facilities they lease either during the lease term or after their expiration, the timing of those purchases will be outside of our control and we may not be able to re-invest the capital on as favorable terms, or at all. Our inability to effectively manage the turn-over of our facilities could materially adversely affect our ability to execute our business plan and our results of operations.

We have 90 leased properties that are subject to purchase options as of December 31, 2014. For 76 of these properties, the purchase option generally allows the lessee to purchase the real estate at the end of the lease term, as long as no default has occurred, at a price equivalent to the greater of (i) fair market value or (ii) our original purchase price (increased, in some cases, by a certain annual rate of return from lease commencement date). The lease agreements provide for an appraisal process to determine fair market value. For 11 of these properties, the purchase option generally allows the lessee to purchase the real estate at the end of the lease term, as long as no default has occurred, at our purchase price (increased, in some cases, by a certain annual rate of return from lease commencement date). For the remaining three leases, the purchase options approximate fair value. At December 31, 2014, none of our leases contained any bargain purchase options.

In certain circumstances, a prospective purchaser of our hospital real estate may be deemed to be subject to Anti-Kickback and Stark statutes, which are described on page 11 of this 2014 Form 10-K. In such event, it may not be practicable for us to sell property to such prospective purchasers at prices other than fair market value.

We may not be able to adapt our management and operational systems to manage the net-leased facilities we have acquired or are developing or those that we may acquire or develop in the future without unanticipated disruption or expense.

There is no assurance that we will be able to adapt our management, administrative, accounting and operational systems, or hire and retain sufficient operational staff, to manage the facilities we have acquired and those that we may acquire or develop, including those properties located in Europe or any future investments

[Table of Contents](#)

[Index to Financial Statements](#)

outside the United States. Our failure to successfully manage our current portfolio of facilities or any future acquisitions or developments could have a material adverse effect on our results of operations and financial condition and our ability to make distributions to our stockholders.

Merger and acquisition activity or consolidation in the healthcare industry may result in a change of control of, or a competitor's investment in, one or more of our tenants or operators, which could have a material adverse effect on us.

The healthcare industry has recently experienced increased consolidation, including among owners of real estate and healthcare providers. We compete with other healthcare REITs, healthcare providers, healthcare lenders, real estate partnerships, banks, insurance companies, private equity firms and other investors that pursue a variety of investments, which may include investments in our tenants or operators. We have historically developed strong, long-term relationships with many of our tenants and operators. A competitor's investment in one of our tenants or operators, any change of control of a tenant or operator, or a change in the tenant's or operator's management team could enable our competitor to influence or control that tenant's or operator's business and strategy in a manner that impairs our relationship with the tenant or operator or is otherwise adverse to our interests, or that could adversely affect the tenant's or operator's financial and operational performance and their ability to pay us rent or interest, any of which could have a material adverse effect on us. Depending on our contractual agreements and the specific facts and circumstances, we may have consent rights, termination rights, remedies upon default or other rights and remedies related to a competitor's investment in, a change of control of, or other transactions impacting a tenant or operator. In deciding whether to exercise our rights and remedies, including termination rights or remedies upon default, we assess numerous factors, including legal, contractual, regulatory, business and other relevant considerations.

We depend on key personnel, the loss of any one of whom may threaten our ability to operate our business successfully.

We depend on the services of Edward K. Aldag, Jr., R. Steven Hamner, and Emmett E. McLean to carry out our business and investment strategy. If we were to lose any of these executive officers, it may be more difficult for us to locate attractive acquisition targets, complete our acquisitions and manage the facilities that we have acquired or developed. Additionally, as we expand, we will continue to need to attract and retain additional qualified officers and employees. The loss of the services of any of our executive officers, or our inability to recruit and retain qualified personnel in the future, could have a material adverse effect on our business and financial results.

The market price and trading volume of our common stock may be volatile.

The market price of our common stock may be highly volatile and be subject to wide fluctuations. In addition, the trading volume in our common stock may fluctuate and cause significant price variations to occur. If the market price of our common stock declines significantly, you may be unable to resell your shares at or above your purchase price.

We cannot assure you that the market price of our common stock will not fluctuate or decline significantly in the future. Some of the factors that could negatively affect our share price or result in fluctuations in the price or trading volume of our common stock include:

- actual or anticipated variations in our quarterly operating results or distributions;
- changes in our funds from operations or earnings estimates or publication of research reports about us or the real estate industry;
- increases in market interest rates that lead purchasers of our shares of common stock to demand a higher yield;
- changes in market valuations of similar companies;

- adverse market reaction to any increased indebtedness we incur in the future;
- additions or departures of key management personnel;
- actions by institutional stockholders;
- local conditions such as an oversupply of, or a reduction in demand for, rehabilitation hospitals, long-term acute care hospitals, ambulatory surgery centers, medical office buildings, specialty hospitals, skilled nursing facilities, regional and community hospitals, women's and children's hospitals and other single-discipline facilities;
- speculation in the press or investment community; and
- general market and economic conditions.

Future sales of common stock may have adverse effects on our stock price.

We cannot predict the effect, if any, of future sales of common stock, or the availability of shares for future sales, on the market price of our common stock. Sales of substantial amounts of common stock, or the perception that these sales could occur, may adversely affect prevailing market prices for our common stock. We may issue from time to time additional common stock or units of our operating partnership in connection with the acquisition of facilities and we may grant additional demand or piggyback registration rights in connection with these issuances. Sales of substantial amounts of common stock or the perception that these sales could occur may adversely affect the prevailing market price for our common stock. In addition, the sale of these shares could impair our ability to raise future capital through a sale of additional equity securities.

Downgrades in our credit ratings could have a material adverse effect on our cost and availability of capital

As of February 26, 2015, our corporate credit rating from Standard and Poor's Ratings Service was BB+, and our corporate family rating from Moody's Investors Service was Ba1. There can be no assurance that we will be able to maintain our current credit ratings. Any downgrades in terms of ratings or outlook by any or all of the rating agencies could have a material adverse effect on our cost and availability of capital, which could in turn have a material adverse effect on our financial condition and results of operations.

An increase in market interest rates may have an adverse effect on the market price of our securities.

One of the factors that investors may consider in deciding whether to buy or sell our securities is our distribution rate as a percentage of our price per share of common stock, relative to market interest rates. If market interest rates increase, prospective investors may desire a higher distribution on our securities or seek securities paying higher distributions. The market price of our common stock likely will be based primarily on the earnings that we derive from rental and interest income with respect to our facilities and our related distributions to stockholders, and not from the underlying appraised value of the facilities themselves. As a result, interest rate fluctuations and capital market conditions can affect the market price of our common stock. In addition, rising interest rates would result in increased interest expense on our variable-rate debt, thereby adversely affecting cash flow and our ability to service our indebtedness and make distributions.

Ownership of property outside the United States may subject us to a different or greater risk than those associated with our domestic operations.

We currently have operations in Europe. International development, ownership, and operating activities involve risks that are different from those we face with respect to our domestic properties and operations. These risks include, but are not limited to, currency fluctuations; changes in foreign political, regulatory, and economic conditions; challenges in managing international operations (including the use of third-parties in providing accounting, legal, and other administrative functions); challenges of complying with a wide variety of foreign laws and regulations; foreign ownership restrictions with respect to operations in countries; and changes in

applicable laws and regulations in the United States that affect foreign operations. If we are unable to successfully manage the risks associated with international expansion and operations, our results of operations and financial condition may be adversely affected.

Changes in currency exchange rates may subject us to risk.

As our operations have expanded internationally where the U.S. dollar is not the denominated currency, currency exchange rate fluctuations could affect our results of operations and financial position. A significant change in the value of the foreign currency of one or more countries where we have a significant investment may have a material adverse effect on our financial position, debt covenant ratios, results of operations and cash flow.

Although we may enter into foreign exchange agreements with financial institutions and/or obtain local currency mortgage debt in order to reduce our exposure to fluctuations in the value of foreign currencies, we cannot assure you that foreign currency fluctuations will not have a material adverse effect on us.

RISKS RELATING TO REAL ESTATE INVESTMENTS

Our real estate, mortgage, and RIDEA investments are and are expected to continue to be concentrated in a single industry segment, making us more vulnerable economically than if our investments were more diversified.

We acquire, develop, and make mortgage investments in healthcare real estate. In addition, we selectively make RIDEA investments in healthcare operators. We are subject to risks inherent in concentrating investments in real estate. The risks resulting from a lack of diversification become even greater as a result of our business strategy to invest solely in healthcare facilities. A downturn in the real estate industry could materially adversely affect the value of our facilities. A downturn in the healthcare industry could negatively affect our tenants' ability to make lease or loan payments to us as well as our return on our RIDEA investments. Consequently, our ability to meet debt service obligations or make distributions to our stockholders are dependent on the real estate and healthcare industries. These adverse effects could be more pronounced than if we diversified our investments outside of real estate or outside of healthcare facilities.

Our facilities may not have efficient alternative uses, which could impede our ability to find replacement tenants in the event of termination or default under our leases.

All of the facilities in our current portfolio are and all of the facilities we expect to acquire or develop in the future will be net-leased healthcare facilities. If we or our tenants terminate the leases for these facilities or if these tenants lose their regulatory authority to operate these facilities, we may not be able to locate suitable replacement tenants to lease the facilities for their specialized uses. Alternatively, we may be required to spend substantial amounts to adapt the facilities to other uses. Any loss of revenues or additional capital expenditures occurring as a result could have a material adverse effect on our financial condition and results of operations and could hinder our ability to meet debt service obligations or make distributions to our stockholders.

Illiquidity of real estate investments could significantly impede our ability to respond to adverse changes in the performance of our facilities and harm our financial condition.

Real estate investments are relatively illiquid. Additionally, the real estate market is affected by many factors beyond our control, including adverse changes in global, national, and local economic and market conditions and the availability, costs and terms of financing. Our ability to quickly sell or exchange any of our facilities in response to changes in economic and other conditions will be limited. No assurances can be given that we will recognize full value for any facility that we are required to sell for liquidity reasons. Our inability to respond rapidly to changes in the performance of our investments could adversely affect our financial condition and results of operations.

Development and construction risks could adversely affect our ability to make distributions to our stockholders.

We have developed and constructed facilities in the past and are currently developing eleven facilities. We will develop additional facilities in the future as opportunities present themselves. Our development and related construction activities may subject us to the following risks:

- we may have to compete for suitable development sites;
- our ability to complete construction is dependent on there being no title, environmental or other legal proceedings arising during construction;
- we may be subject to delays due to weather conditions, strikes and other contingencies beyond our control;
- we may be unable to obtain, or suffer delays in obtaining, necessary zoning, land-use, building, occupancy healthcare regulatory and other required governmental permits and authorizations, which could result in increased costs, delays in construction, or our abandonment of these projects;
- we may incur construction costs for a facility which exceed our original estimates due to increased costs for materials or labor or other costs that we did not anticipate; and
- we may not be able to obtain financing on favorable terms, which may render us unable to proceed with our development activities.

We expect to fund our development projects over time. The time frame required for development and construction of these facilities means that we may have to wait for some time to earn significant cash returns. In addition, our tenants may not be able to obtain managed care provider contracts in a timely manner or at all. Finally, there is no assurance that future development projects will occur without delays and cost overruns. Risks associated with our development projects may reduce anticipated rental revenue which could affect the timing of, and our ability to make, distributions to our stockholders.

We may be subject to risks arising from future acquisitions of real estate.

We may be subject to risks in connection with our acquisition of healthcare real estate, including without limitation the following:

- we may have no previous business experience with the tenants at the facilities acquired, and we may face difficulties in managing them;
- underperformance of the acquired facilities due to various factors, including unfavorable terms and conditions of the existing lease agreements relating to the facilities, disruptions caused by the management of our tenants or changes in economic conditions;
- diversion of our management's attention away from other business concerns;
- exposure to any undisclosed or unknown potential liabilities relating to the acquired facilities; and
- potential underinsured losses on the acquired facilities.

We cannot assure you that we will be able to manage the new properties without encountering difficulties or that any such difficulties will not have a material adverse effect on us.

Our facilities may not achieve expected results or we may be limited in our ability to finance future acquisitions, which may harm our financial condition and operating results and our ability to make the distributions to our stockholders required to maintain our REIT status.

Acquisitions and developments entail risks that investments will fail to perform in accordance with expectations and that estimates of the costs of improvements necessary to acquire and develop facilities will prove inaccurate, as well as general investment risks associated with any new real estate investment. Newly-

[Table of Contents](#)

[Index to Financial Statements](#)

developed or newly-renovated facilities may not have operating histories that are helpful in making objective pricing decisions. The purchase prices of these facilities will be based in part upon projections by management as to the expected operating results of the facilities, subjecting us to risks that these facilities may not achieve anticipated operating results or may not achieve these results within anticipated time frames.

We anticipate that future acquisitions and developments will largely be financed through externally generated funds such as borrowings under credit facilities and other secured and unsecured debt financing and from issuances of equity securities. Because we must distribute at least 90% of our REIT taxable income, excluding net capital gains, each year to maintain our qualification as a REIT, our ability to rely upon income from operations or cash flows from operations to finance our growth and acquisition activities will be limited.

If our facilities do not achieve expected results and generate ample cash flows from operations or if we are unable to obtain funds from borrowings or the capital markets to finance our acquisition and development activities, amounts available for distribution to stockholders could be adversely affected and we could be required to reduce distributions, thereby jeopardizing our ability to maintain our status as a REIT.

If we suffer losses that are not covered by insurance or that are in excess of our insurance coverage limits, we could lose investment capital and anticipated profits.

Our leases generally require our tenants to carry property, general liability, professional liability, loss of earnings, all risk and extended coverage insurance in amounts sufficient to permit the replacement of the facility in the event of a total loss, subject to applicable deductibles. We carry general liability insurance and loss of earnings coverage on all of our properties as a contingent measure in case our tenant's coverage is not sufficient. However, there are certain types of losses, generally of a catastrophic nature, such as earthquakes, floods, hurricanes and acts of terrorism, which may be uninsurable or not insurable at a price we or our tenants can afford. Inflation, changes in building codes and ordinances, environmental considerations and other factors also might make it impracticable to use insurance proceeds to replace a facility after it has been damaged or destroyed. Under such circumstances, the insurance proceeds we receive might not be adequate to restore our economic position with respect to the affected facility. If any of these or similar events occur, it may reduce our return from the facility and the value of our investment. We continually review the insurance maintained by our tenants and operators and believe the coverage provided to be adequate and customary for similarly situated companies in our industry. However, we cannot provide any assurances that such insurance will be available at a reasonable cost in the future. Also, we cannot assure you that material uninsured losses, or losses in excess of insurance proceeds, will not occur in the future.

Our capital expenditures for facility renovation may be greater than anticipated and may adversely impact rent payments by our tenants and our ability to make distributions to stockholders.

Facilities, particularly those that consist of older structures, have an ongoing need for renovations and other capital improvements, including periodic replacement of fixtures and fixed equipment. Although our leases require our tenants to be primarily responsible for the cost of such expenditures, renovation of facilities involves certain risks, including the possibility of environmental problems, regulatory requirements, construction cost overruns and delays, uncertainties as to market demand or deterioration in market demand after commencement of renovation and the emergence of unanticipated competition from other facilities. All of these factors could adversely impact rent and loan payments by our tenants and returns on our RIDEA investments, which in turn could have a material adverse effect on our financial condition and results of operations along with our ability to make distributions to our stockholders.

All of our healthcare facilities are subject to property taxes that may increase in the future and adversely affect our business.

Our facilities are subject to real and personal property taxes that may increase as property tax rates change and as the facilities are assessed or reassessed by taxing authorities. Our leases generally provide that the

property taxes are charged to our tenants as an expense related to the facilities that they occupy. As the owner of the facilities, however, we are ultimately responsible for payment of the taxes to the government. If property taxes increase, our tenants may be unable to make the required tax payments, ultimately requiring us to pay the taxes. If we incur these tax liabilities, our ability to make expected distributions to our stockholders could be adversely affected. In addition, if such taxes increase on properties in which we have a RIDEA investment in the tenant, our return on investment may be negatively affected.

As the owner and lessor of real estate, we are subject to risks under environmental laws, the cost of compliance with which and any violation of which could materially adversely affect us.

Our operating expenses could be higher than anticipated due to the cost of complying with existing and future environmental laws and regulations. Various environmental laws may impose liability on the current or prior owner or operator of real property for removal or remediation of hazardous or toxic substances. Current or prior owners or operators may also be liable for government fines and damages for injuries to persons, natural resources and adjacent property. These environmental laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence or disposal of the hazardous or toxic substances. The cost of complying with environmental laws could materially adversely affect amounts available for distribution to our stockholders and could exceed the value of all of our facilities. In addition, the presence of hazardous or toxic substances, or the failure of our tenants to properly manage, dispose of or remediate such substances, including medical waste generated by physicians and our other healthcare tenants, may adversely affect our tenants or our ability to use, sell or rent such property or to borrow using such property as collateral which, in turn, could reduce our revenue and our financing ability. We typically obtain Phase I environmental assessments (or similar studies) on facilities we acquire or develop or on which we make mortgage loans, and intend to obtain on future facilities we acquire. However, even if the Phase I environmental assessment reports do not reveal any material environmental contamination, it is possible that material environmental contamination and liabilities may exist of which we are unaware.

Although the leases for our facilities and our mortgage loans generally require our operators to comply with laws and regulations governing their operations, including the disposal of medical waste, and to indemnify us for certain environmental liabilities, the scope of their obligations may be limited. We cannot assure you that our tenants would be able to fulfill their indemnification obligations and, therefore, any material violation of environmental laws could have a material adverse affect on us. In addition, environmental laws are constantly evolving, and changes in laws, regulations or policies, or changes in interpretations of the foregoing, could create liabilities where none exist today.

Our interests in facilities through ground leases expose us to the loss of the facility upon breach or termination of the ground lease and may limit our use of the facility.

We have acquired interests in eight of our facilities, at least in part, by acquiring leasehold interests in the land on which the facility is located rather than an ownership interest in the property, and we may acquire additional facilities in the future through ground leases. As lessee under ground leases, we are exposed to the possibility of losing the property upon termination, or an earlier breach by us, of the ground lease. Ground leases may also restrict our use of facilities, which may limit our flexibility in renting the facility and may impede our ability to sell the property.

Our acquisitions may not prove to be successful.

We are exposed to the risk that some of our acquisitions may not prove to be successful. We could encounter unanticipated difficulties and expenditures relating to any acquired properties, including contingent liabilities, and acquired properties might require significant management attention that would otherwise be devoted to our ongoing business. In addition, we might be exposed to undisclosed and unknown liabilities related to any acquired properties. If we agree to provide construction funding to an operator/tenant and the project is not

completed, we may need to take steps to ensure completion of the project. Moreover, if we issue equity securities or incur additional debt, or both, to finance future acquisitions, it may reduce our per share financial results. These costs may negatively affect our results of operations.

RISKS RELATING TO THE HEALTHCARE INDUSTRY

Reductions in reimbursement from third-party payors, could adversely affect the profitability of our tenants and hinder their ability to make payments to us.

Sources of revenue for our tenants and operators may include the Medicare and Medicaid programs, private insurance carriers and health maintenance organizations, among others. Efforts by such payors to reduce healthcare costs could continue, which may result in reductions or slower growth in reimbursement for certain services provided by some of our tenants. In addition, the failure of any of our tenants to comply with various laws and regulations could jeopardize their ability to continue participating in Medicare, Medicaid and other government-sponsored payment programs.

The United States healthcare industry continues to face various challenges, including increased government and private payor pressure on healthcare providers to control or reduce costs. We believe that our tenants will continue to experience a shift in payor mix away from fee-for-service payors, resulting in an increase in the percentage of revenues attributable to managed care payors, government payors and general industry trends that include pressures to control healthcare costs. Pressures to control healthcare costs and a shift away from traditional health insurance reimbursement have resulted in an increase in the number of patients whose healthcare coverage is provided under managed care plans, such as health maintenance organizations and preferred provider organizations. In addition, due to the aging of the population and the expansion of governmental payor programs, we anticipate that there will be a marked increase in the number of patients relying on healthcare coverage provided by governmental payors. These changes could have a material adverse effect on the financial condition of some or all of our tenants, which could have a material adverse effect on our financial condition and results of operations and could negatively affect our ability to make distributions to our stockholders. In instances where we have a RIDEA investment in our tenants' operations, in addition to the effect on these tenants' ability to meet their financial obligations to us, our ownership and investment interests may also be negatively impacted.

Over the past several years, CMS has increased its attention on reimbursement for LTACHs and inpatient rehabilitation facilities ("IRFs"), with CMS imposing regulatory restrictions on LTACH and IRF reimbursement. A significant number of our tenants operate LTACHs and IRFs. We expect that CMS will continue to explore implementing other restrictions on LTACH and IRF reimbursement, and possibly develop more restrictive facility and patient level criteria for these types of facilities. These changes could have a material adverse effect on the financial condition of some of our tenants, which could have a material adverse effect on our financial condition and results of operations and could negatively affect our ability to make distributions to our stockholders.

The United States healthcare industry is heavily regulated and loss of licensure or certification or failure to obtain licensure or certification could negatively impact our financial condition and results of operations.

The United States healthcare industry is highly regulated by federal, state and local laws (as discussed on pages 10-13), and is directly affected by federal conditions of participation, state licensing requirements, facility inspections, state and federal reimbursement policies, regulations concerning capital and other expenditures, certification requirements and other such laws, regulations and rules. We are aware of various federal and state inquiries, investigations and other proceedings currently affecting several of our tenants and would expect such governmental compliance and enforcement activities to be ongoing at any given time with respect to one or more of our tenants, either on a confidential or public basis. As discussed in further detail below, an adverse result to our tenants in one or more such governmental proceedings may have a materially adverse effect on the relevant tenant's operations and financial condition, and on its ability to make required lease and mortgage payments to

[Table of Contents](#)

[Index to Financial Statements](#)

us. In instances where we have a RIDEA investment in our tenants operations, in addition to the effect on these tenants' ability to meet their financial obligation to us, our ownership and investment interests may also be negatively impacted.

Licensed health care facilities must comply with minimum health and safety standards and are subject to survey and inspection by state and federal agencies and their agents or affiliates, including the CMS, the Joint Commission, and state departments of health. CMS develops Conditions of Participation and Conditions for Coverage that health care organizations must meet in order to begin and continue participating in the Medicare and Medicaid programs. These minimum health and safety standards are aimed at improving quality and protecting the health and safety of beneficiaries. There are several common criteria that exist across health entities. Examples of common conditions include: a governing body responsible for effectively governing affairs of the organization, a quality assurance program to evaluate entity-wide patient care, medical record service responsible for medical records, a utilization review of the services furnished by the organization and its staff, and a facility constructed, arranged and maintained according to a life safety code that ensures patient safety and the deliverance of services appropriate to the needs of the community.

As an example, the Medicare program contains specific requirements with respect to the maintenance of medical records. Medical records must be maintained for every individual who is evaluated or treated at a hospital. Medical records must be accurately written, promptly completed, properly filed and retained, and accessible. Medicare surveyors may conduct on site visits for a variety of reasons, including to investigate a patient complaint or to survey the hospital for compliance with Medicare requirements. In such instances, Medicare surveyors generally review a large sampling of patient charts. If a pattern of incomplete medical records is identified, the hospital's Medicare certification could be jeopardized if a plan of correction is not completed. In order for a healthcare organization to continue receiving payment from the Medicare and Medicaid programs, it must comply with conditions of participation, or standards, as set forth in federal regulations. Further, many hospitals and other institutional providers are accredited by accrediting agencies such as the Joint Commission, a national healthcare accrediting organization. The Joint Commission was created to accredit healthcare organizations that meet its minimum health and safety standards. A national accrediting organization, such as the Joint Commission, enforces standards that meet or exceed such requirements.

Surveyors for the Joint Commission, prior to the opening of a facility and approximately every three years thereafter, conduct on site surveys of facilities for compliance with a multitude of patient safety, treatment, and administrative requirements. Facilities may lose accreditation for failure to meet such requirements, which in turn may result in the loss of license or certification. For example, a facility may lose accreditation for failing to maintain proper medication in the operating room to treat potentially fatal reactions to anesthesia, or for failure to maintain safe and sanitary medical equipment.

Finally, healthcare facility reimbursement practices and quality of care issues may result in loss of license or certification. For instance, the practice of "upcoding," whereby services are billed for higher procedure codes than were actually performed, may lead to the revocation of a hospital's license. An event involving poor quality of care, such as that which leads to the serious injury or death of a patient, may also result in loss of license or certification. The Services Employees International Union ("SEIU") has alleged that our tenant, Prime may have upcoded for certain procedures and may be providing poor quality of care, in addition to allegations of delaying the transfer of out-of-network patients to their preferred medical provider once they have stabilized. Prime has addressed these allegations publicly and has provided clinical and other data to us refuting these allegations. Prime has also informed us that the SEIU is attempting to organize certain Prime employees. Prime recently disclosed an ongoing investigation by the United States Department of Justice into billing practices and patient confidentiality statuses.

The failure of any tenant to comply with such laws, requirements, and regulations resulting in a loss of its license would affect its ability to continue its operation of the facility and would adversely affect the tenant's ability to make lease and/or principal and interest payments to us. This, in turn, could have a material adverse

[Table of Contents](#)

[Index to Financial Statements](#)

effect on our financial condition and results of operations and could negatively affect our ability to make distributions to our shareholders. In instances where we have a RIDEA investment in our tenants' operations, in addition to the effects on these tenants' ability to meet their financial obligations to us, our ownership and investment interests would be negatively impacted.

In addition, establishment of healthcare facilities and transfers of operations of healthcare facilities are subject to regulatory approvals not required for establishment, or transfers, of other types of commercial operations and real estate. Restrictions and delays in transferring the operations of healthcare facilities, in obtaining new third-party payor contracts, including Medicare and Medicaid provider agreements, and in receiving licensure and certification approval from appropriate state and federal agencies by new tenants, may affect our ability to terminate lease agreements, remove tenants that violate lease terms, and replace existing tenants with new tenants. Furthermore, these matters may affect a new tenant's ability to obtain reimbursement for services rendered, which could adversely affect their ability to pay rent to us and/or to pay principal and interest on their loans from us. In instances where we have a RIDEA investment in our tenants' operations, in addition to the effect on these tenants' ability to meet their financial obligations to us, our ownership and investment interests may also be negatively impacted.

Our tenants are subject to fraud and abuse laws, the violation of which by a tenant may jeopardize the tenant's ability to make payments to us and adversely affect their profitability.

As noted earlier, the United States federal government and numerous state governments have passed laws and regulations that attempt to eliminate healthcare fraud and abuse by prohibiting business arrangements that induce patient referrals or the ordering of specific ancillary services. In addition, federal and state governments have significantly increased investigation and enforcement activity to detect and eliminate fraud and abuse in the Medicare and Medicaid programs. It is anticipated that the trend toward increased investigation and enforcement activity in the areas of fraud and abuse and patient self-referrals will continue in future years. Violations of these laws may result in the imposition of criminal and civil penalties, including possible exclusion from federal and state healthcare programs. Imposition of any of these penalties upon any of our tenants could jeopardize any tenant's ability to operate a facility or to make lease and loan payments, thereby potentially adversely affecting us. In instances where we have a RIDEA investment in our tenants' operations, in addition to the effect on the tenants' ability to meet their financial obligations to us, our ownership and investment interests may also be negatively impacted.

Some of our tenants have accepted, and prospective tenants may accept, an assignment of the previous operator's Medicare provider agreement. Such operators and other new-operator tenants that take assignment of Medicare provider agreements might be subject to federal or state regulatory, civil and criminal investigations of the previous owner's operations and claims submissions. While we conduct due diligence in connection with the acquisition of such facilities, these types of issues may not be discovered prior to purchase. Adverse decisions, fines or recoupments might negatively impact our tenants' financial condition, and in turn their ability to make lease and loan payments to us. In instances where we have a RIDEA investment in our tenants' operations, in addition to the effect on these tenants' ability to meet their financial obligations to us, our ownership and investment interests may also be negatively impacted.

Certain of our lease arrangements may be subject to fraud and abuse or physician self-referral laws.

Although no such investment exists today, local physician investment in our operating partnership or our subsidiaries that own our facilities could subject our lease arrangements to scrutiny under fraud and abuse and physician self-referral laws. Under the Stark Law, and its implementing regulations, if our lease arrangements do not satisfy the requirements of an applicable exception, the ability of our tenants to bill for services provided to Medicare beneficiaries pursuant to referrals from physician investors could be adversely impacted and subject us and our tenants to fines, which could impact our tenants' ability to make lease and loan payments to us. In instances where we have a RIDEA investment in our tenants' operations, in addition to the effect on the tenants' ability to meet their financial obligations to us, our ownership and investment interests may also be negatively impacted.

We intend to use our good faith efforts to structure our lease arrangements to comply with these laws; however, if we are unable to do so, this failure may restrict our ability to permit physician investment or, where such physicians do participate, may restrict the types of lease arrangements into which we may enter, including our ability to enter into percentage rent arrangements.

We may be required to incur substantial renovation costs to make certain of our healthcare properties suitable for other operators and tenants.

Healthcare facilities are typically highly customized and may not be easily adapted to non-healthcare-related uses. The improvements generally required to conform a property to healthcare use can be costly and at times tenant-specific. A new or replacement operator or tenant may require different features in a property, depending on that operator's or tenant's particular business. If a current operator or tenant is unable to pay rent and/or vacates a property, we may incur substantial expenditures to modify a property before we are able to secure another operator or tenant. Also, if the property needs to be renovated to accommodate multiple operators or tenants, we may incur substantial expenditures before we are able to re-lease the space. These expenditures or renovations may materially adversely affect our business, results of operations and financial condition.

State certificate of need laws may adversely affect our development of facilities and the operations of our tenants.

Certain healthcare facilities in which we invest may also be subject to state laws which require regulatory approval in the form of a certificate of need prior to initiation of certain projects, including, but not limited to, the establishment of new or replacement facilities, the addition of beds, the addition or expansion of services and certain capital expenditures. State certificate of need laws are not uniform throughout the United States and are subject to change. We cannot predict the impact of state certificate of need laws on our development of facilities or the operations of our tenants.

Certificate of need laws often materially impact the ability of competitors to enter into the marketplace of our facilities. In addition, in limited circumstances, loss of state licensure or certification or closure of a facility could ultimately result in loss of authority to operate the facility and require re-licensure or new certificate of need authorization to re-institute operations. As a result, a portion of the value of the facility may be related to the limitation on new competitors. In the event of a change in the certificate of need laws, this value may markedly change.

RISKS RELATING TO OUR ORGANIZATION AND STRUCTURE

Maryland law and our charter and bylaws contain provisions which may prevent or deter changes in management and third-party acquisition proposals that you may believe to be in your best interest, depress the price of Medical Properties common stock or cause dilution.

Our charter contains ownership limitations that may restrict business combination opportunities, inhibit change of control transactions and reduce the value of our common stock. To qualify as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, no more than 50% in value of our outstanding stock, after taking into account options to acquire stock, may be owned, directly or indirectly, by five or fewer persons during the last half of each taxable year. Our charter generally prohibits direct or indirect ownership by any person of more than 9.8% in value or in number, whichever is more restrictive, of outstanding shares of any class or series of our securities, including our common stock. Generally, our common stock owned by affiliated owners will be aggregated for purposes of the ownership limitation. The ownership limitation could have the effect of delaying, deterring or preventing a change in control or other transaction in which holders of common stock might receive a premium for their common stock over the then-current market price or which such holders otherwise might believe to be in their best interests. The ownership limitation provisions also may make our common stock an unsuitable investment vehicle for any person seeking to obtain, either alone or with others as a group, ownership of more than 9.8% of either the value or number of the outstanding shares of our common stock.

[Table of Contents](#)

[Index to Financial Statements](#)

Our charter and bylaws contain provisions that may impede third-party acquisition proposals that may be in the best interests of our stockholders. Our charter and bylaws also provide that our directors may only be removed by the affirmative vote of the holders of two-thirds of our common stock, that stockholders are required to give us advance notice of director nominations and new business to be conducted at our annual meetings of stockholders and that special meetings of stockholders can only be called by our president, our board of directors or the holders of at least 25% of stock entitled to vote at the meetings. These and other charter and bylaw provisions may delay or prevent a change of control or other transaction in which holders of our common stock might receive a premium for their common stock over the then-current market price or which such holders otherwise might believe to be in their best interests.

Our UPREIT structure may result in conflicts of interest between our stockholders and the holders of our operating partnership units.

We are organized as an UPREIT, which means that we hold our assets and conduct substantially all of our operations through an operating limited partnership, and may issue operating partnership units to employees and/or third parties. Persons holding operating partnership units would have the right to vote on certain amendments to the partnership agreement of our operating partnership, as well as on certain other matters. Persons holding these voting rights may exercise them in a manner that conflicts with the interests of our stockholders. Circumstances may arise in the future, such as the sale or refinancing of one of our facilities, when the interests of limited partners in our operating partnership conflict with the interests of our stockholders. As the sole member of the general partner of the operating partnership, we have fiduciary duties to the limited partners of the operating partnership that may conflict with fiduciary duties that our officers and directors owe to its stockholders. These conflicts may result in decisions that are not in the best interest of our stockholders.

We rely on information technology in our operations, and any material failure, inadequacy, interruption or security failure of that technology could harm our business.

We rely on information technology networks and systems, including the Internet, to process, transmit and store electronic information, and to manage or support a variety of business processes, including financial transactions and records, and maintaining personal identifying information and tenant and lease data. We purchase or license some of our information technology from vendors, on whom our systems depend. We rely on commercially available systems, software, tools and monitoring to provide security for the processing, transmission and storage of confidential tenant data. Although we have taken steps to protect the security of our information systems and the data maintained in those systems, it is possible that our safety and security measures will not prevent the systems' improper functioning or the improper access or disclosure of our or our tenant's information such as in the event of cyber-attacks. Security breaches, including physical or electronic break-ins, computer viruses, attacks by hackers and similar breaches, can create system disruptions, shutdowns or unauthorized disclosure of confidential information. The risk of security breaches has generally increased as the number, intensity and sophistication of attacks have increased. In some cases, it may be difficult to anticipate or immediately detect such incidents and the damage they cause. Any failure to maintain proper function, security and availability of our information systems could interrupt our operations, damage our reputation, subject us to liability claims or regulatory penalties and could have a materially adverse effect on our business, financial condition and results of operations.

TAX RISKS ASSOCIATED WITH OUR STATUS AS A REIT

Loss of our tax status as a REIT would have significant adverse consequences to us and the value of our common stock.

We believe that we qualify as a REIT for federal income tax purposes and have elected to be taxed as a REIT under the federal income tax laws commencing with our taxable year that began on April 6, 2004, and ended on December 31, 2004. The REIT qualification requirements are extremely complex, and interpretations of

the federal income tax laws governing qualification as a REIT are limited. Accordingly, there is no assurance that we will be successful in operating so as to qualify as a REIT. At any time, new laws, regulations, interpretations or court decisions may change the federal tax laws relating to, or the federal income tax consequences of, qualification as a REIT. It is possible that future economic, market, legal, tax or other considerations may cause our board of directors to revoke the REIT election, which it may do without stockholder approval.

If we lose or revoke our REIT status, we will face serious tax consequences that will substantially reduce the funds available for distribution because:

- we would not be allowed a deduction for distributions to stockholders in computing our taxable income; therefore we would be subject to federal income tax at regular corporate rates, and we might need to borrow money or sell assets in order to pay any such tax;
- we also could be subject to the federal alternative minimum tax and possibly increased state and local taxes; and
- unless we are entitled to relief under statutory provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year during which we ceased to qualify.

As a result of all these factors, a failure to achieve or a loss or revocation of our REIT status could have a material adverse effect on our financial condition and results of operations and would adversely affect the value of our common stock.

Failure to make required distributions would subject us to tax.

In order to qualify as a REIT, each year we must distribute to our stockholders at least 90% of our REIT taxable income, excluding net capital gains. To the extent that we satisfy the distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any year are less than the sum of (1) 85% of our ordinary income for that year; (2) 95% of our capital gain net income for that year; and (3) 100% of our undistributed taxable income from prior years.

We may be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution. Differences in timing between the recognition of income and the related cash receipts or the effect of required debt amortization payments could require us to borrow money or sell assets to pay out enough of our taxable income to satisfy the distribution requirement and to avoid corporate income tax and the 4% excise tax in a particular year. In the future, we may borrow to pay distributions to our stockholders and the limited partners of our operating partnership. Any funds that we borrow would subject us to interest rate and other market risks.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities.

To qualify as a REIT for United States federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our stock. In order to meet these tests, we may be required to forego attractive business or investment opportunities. Overall, no more than 25% of the value of our assets may consist of securities of one or more taxable REIT subsidiaries and no more than 25% of the value of our assets may consist of securities that are not qualifying assets under the test requiring that 75% of a REIT's assets consist of real estate and other related assets. In addition, at least 75% of our gross income must be generated from either rents from real estate or interest on loans secured by real estate (i.e. mortgage loans). Further, a taxable REIT subsidiary may not directly or indirectly operate or manage a healthcare facility. For purposes of this definition a "healthcare facility" means a hospital, nursing facility, assisted living facility, congregate care facility, qualified continuing care facility, or other licensed facility which extends medical or

[Table of Contents](#)

[Index to Financial Statements](#)

nursing or ancillary services to patients and which is operated by a service provider that is eligible for participation in the Medicare program under Title XVIII of the Social Security Act with respect to the facility. Thus, compliance with the REIT requirements may limit our flexibility in executing our business plan.

If certain sale-leaseback transactions are not characterized by the Internal Revenue Service (“IRS”) as “true leases,” we may be subject to adverse tax consequences.

We have purchased certain properties and leased them back to the sellers of such properties, and we may enter into similar transactions in the future. We intend for any such sale-leaseback transaction to be structured in a manner that the lease will be characterized as a “true lease,” thereby allowing us to be treated as the owner of the property for U.S. federal income tax purposes. However, depending on the terms of any specific transaction, the IRS might take the position that the transaction is not a “true lease” but is more properly treated in some other manner. In the event any sale-leaseback transaction is challenged and successfully re-characterized, we might fail to satisfy the REIT asset tests or income test and, consequently could lose our REIT status effective with the year of re-characterizations.

Transactions with taxable REIT subsidiaries may be subject to excise tax.

We have historically entered into lease and other transactions with our taxable REIT subsidiaries and their subsidiaries and expect to continue to do so in the future. Under applicable rules, transactions such as leases between our taxable REIT subsidiaries and their parent REIT that are not conducted on an arm’s length basis may be subject to a 100% excise tax. While we believe that all of our transactions with our taxable REIT subsidiaries are at arm’s length, imposition of a 100% excise tax could have a material adverse effect on our financial condition and results of operations and could adversely affect the trading price of our common stock

Loans to our tenants could be characterized as equity, in which case our income from that tenant might not be qualifying income under the REIT rules and we could lose our REIT status.

In connection with the acquisition in 2004 of certain Vibra facilities, one of our taxable REIT subsidiaries made a loan to Vibra to acquire the operations at those Vibra facilities. The acquisition loan bore interest at an annual rate of 10.25%. Our operating partnership loaned the funds to the taxable REIT subsidiary to make this loan. The loan from our operating partnership to the taxable REIT subsidiary bore interest at an annual rate of 9.25%.

Like the Vibra loan discussed above, our taxable REIT subsidiaries have made and will make loans to tenants in our facilities to acquire operations or for working capital purposes. The IRS may take the position that certain loans to tenants should be treated as equity interests rather than debt, and that our interest income from such tenant should not be treated as qualifying income for purposes of the REIT gross income tests. If the IRS were to successfully treat a loan to a particular tenant as equity interests, the tenant would be a “related party tenant” with respect to our company and the rent that we receive from the tenant would not be qualifying income for purposes of the REIT gross income tests. As a result, we could be in jeopardy of failing the 75% income test discussed above, which if we did would cause us to lose our REIT status. In addition, if the IRS were to successfully treat a particular loan as interests held by our operating partnership rather than by our taxable REIT subsidiaries, we could fail the 5% asset test, and if the IRS further successfully treated the loan as other than straight debt, we could fail the 10% asset test with respect to such interest. As a result of the failure of either test, we could lose our REIT status, which would subject us to corporate level income tax and adversely affect our ability to make distributions to our stockholders.

ITEM 1B. *Unresolved Staff Comments*

None.

ITEM 2. Properties

At December 31, 2014, our portfolio consisted of 132 properties: 115 facilities (of the 124 facilities that we owned) were in operation and leased or loaned to 27 operators, eight assets were in the form of first mortgage loans to three operators, and nine properties that were under construction. Our owned facilities consisted of 63 general acute care hospitals, 22 long-term acute care hospitals, 30 inpatient rehabilitation hospitals, three medical office buildings, and six wellness centers. The eight non-owned facilities on which we made mortgage loans consisted of four general acute care facilities, one long-term acute care hospital, and three inpatient rehabilitation hospitals to three operators.

Total	<u>115</u>	<u>\$251,584</u>	<u>100.0%</u>	<u>12,845,587</u>	<u>10,052</u>

- (1) The most recent monthly base rent and income from direct financing leases annualized. This does not include tenant recoveries, additional rents and other lease-related adjustments to revenue (i.e., straight-line rents and deferred revenues).
(2) Excludes our nine facilities that are under development.

ITEM 3. Legal Proceedings

From time to time, there are various legal proceedings pending to which we are a party or to which some of our properties are subject to arising in the normal course of business. At this time, we do not believe that the ultimate resolution of these proceedings will have a material adverse effect on our consolidated financial position or results of operations.

ITEM 4. Mine Safety Disclosures

None.

PART II

ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities

(a) Medical Properties' common stock is traded on the New York Stock Exchange under the symbol "MPW." The following table sets forth the high and low sales prices for the common stock for the periods indicated, as reported by the New York Stock Exchange Composite Tape, and the dividends per share declared by us with respect to each such period.

	<u>High</u>	<u>Low</u>	<u>Dividends</u>
Year ended December 31, 2014			
First Quarter	\$ 13.66	\$ 12.09	\$ 0.21
Second Quarter	13.97	12.65	0.21
Third Quarter	14.14	12.18	0.21
Fourth Quarter	14.22	12.23	0.21
Year ended December 31, 2013			
First Quarter	\$ 16.04	\$ 12.14	\$ 0.20
Second Quarter	17.73	13.19	0.20
Third Quarter	15.50	11.47	0.20
Fourth Quarter	13.52	11.87	0.21

On February 26, 2015, the closing price for our common stock, as reported on the New York Stock Exchange, was \$15.03 per share. As of February 26, 2015, there were 61 holders of record of our common stock. This figure does not reflect the beneficial ownership of shares held in nominee name.

To qualify as a REIT, we must distribute at least 90% of our REIT taxable income, excluding net capital gain, as dividends to our stockholders. If dividends are declared in a quarter, those dividends will be paid during the subsequent quarter. We expect to continue the policy of distributing our taxable income through regular cash dividends on a quarterly basis, although there is no assurance as to future dividends because they depend on future earnings, capital requirements, and our financial condition. In addition, our unsecured credit facility limits the amounts of dividends we can pay — see Note 4 of Item 8 of this Annual Report on Form 10-K for more information.

(b) Not applicable.

(c) None.

[Table of Contents](#)

[Index to Financial Statements](#)

The following graph provides comparison of cumulative total stockholder return for the period from December 31, 2009 through December 31, 2014, among Medical Properties Trust, Inc., the Russell 2000 Index, NAREIT Equity REIT Index, and SNL US REIT Healthcare Index. The stock performance graph assumes an investment of \$100 in each of Medical Properties Trust, Inc. and the three indices, and the reinvestment of dividends. The historical information below is not indicative of future performance.

Index	Period Ending					
	12/31/09	12/31/10	12/31/11	12/31/12	12/31/13	12/31/14
Medical Properties Trust, Inc.	100.00	116.98	115.02	150.89	163.55	196.49
Russell 2000	100.00	126.86	121.56	141.43	196.34	205.95

SNL US REIT Healthcare	100.00	119.30	136.58	163.99	153.70	204.68

The graph and accompanying text shall not be deemed incorporated by reference by any general statement incorporating by reference this Annual Report on Form 10-K into any filing under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended.

ITEM 6. Selected Financial Data

The following tables set forth are selected consolidated financial and operating data for Medical Properties Trust, Inc. and MPT Operating Partnership, L.P. and their respective subsidiaries. You should read the following selected financial data in conjunction with the consolidated historical financial statements and notes thereto of each of Medical Properties Trust, Inc. and MPT Operating Partnership, L.P. and their respective subsidiaries included in Item 8, in this Annual Report on Form 10-K, along with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7, in this Annual Report on Form 10-K.

Medical Properties Trust, Inc.

The consolidated balance sheet and operating data have been derived from our audited consolidated financial statements. As of December 31, 2014, Medical Properties Trust, Inc. had a 99.8% equity ownership interest in the Operating Partnership. Medical Properties Trust, Inc. has no significant operations other than as the sole member of its wholly owned subsidiary, Medical Properties Trust, LLC, which is the sole general partner of the Operating Partnership, and no material assets, other than its direct and indirect investment in the Operating Partnership.

	2014(1)	2013(1)	2012(1)	2011(1)	2010(1)
OPERATING DATA	(In thousands except per share data)

- (1) Cash paid for acquisitions and other related investments totaled \$767.7 million, \$654.9 million, \$621.5 million, \$279.0 million, and \$137.8 million in 2014, 2013, 2012, 2011, and 2010, respectively. The results of operations resulting from these investments are reflected in our consolidated financial statements from the dates invested. See Note 3 in Item 8 of this Annual Report on Form 10-K for further information on acquisitions of real estate, new loans, and other investments. We funded these investments generally from issuing common stock, utilizing additional amounts of our revolving facility, incurring additional debt, or from the sale of facilities. See Notes 4, 9, and 11, in Item 8 on this Annual Report on Form 10-K for further information regarding our debt, common stock and discontinued operations, respectively.
- (2) Includes \$5.8 million and \$12.0 million in transfer taxes in 2014 and 2013, respectively, related to our property acquisitions in foreign jurisdictions.

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operation

Unless otherwise indicated, references to "our," "we" and "us" in this management's discussion and analysis of financial condition and results of operations refer to Medical Properties Trust, Inc. and its consolidated subsidiaries, including MPT Operating Partnership, L.P.

Overview

We were incorporated in Maryland on August 27, 2003, primarily for the purpose of investing in and owning net-leased healthcare facilities. We also make real estate mortgage loans and other loans to our tenants. We conduct our business operations in one segment. With the acquisition of properties in Germany and the United Kingdom in 2013 and 2014, we have healthcare investments in the United States and Europe. We have operated as a REIT since April 6, 2004, and accordingly, elected REIT status upon the filing of our calendar year 2004 United States Federal income tax return. Our existing tenants are, and our prospective tenants will generally be, healthcare operating companies and other healthcare providers that use substantial real estate assets in their operations. We offer financing for these operators' real estate through 100% lease and mortgage financing and generally seek lease and loan terms on a long-term basis ranging from 10 to 15 years with a series of shorter renewal terms at the option of our tenants and borrowers. We also have included and intend to include in our lease and loan agreements annual contractual minimum rate increases. Our existing portfolio minimum escalators range from 0.5% to 4%, while a limited number of our properties do not have an escalator. Most of our leases and loans also include rate increases based on the general rate of inflation if greater than the minimum contractual increases. In addition to rent or mortgage interest, our leases and loans typically require our tenants to pay all operating costs and expenses associated with the facility. Some leases also may require our tenants to pay percentage rents, which are based on the level of the tenant's revenues from their operations. Finally, we may acquire a profits or other equity interest in our tenants (which we refer to as RIDEA investments) that gives us a right to share in the tenant's income or loss.

We selectively make loans to certain of our operators through our taxable REIT subsidiaries, which they use for acquisitions and working capital. We consider our lending business an important element of our overall business strategy for two primary reasons: (1) it provides opportunities to make income-earning investments that yield attractive risk-adjusted returns in an industry in which our management has expertise, and (2) by making debt capital available to certain qualified operators, we believe we create for our company a competitive advantage over other buyers of, and financing sources for, healthcare facilities.

At December 31, 2014, our portfolio consisted of 132 properties leased or loaned to 27 operators, of which nine are under development and eight are in the form of mortgage loans.

2014 Highlights

In 2014, we invested or committed to invest approximately \$1.4 billion in healthcare real estate assets — the highest in our history. These significant investments greatly strengthened our portfolio through geographic, tenant and property type diversification. We expanded total assets by 29%, increased revenues by 29%, completed additional acquisitions in Europe, and reduced our concentration with affiliates of Prime.

A summary of our 2014 highlights is as follows:

- Acquired real estate assets, entered into development agreements, entered into leases and made new loan investments, totaling more than \$1.4 billion as noted below:
 - Completed Step 1 of the acquisition, with Waterland Private Equity, of MEDIAN Kliniken Group. Upon the completion of Step 2 (sale-leaseback step) in early 2015, we will have added 38 rehabilitation and two acute care hospitals valued at approximately €705 million (or approximately \$881 million);

[Index to Financial Statements](#)

- Completed the acquisition of three RHM Klinik rehabilitation facilities located in Germany for a transaction valued at approximately €64 (or approximately \$80.8 million) incurring approximately €3.0 million (or approximately \$3.6 million) of transfer and other taxes that have been expensed as acquisition costs;
- Acquired an acute care hospital in Fairmont, West Virginia for an aggregate purchase price of \$15 million from Alecto Healthcare Services (“Alecto”), made a \$5 million working capital loan to the tenant and a commitment to fund up to \$5 million in capital improvements;
- Acquired an acute care hospital in Sherman, Texas for an aggregate purchase price of \$32.5 million from Alecto and funded \$7.5 million working capital loan to the tenant;
- Entered the United Kingdom healthcare market by acquiring an acute care hospital in Peasedown St. John, United Kingdom from Circle Health Ltd., through its subsidiary Circle Hospital (Bath) Ltd. valued at approximately £28.3 million (approximately \$48.0 million) incurring approximately £1.1 million (approximately \$1.9 million) of transfer and other taxes that have been expensed as acquisition costs;
- Acquired a general acute care hospital and an adjacent parcel of land for an aggregate purchase price of \$115 million from a joint venture of LHP Hospital Group, Inc. and Hackensack University Medical Center Mountainside;
- Executed an additional \$150 million agreement with Adeptus Health for the development of acute care hospitals and free-standing emergency departments (began construction on five of these facilities in 2014);
- Completed construction and began recording rental income on the following facilities:
 - Northern Utah Rehabilitation Hospital — \$19 million inpatient rehabilitation facility located in South Ogden, Utah;
 - Oakleaf Surgical Hospital — \$30.5 million acute care facility located in Altoona, Wisconsin;
 - First Choice ER (a subsidiary of Adeptus Health) — Completed 17 acute care facilities totaling approximately \$80.3 million.

With these new investments, many of our diversification metrics have improved including:

- Individual property diversification — On an individual property basis, we had no investment of any single property greater than 3.1% of our total assets as of December 31, 2014, down from 3.9% as of December 31, 2013;
 - Geographic diversification — Investments located in California represented 14.6% of our total assets at December 31, 2014, down from 18.7% in the prior year. Investments located in Texas represented 20.2% of our total assets at December 31, 2014, down from 22.7% in the prior year. In addition, we further expanded our portfolio into Europe with the additional RHM acquisitions, Circle Bath and Median transaction (as fully described in Note 3 in Item 8 of this Annual Report on Form 10-K).
- Sold the real estate of La Palma Community Hospital to Prime Healthcare recognizing a gain on sale of \$2.9 million;
 - Sold the real estate of our Bucks facility pursuant to a purchase option, resulting in a \$3.1 million impairment charge;
 - Restructured our investment in Monroe Hospital by entering into a lease with an affiliate of Prime which had acquired the operations of the facility;

- Completed a new \$1.15 billion senior unsecured credit facility comprised of a \$1.025 billion senior unsecured revolving credit facility and a \$125 million senior unsecured term loan facility, issued \$300 million of unsecured notes, and raised \$138 million in equity to fund the acquisition activity mentioned above; and
- Received investment grade rating on our unsecured debt of BBB- and a corporate credit rating upgrade from Standard & Poor's Ratings Services to BB+.

2013 Highlights

In 2013, we leveraged our expertise in healthcare real estate, finance and operations to continue executing our strategy to grow and diversify our portfolio of hospital-only investments. We completed our first international acquisition.

A summary of the 2013 highlights is as follows:

- Acquired real estate assets, entered into development agreements, entered into leases and made new loan investments, totaling more than \$700 million as noted below:
 - Completed the €184 million acquisition of 11 German facilities in a sale/leaseback transaction with a new tenant to us, valued at approximately \$250 million (including transfer taxes of \$12 million). This acquisition expanded both our geographic and tenant diversity;
 - Completed the \$281.3 million acquisition of the real estate of three general acute care hospitals from affiliates of IASIS Healthcare LLC ("IASIS") via a sale/leaseback transaction;
 - Acquired the real estate of Esplanade Rehab Hospital in Corpus Christi, Texas (now operating as Corpus Christi Rehabilitation Hospital) for \$15.8 million, which is leased to Ernest under the 2012 master lease;
 - Acquired the real estate of two acute care hospitals in Kansas from affiliates of Prime for a combined purchase price of \$75 million. These properties are leased to Prime pursuant to the master lease agreements;
 - Commenced construction of several facilities pursuant to a master funding and development agreement with First Choice Emergency Room, LLC ("First Choice") to develop up to 25 free standing emergency rooms (the remaining of these facilities were completed in 2014);
 - Financed the development of inpatient rehabilitation facilities in South Ogden, Utah and Post Falls, Idaho for a total of \$33.5 million, which is leased to Ernest under the 2012 master lease (Post Falls was completed in 2013 and the Ogden facility opened in the 2014 first quarter); and
 - Provided a \$20 million mortgage financing to Alecto for the 204-bed Olympia Medical Center.
- Sold the real estate of an inpatient rehabilitation facility, Warm Springs Rehabilitation Hospital of San Antonio, for \$14 million, resulting in a gain on sale of \$5.6 million;
- Sold two long-term acute care hospitals in Texas and Arizona, CHG Cornerstone Hospital of Houston, L.P. and Cornerstone Hospital of Southeast Arizona, for total cash proceeds of \$18.5 million, resulting in a \$2.1 million gain on the sale.
- Issued \$150 million of unsecured notes (as a tack on to the 2012 unsecured senior notes), completed a €200 million euro-denominated (approximately \$275 million) long-term fixed rate debt transaction at an annual coupon of 5.75%, and raised \$313 million in equity to fund our acquisition activity above.

2012 Highlights

In 2012, we achieved a number of important milestones, including increasing our assets beyond the \$2 billion mark and driving revenues above \$200 million. A summary of the 2012 highlights is as follows:

- Acquired real estate assets, entered into development agreements, entered into leases, made new loan investments, made RIDEA investments and committed to new development projects totaling more than \$800 million as noted below:
 - Made loans to and acquired assets from Ernest for a combined purchase price and investment of \$396.5 million, consisting of \$200 million to purchase real estate assets, a first mortgage loan of \$100 million, and \$96.5 million in RIDEA investments made up of an acquisition loan for \$93.2 million and an equity contribution of \$3.3 million. With this acquisition, we took ownership of 16 new facilities;
 - Funded a \$100 million mortgage loan secured by the real property of Centinela Hospital Medical Center. Centinela is a 369 bed acute care facility that is operated by Prime;
 - Acquired the real estate of the 380 bed St. Mary's Regional Medical Center, an acute care hospital in Reno, Nevada for \$80 million and the real estate of the 140-bed Roxborough Memorial Hospital in Pennsylvania for \$30 million. The acquired facilities are leased to Prime;
 - Acquired the real estate of a 40-bed long-term acute care hospital in Hammond, Louisiana for \$10.5 million and leased the facility to the operator under a 15-year lease. As part of this transaction, we made a secured working capital loan of \$2.5 million as well as a revolving loan of up to \$2.0 million. In addition, we have made a \$2.0 million RIDEA investment for a 25% equity ownership in the operator of this facility;
 - Entered into an agreement to develop and lease an acute care facility in Altoona, Wisconsin for \$33.5 million, with National Surgical Hospitals. The facility was completed in the third quarter of 2014;
 - Agreed to fund the construction of an inpatient rehabilitation hospital in Spartanburg, South Carolina for Ernest. This facility opened in the third quarter of 2013;
 - Entered into an agreement with Ernest to develop and lease a 40-bed rehabilitation hospital in Lafayette, Indiana, which opened in the 2013 first quarter;
 - Amended the current lease on our Victoria, Texas facility with Post Acute Medical to extend the current lease term to 2028, and we agreed to develop and lease a 26-bed facility next to the existing facility. The new facility was completed in the fourth quarter of 2013.
 - Committed to fund \$100 million to First Choice ER, LLC in development financing for up to 25 freestanding emergency room facilities.
- Signed our lead tenant for the Twelve Oaks property representing approximately 55% of the building. Operations commenced for this tenant in January 2013;
- Sold the real estate of two long-term acute care facilities, Thornton and New Bedford, to Vibra for total cash proceeds of \$42 million. The sale of Thornton was completed on September 28, 2012, resulting in a gain of \$8.4 million. The sale of New Bedford was completed on October 22, 2012, resulting in a gain of approximately \$7 million; and
- Established a \$100 million term loan facility, issued \$220 million of unsecured notes, and \$220 million in equity and increased our revolving credit facility by \$70 million for the purpose of funding our acquisition activity above.

Critical Accounting Policies

In order to prepare financial statements in conformity with accounting principles generally accepted in the United States, we must make estimates about certain types of transactions and account balances. We believe that

[Table of Contents](#)

[Index to Financial Statements](#)

our estimates of the amount and timing of our revenues, credit losses, fair values (either as part of a purchase price allocation, impairment analysis or in valuing certain of our Ernest investments), periodic depreciation of our real estate assets, and stock compensation expense, along with our assessment as to whether an entity that we do business with should be consolidated with our results, have significant effects on our financial statements. Each of these items involves estimates that require us to make subjective judgments. We rely on our experience, collect historical and current market data, and develop relevant assumptions to arrive at what we believe to be reasonable estimates. Under different conditions or assumptions, materially different amounts could be reported related to the critical accounting policies described below. In addition, application of these critical accounting policies involves the exercise of judgment on the use of assumptions as to future uncertainties and, as a result, actual results could materially differ from these estimates. Our accounting estimates include the following:

Revenue Recognition: We receive income from operating leases based on the fixed, minimum required rents (base rents) per the lease agreements. Rent revenue from base rents is recorded on the straight-line method over the terms of the related lease agreements for new leases and the remaining terms of existing leases for those acquired as part of a property acquisition. The straight-line method records the periodic average amount of base rent earned over the term of a lease, taking into account contractual rent adjustments over the lease term. The straight-line method typically has the effect of recording more rent revenue from a lease than a tenant is required to pay early in the term of the lease. During the later parts of a lease term, this effect reverses with less rent revenue recorded than a tenant is required to pay. Rent revenue, as recorded on the straight-line method, in the consolidated statements of income is presented as two amounts: billed rent revenue and straight-line revenue. Billed rent revenue is the amount of base rent actually billed to the customer each period as required by the lease. Straight-line rent revenue is the difference between rent revenue earned based on the straight-line method and the amount recorded as billed rent revenue. We record the difference between base rent revenues earned and amounts due per the respective lease agreements, as applicable, as an increase or decrease to straight-line rent receivable.

Certain leases may provide for additional rents contingent upon a percentage of the tenant's revenues in excess of specified base amount/threshold (percentage rents). Percentage rents are recognized in the period in which revenue thresholds are met. Rental payments received prior to their recognition as income are classified as deferred revenue. We also receive additional rent (contingent rent) under some leases based on increases in the consumer price index or where the consumer price index exceeds the annual minimum percentage increase in the lease. Contingent rents are recorded as billed rent revenue in the period earned.

We use direct finance lease accounting ("DFL") to record rent on certain leases deemed to be financing leases, per accounting rules, rather than operating leases. For leases accounted for as DFLs, future minimum lease payments are recorded as a receivable. The difference between the future minimum lease payments and the estimated residual values less the cost of the properties is recorded as unearned income. Unearned income is deferred and amortized to income over the lease terms to provide a constant yield when collectability of the lease payments is reasonably assured. Investments in DFLs are presented net of unamortized and unearned income.

In instances where we have a profits or equity interest in our tenant's operations, we record income equal to our percentage interest of the tenant's profits, as defined in the lease or tenant's operating agreements, once annual thresholds, if any, are met.

We begin recording base rent income from our development projects when the lessee takes physical possession of the facility, which may be different from the stated start date of the lease. Also, during construction of our development projects, we are generally entitled to accrue rent based on the cost paid during the construction period (construction period rent). We accrue construction period rent as a receivable with a corresponding offset to deferred revenue during the construction period. When the lessee takes physical possession of the facility, we begin recognizing the deferred construction period revenue on the straight-line method over the remaining term of the lease.

We receive interest income from our tenants/borrowers on mortgage loans, working capital loans, and other long-term loans. Interest income from these loans is recognized as earned based upon the principal outstanding and terms of the loans.

[Table of Contents](#)

[Index to Financial Statements](#)

Commitment fees received from development and leasing services for lessees are initially recorded as deferred revenue and recognized as income over the initial term of a lease to produce a constant effective yield on the lease (interest method). Commitment and origination fees from lending services are also recorded as deferred revenue initially and recognized as income over the life of the loan using the interest method.

Investments in Real Estate: We maintain our investments in real estate at cost, and we capitalize improvements and replacements when they extend the useful life or improve the efficiency of the asset. While our tenants are generally responsible for all operating costs at a facility, to the extent that we incur costs of repairs and maintenance, we expense those costs as incurred. We compute depreciation using the straight-line method over the weighted-average useful life of approximately 38 years for buildings and improvements.

When circumstances indicate a possible impairment of the value of our real estate investments, we review the recoverability of the facility's carrying value. The review of the recoverability is generally based on our estimate of the future undiscounted cash flows, excluding interest charges, from the facility's use and eventual disposition. Our forecast of these cash flows considers factors such as expected future operating income, market and other applicable trends, and residual value, as well as the effects of leasing demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a facility on an undiscounted basis, such as was the case with our Monroe and Bucks facilities in 2014, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair value of the facility. We do not believe that the value of any of our facilities was impaired at December 31, 2014; however, given the highly specialized aspects of our properties no assurance can be given that future impairment charges will not be taken.

Acquired Real Estate Purchase Price Allocation: For existing properties acquired for leasing purposes, we account for such acquisitions based on business combination accounting rules. We allocate the purchase price of acquired properties to net tangible and identified intangible assets acquired based on their fair values. In making estimates of fair values for purposes of allocating purchase prices of acquired real estate, we may utilize a number of sources, including available real estate broker data, independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, internal data from previous acquisitions or developments, and other market data. We also consider information obtained about each property as a result of our pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired.

We record above-market and below-market in-place lease values, if any, for the facilities we own which are based on the present value of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. We amortize any resulting capitalized above-market lease values as a reduction of rental income over lease term. We amortize any resulting capitalized below-market lease values as an increase to rental income over the lease term. Because our strategy to a large degree involves the origination and acquisition of long-term lease arrangements at market rates with independent parties, we do not expect the above-market and below-market in-place lease values to be significant for many of our transactions.

We measure the aggregate value of other lease intangible assets to be acquired based on the difference between (i) the property valued with new or in-place leases adjusted to market rental rates and (ii) the property valued as if vacant when acquired. Management's estimates of value are made using methods similar to those used by independent appraisers (e.g., discounted cash flow analysis). Factors considered by management in our analysis include an estimate of carrying costs during hypothetical expected lease-up periods, considering current market conditions, and costs to execute similar leases. We also consider information obtained about each targeted facility as a result of our pre-acquisition due diligence, marketing, and leasing activities in estimating the fair value of the intangible assets acquired. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which we expect to be about six months depending on specific local market conditions. Management

[Table of Contents](#)

[Index to Financial Statements](#)

also estimates costs to execute similar leases including leasing commissions, legal costs, and other related expenses to the extent that such costs are not already incurred in connection with a new lease origination as part of the transaction.

Other intangible assets acquired may include customer relationship intangible values, which are based on management's evaluation of the specific characteristics of each prospective tenant's lease and our overall relationship with that tenant. Characteristics to be considered by management in allocating these values include the nature and extent of our existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality, and expectations of lease renewals, including those existing under the terms of the lease agreement, among other factors. At December 31, 2014, we have assigned no value to customer relationship intangibles.

We amortize the value of lease intangibles to expense over the term of the respective leases, which have a weighted average useful life of 17.9 years at December 31, 2014. If a lease is terminated, the unamortized portion of the lease intangible is charged to expense.

Losses from Rent Receivables: For all leases, we continuously monitor the performance of our existing tenants including, but not limited to: admission levels and surgery/procedure volumes by type; current operating margins; ratio of our tenant's operating margins both to facility rent and to facility rent plus other fixed costs; trends in revenue and patient mix; and the effect of evolving healthcare regulations on tenant's profitability and liquidity.

Losses from Operating Lease Receivables: We utilize the information above along with the tenant's payment and default history in evaluating (on a property-by-property basis) whether or not a provision for losses on outstanding rent receivables is needed. A provision for losses on rent receivables (including straight-line rent receivables) is ultimately recorded when it becomes probable that the receivable will not be collected in full. The provision is an amount which reduces the receivable to its estimated net realizable value based on a determination of the eventual amounts to be collected either from the debtor or from existing collateral, if any.

Losses on DFL Receivables: Allowances are established for DFLs based upon an estimate of probable losses for the individual DFLs deemed to be impaired. DFLs are impaired when it is deemed probable that we will be unable to collect all amounts due in accordance with the contractual terms of the lease. Like operating lease receivables, the need for an allowance is based upon our assessment of the lessee's overall financial condition; economic resources and payment record; the prospects for support from any financially responsible guarantors; and, if appropriate, the realizable value of any collateral. These estimates consider all available evidence including the expected future cash flows discounted at the DFL's effective interest rate, fair value of collateral, and other relevant factors, as appropriate. DFLs are placed on non-accrual status when we determine that the collectability of contractual amounts is not reasonably assured. While on non-accrual status, we generally account for the DFLs on a cash basis, in which income is recognized only upon receipt of cash.

Loans: Loans consist of mortgage loans, working capital loans and other long-term loans. Mortgage loans are collateralized by interests in real property. Working capital and other long-term loans are generally collateralized by interests in receivables and corporate and individual guarantees. We record loans at cost. We evaluate the collectability of both interest and principal on a loan-by-loan basis (using the same process as we do for assessing the collectability of rents as discussed above) to determine whether they are impaired. A loan is considered impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the existing contractual terms. When a loan is considered to be impaired, the amount of the allowance is calculated by comparing the recorded investment to either the value determined by discounting the expected future cash flows using the loans effective interest rate or to the fair value of the collateral if the loan is collateral dependent.

[Table of Contents](#)

[Index to Financial Statements](#)

Stock-Based Compensation: During the years ended December 31, 2014, 2013, and 2012 we recorded \$9.2 million, \$8.8 million, and \$7.6 million, respectively, of expense for share-based compensation related to grants of restricted common stock and other stock-based awards. Starting in 2010, we granted annual performance-based restricted share awards that vest based on the achievement of certain market conditions as defined by the accounting rules. Typical market conditions for our awards are based on our stock price levels or our total shareholder return (stock price and dividends) including comparisons of our total shareholder returns to an index of other REIT stocks. Because these awards are earned based on the achievement of these market conditions, we must initially evaluate and estimate the probability of achieving these market conditions in order to determine the fair value of the award and over what period we should recognize stock compensation expense. Because of the complexities inherently involved with these awards, we work with an independent consultant to assist us in modeling both the value of the award and the various periods over which each tranche of an award will be earned. We use what is termed a Monte Carlo simulation model which determines a value and earnings periods based on multiple outcomes and their probabilities. We record expense over the expected or derived vesting periods using the calculated value of the awards. We record expense over these vesting periods even though the awards have not yet been earned and, in fact, may never be earned. If awards vest faster than our original estimate, we will record a catch-up of expense, which we did in the 2014, 2013 and 2012 fourth quarters due to our 2012, 2011, and 2010 stock awards being earned earlier than expected.

Fair Value Option Election: We elected to account for certain investments acquired on February 29, 2012, as part of the Ernest transaction, using the fair value option method, which means we mark these investments to fair market value on a recurring basis. Any changes in the fair value of these investments are non-cash adjustments that will not impact our financial condition or cash flows unless we decided to liquidate these investments.

These investments include the following at December 31, 2014: (in thousands):

<u>Asset (Liability)</u>	<u>Fair Value</u>
Mortgage loan	\$100,000
Acquisition loans	97,450
Equity investment	3,300
Total	<u>\$200,750</u>

We measure the estimated fair value of these investments utilizing Level 3 of the fair value hierarchy. Under current accounting guidance, Level 3 represents fair value measurements derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Our mortgage loans with Ernest are recorded at fair value based on Level 3 inputs by discounting the estimated cash flows using the market rates which similar loans would be made to borrowers with similar credit ratings and the same remaining maturities. Our acquisition loans and equity investments in Ernest are recorded at fair value based on Level 3 inputs, by using a discounted cash flow model, which requires significant estimates of our investee such as projected revenue and expenses and appropriate consideration of the underlying risk profile of the forecast assumptions associated with the investee. We classify these loans and equity investments as Level 3, as we use certain unobservable inputs to the valuation methodology that are significant to the fair value measurement, and the valuation requires management judgment due to the absence of quoted market prices. For these cash flow models, our observable inputs include use of a capitalization rate, discount rate (which is based on a weighted-average cost of capital), and market interest rates, and our unobservable input includes an adjustment for a marketability discount (“DLOM”) on our equity investment of 40% at December 31, 2014.

[Table of Contents](#)

[Index to Financial Statements](#)

In regards to the underlying projection of revenues and expenses used in the discounted cash flow model, such projections are provided by Ernest. However, we will modify such projections (including underlying assumptions used) as needed based on our review and analysis of Ernest's historical results, meetings with key members of management, and our understanding of trends and developments within the healthcare industry.

In arriving at the DLOM, we started with a DLOM range based on the results of studies supporting valuation discounts for other transactions or structures without a public market. To select the appropriate DLOM within the range, we then considered many qualitative factors including the percent of control, the nature of the underlying investee's business along with our rights as an investor pursuant to the operating agreement, the size of investment, expected holding period, number of shareholders, access to capital marketplace, etc. To illustrate the effect of movements in the DLOM, we performed a sensitivity analysis below by using basis point variations (dollars in thousands):

<u>Basis Point Change in Marketability Discount</u>	<u>Estimated Increase (Decrease) In Fair Value</u>
+100 basis points	\$ (451)
- 100 basis points	451

Because the fair value of Ernest investments noted above approximate their original cost, we did not recognize any unrealized gains/losses during 2014.

Principles of Consolidation: Property holding entities and other subsidiaries of which we own 100% of the equity or have a controlling financial interest evidenced by ownership of a majority voting interest are consolidated. All inter-company balances and transactions are eliminated. For entities in which we own less than 100% of the equity interest, we consolidate the property if we have the direct or indirect ability to control the entities' activities based upon the terms of the respective entities' ownership agreements. For these entities, we record a non-controlling interest representing equity held by non-controlling interests.

We continually evaluate all of our transactions and investments to determine if they represent variable interests in a variable interest entity. If we determine that we have a variable interest in a variable interest entity, we then evaluate if we are the primary beneficiary of the variable interest entity. The evaluation is a qualitative assessment as to whether we have the ability to direct the activities of a variable interest entity that most significantly impact the entity's economic performance. We consolidate each variable interest entity in which we, by virtue of or transactions with our investments in the entity, are considered to be the primary beneficiary. At December 31, 2014 and 2013, we determined that we were not the primary beneficiary of any of our variable interest entities because we do not control the activities (such as the day-to-day operations of the hospital) that most significantly impact the economic performance of these entities.

[Table of Contents](#)[Index to Financial Statements](#)**Disclosure of Contractual Obligations**

The following table summarizes known material contractual obligations (including interest) as of December 31, 2014, excluding the impact of subsequent events (amounts in thousands):

<u>Contractual Obligations</u>	<u>Less Than 1 Year</u>	<u>1-3 Years</u>	<u>3-5 Years</u>	<u>After 5 Years</u>	<u>Total</u>
2006 Senior Unsecured Notes(1)	\$ 6,985	\$ 131,147	\$ —	\$ —	\$ 138,132
2011, 2012, and 2014 Senior Unsecured Notes	69,750	139,500	139,500	1,276,438	1,625,188
2013 Senior Unsecured Notes(5)	13,913	27,825	27,825	255,873	325,436
Revolving credit facility(2)	12,302	24,604	599,299	—	636,205
Term loans	3,441	6,889	141,812	—	152,142
Operating lease commitments(3)	3,555	7,155	6,771	90,645	108,126
Purchase obligations(4)	176,848	—	—	—	176,848
Totals	<u>\$ 286,794</u>	<u>\$ 337,120</u>	<u>\$ 915,207</u>	<u>\$ 1,622,956</u>	<u>\$ 3,162,077</u>

- (1) The interest rates on these notes are currently variable rates, but we entered into interest rate swaps to fix these interest rates until maturity. For \$65 million of our \$125 million senior notes, the rate is 5.507% and for \$60 million of our \$125 million senior notes the rate is 5.675%. See Note 4 of Item 8 to this Form 10-K for more information.
- (2) As of December 31, 2014, we have a new \$1.025 billion revolving credit facility. However, this table assumes the balance outstanding under the revolver and rate in effect at December 31, 2014 (which was \$593.5 million as of December 31, 2014) remains in effect through maturity. Included in the balances outstanding is a euro-denominated tranche — we used the exchange rate at December 31, 2014, (or 1.21) in preparing this table. (Note: A portion of the revolver was paid down in January 2015 with proceeds from the stock offering).
- (3) Most of our contractual obligations to make operating lease payments are related to ground leases for which we are reimbursed by our tenants along with corporate office and equipment leases.
- (4) Includes approximately \$176.8 million of future expenditures related to development projects.
- (5) Our 2013 Senior Unsecured Notes are Euro-denominated. We used the exchange rate at December 31, 2014, (or 1.21) in preparing this table.

Liquidity and Capital Resources*2014 Cash Flow Activity*

We generated cash of \$150.4 million from operating activities during 2014, primarily consisting of rent and interest from mortgage and other loans, which with cash on-hand, was principally used to fund our dividends of \$144.4 million and certain of our investing activities including the additional funding of our development properties.

In regards to other financing activities in which we used such net proceeds to ultimately fund our \$767.7 million of acquisitions in 2014 and to fund other investment activities, we did the following:

- a) On March 11, 2014, we completed an underwritten public offering of 7.7 million shares of our common stock, resulting in net proceeds of approximately \$100 million, after deducting estimated offering expenses. We also granted the underwriters a 30-day option to purchase up to an additional 1.2 million shares of common stock. The option, which was exercised in full, closed on April 8, 2014 and resulted in additional net proceeds of approximately \$16 million.
- b) On April 17, 2014, we completed a \$300 million senior unsecured notes offering.
- c) On October 17, 2014, we entered into an amendment to our revolving credit and term loan agreement to increase the current aggregate committed size of the facility to \$1.15 billion with an additional \$400

[Table of Contents](#)

[Index to Financial Statements](#)

million accordion available increasing the total aggregate capacity to \$1.55 billion. The amendment also increased the alternative currency sublimit under the facility to €500 million and amended certain covenants in order to permit us to consummate and finance the Median transaction.

- d) We established an at-the-market equity offering program in January 2014 under which we may sell up to \$250 million in shares (1.7 million shares sold resulting in net proceeds of \$22.6 million) which may be used for general corporate purposes as needed.

2013 Cash Flow Activity

We generated cash of \$140.8 million from operating activities during 2013, primarily consisting of rent and interest from mortgage and other loans, which with cash on-hand, was principally used to fund our dividends of \$120.3 million and certain of our investing activities.

From a financing perspective, on October 10, 2013 we closed on a €200 million euro-denominated (approximately \$275 million at December 31, 2013) 7 year fixed rate debt transaction at an annual coupon of 5.75%. In addition, on August 20, 2013, we completed an offering of 11.5 million shares of common stock (including 1.5 million shares sold pursuant to the exercise in full of the underwriters' option to purchase additional shares) resulting in net proceeds (after underwriting discount and expenses) of \$140.4 million. Furthermore, in August 2013, we completed a \$150 million tuck on offering to our 2012 Senior Unsecured Notes, resulting in net proceeds of \$153.3 million (reflective of the pricing premium we received). Finally, we completed an offering of 12.65 million shares of our common stock (including 1.65 million shares sold pursuant to the exercise in full of the underwriters' option to purchase additional shares) in February 2013, resulting in net proceeds (after underwriting discount) of \$172.9 million. Proceeds from these financing activities and strategic property disposals during the year (generating approximately \$32 million) were used to fund our acquisitions and development activities.

2012 Cash Flow Activity

We generated cash of \$105.3 million from operating activities during 2012, primarily consisting of rent and interest from mortgage and other loans, which with cash on-hand, was principally used to fund our dividends of \$104.0 million and working capital needs. To fund the Ernest transaction in February 2012, we completed an offering of 23.6 million shares of our common stock (including 3.1 million shares sold pursuant to the exercise in full of the underwriters' overallotment option), resulting in net proceeds (after underwriting discount) for \$220.1 million. In addition, in February 2012, we completed a \$200 million offering of senior unsecured notes, resulting in net proceeds, after underwriting discount, of \$196.5 million, which we also used to fund the Ernest transaction.

In March 2012, we closed on a \$100 million senior unsecured term loan facility and exercised the \$70 million accordion feature on our revolving credit facility, increasing the total commitment under that facility to \$400 million at that time. We also sold five properties during the year generating \$71.2 million of additional funds.

Proceeds from the new term loan facility, our revolving credit facility and property sales were used to fund our investments in the year (excluding Ernest) and further cash outlays on our development projects.

During the fourth quarter 2012, we sold 1.1 million shares of our common stock under our at-the-market equity offering program, at an average price of \$11.84 per share resulting in net proceeds of \$13.2 million.

Debt Restrictions and Covenants

Our debt facilities impose certain restrictions on us, including, but not limited to, restrictions on our ability to: incur debt; create or incur liens; provide guarantees in respect of obligations of any other entity; make

[Table of Contents](#)

[Index to Financial Statements](#)

redemptions and repurchases of our capital stock; prepay, redeem or repurchase debt; engage in mergers or consolidations; enter into affiliated transactions; dispose of real estate or other assets; and change our business. In addition, the credit agreement governing our Credit Facility limit the amount of dividends we can pay to 95% of normalized adjusted funds from operations, as defined in the agreements, on a rolling four quarter basis. The indentures governing our senior unsecured notes also limit the amount of dividends we can pay based on the sum of 95% of funds from operations, proceeds of equity issuances and certain other net cash proceeds. Finally, our senior unsecured notes require us to maintain total unencumbered assets (as defined in the related indenture) of not less than 150% of our unsecured indebtedness.

In addition to these restrictions, the Credit Facility contains customary financial and operating covenants, including covenants relating to our total leverage ratio, fixed charge coverage ratio, secured leverage ratio, unsecured leverage ratio, consolidated adjusted net worth, and unsecured interest coverage ratio. This facility also contains customary events of default, including among others, nonpayment of principal or interest, material inaccuracy of representations and failure to comply with our covenants. If an event of default occurs and is continuing under the facility, the entire outstanding balance may become immediately due and payable. At December 31, 2014, we were in compliance with all such financial and operating covenants.

In order for us to continue to qualify as a REIT we are required to distribute annual dividends equal to a minimum of 90% of our REIT taxable income, computed without regard to the dividends paid deduction and our net capital gains. See section titled “Distribution Policy” within this Item 7 of this Annual Report on Form 10-K for further information on our dividend policy along with the historical dividends paid on a per share basis.

Short-term Liquidity Requirements: As of December 31, 2014, we have less than \$0.3 million in debt principal payments due in 2015 — see debt maturity schedule below. At February 24, 2015 (and after the amendments to our Credit Facility in October 2014 as described in Note 4 to Item 8 of this Annual Report on Form 10-K and the \$480 million of net proceeds from our equity offering in January 2015), our availability under our revolving credit facility plus cash on-hand approximated \$0.8 billion.

We established an at-the-market equity offering program in January 2014 under which we may sell up to \$250 million in shares (of which \$22.6 million has been sold through February 24, 2015) which may be used for general corporate purposes as needed. We believe any excess availability in our Credit Facility, our current monthly cash receipts from rent and loan interest, and the availability under our at-the-market equity offering program is sufficient to fund our operations, debt and interest obligations, our firm commitments (including capital expenditures, if any, expected funding requirements on our development projects and the completion of Step 2 of the Median acquisition), and dividends in order to comply with REIT requirements for the next twelve months.

Long-term Liquidity Requirements: As of December 31, 2014, we have less than \$0.4 million in debt principal payments due between now and July 2016 . With our liquidity at February 24, 2015 of approximately \$0.8 billion along with our current monthly cash receipts from rent and loan interest and with the availability under our at-the-market equity offering program, we believe we have the liquidity available to us to fund our operations, debt and interest obligations, dividends in order to comply with REIT requirements, and firm commitments (including capital expenditures, if any, and expected funding requirements on our development projects) currently. However, in order to fund our investment strategies post 2015, to fund debt maturities coming due in 2018 and later years, or as we consider longer term financing for our Median transaction, we believe the following sources of capital are generally available in the market and we may access one or a combination of them:

- assumptions of existing or placing new secured loans on Median real estate,
- amending or entering into new bank term loans,
- issuance of new USD or EUR denominated debt securities, including senior unsecured notes,

[Table of Contents](#)

[Index to Financial Statements](#)

- entering into joint venture arrangements,
- proceeds from strategic property sales, and/or
- sale of equity securities.

However, there is no assurance that conditions will remain favorable for such possible transactions or that our plans will be successful.

As of December 31, 2014, principal payments due on our debt (which exclude the effects of any discounts or premiums recorded) are as follows (in thousands):

2015	\$ 283
2016	125,298
2017	320
2018	606,271
2019	125,000
Thereafter	1,341,960
Total	<u>\$ 2,199,132</u>

Results of Operations

Our operating results may vary significantly from year-to-year due to a variety of reasons including acquisitions made during the year, incremental revenues and expenses from acquisitions made in the prior year, revenues and expenses from completed development properties, property disposals, annual escalation provisions, foreign currency exchange rate changes, new or amended debt agreements, issuances of shares through an equity offering, etc. Thus, our operating results for the current year are not necessarily indicative of the results that may be expected in future years.

Year Ended December 31, 2014 Compared to the Year Ended December 31, 2013

Net income for the year ended December 31, 2014, was \$50.5 million compared to net income of \$97.0 million for the year ended December 31, 2013. This decrease was due to the \$50.1 million of impairment charges taken in 2014 — see note 3 to Item 8 of this Form 10-K for further details — along with higher interest and acquisition expenses, partially offset by increased revenues from deals completed in the year. FFO, after adjusting for certain items (as more fully described in Reconciliation of Non-GAAP Financial Measures), was \$181.7 million, or \$1.06 per diluted share for 2014 as compared to \$147.2 million, or \$0.96 per diluted share for 2013, a 23% increase on a dollar basis. This 23% increase in FFO is primarily due to the increase in revenue from acquisitions and the completion of development projects during 2014.

A comparison of revenues for the years ended December 31, 2014 and 2013 is as follows (dollar amounts in thousands):

	2014		2013		Change
			(Dollar amounts in thousands)		
Rent billed	\$ 187,018	59.9%	\$ 132,578	54.7%	\$ 54,440
Straight-line rents	13,507	4.3%	10,706	4.4%	2,801
Income from direct financing leases	49,155	15.7%	40,830	16.8%	8,325
Interest and fee income	62,852	20.1%	58,409	24.1%	4,443
Total revenue	<u>\$ 312,532</u>	<u>100.0%</u>	<u>\$ 242,523</u>	<u>100.0%</u>	<u>\$ 70,009</u>

[Table of Contents](#)

[Index to Financial Statements](#)

Our total revenue for 2014 is up \$70.0 million or 28.9% over the prior year. This increase is made up of the following:

- Rent billed — up \$54.4 million over the prior year of which \$2.8 million is from our annual escalation provisions in our leases, \$45.9 million is from incremental revenue from acquisitions made in 2014 and late 2013, and \$9.2 million is incremental revenue from development properties that were completed and put into service in 2014. Approximately \$1 million of base rents were recorded in 2013 related to our Monroe property but none was recorded in the current year.
- Straight-line rent — up \$2.8 million primarily due to incremental revenue from acquisitions made in late 2013 and 2014 and from development properties that were completed and put into service in 2013 and 2014, partially offset by the \$2.8 million write-off of unbilled rent related to our Gilbert, La Palma, and our wellness center properties.
- Income from direct financing leases — up \$8.3 million over the prior year of which \$0.6 million is from annual escalation provisions in our leases and \$7.7 million is from incremental revenue from acquisitions made in 2013.
- Interest from loans — up \$4.4 million over the prior period of which \$1.5 million is from our annual escalation provisions in our loans and \$4.2 million is primarily from new loans, partially offset by the repayment of loans in late 2013 and 2014.

Real estate depreciation and amortization during 2014 was \$53.9 million compared to \$37.0 million in 2013 primarily due to the incremental depreciation/amortization from the facilities acquired in 2014 and the development properties completed in 2013 and 2014.

During 2014, we recorded a \$3.1 million real estate impairment charge on our Bucks facility and a \$47.0 million impairment charge on our Monroe facility — see Note 3 to Item 8 of this Form 10-K for further details.

Acquisition expenses increased from \$19.5 million to \$26.4 million primarily as a result of the international acquisitions completed in 2014 and continued activity to pursue potential deals. Included in the 2014 and 2013 acquisition expenses are \$5.8 million and \$12.0 million, respectively, of real estate transfer taxes associated with our international properties.

General and administrative expenses in 2014 totaled \$37.3 million, which is 11.9% of revenues, down from 12.4% of revenues in the prior year. The drop in general and administrative expenses as a percentage of revenue is primarily due to our business model as we can generally increase our revenue significantly without increasing our headcount and related expense at the same rate. On a dollar basis, general and administrative expenses were up \$7.2 million from the prior year due to higher compensation expense (from increased head count and higher cash compensation due to improved financial/operational performance) along with \$2.5 million in higher travel and international expenses as a result of our growth and expansion in 2014. On a go forward basis, we expect our general and administrative expenses to be in the \$10 million range per quarter assuming no significant changes in our operations.

Interest expense for 2014 and 2013 totaled \$98.2 million and \$66.7 million, respectively. This increase is related to higher average debt balances in the current year associated with our 2014 Senior Unsecured Notes and our new and expanded Credit Facility along with the 2013 Senior Unsecured Notes and \$150 million tack on offering to our 2012 Senior Unsecured Notes which were only partially outstanding in 2013. Our weighted average interest rate was 5.4% for 2014, down from 6% in 2013. With the upgrade on our senior unsecured notes to investment grade by Standard & Poor's Rating Services and an upgrade to our corporate credit rating to BB+, we would expect our weighted average interest rate for 2015 to be slightly lower than 2014 assuming no changes in the make-up of our debt or any significant change to the overall interest rate environment. See Note 4 to our consolidated financial statements in Item 8 to this Annual Report on Form 10-K for further information on our debt activities.

[Table of Contents](#)

[Index to Financial Statements](#)

In 2014, we incurred \$1.7 million in additional financing expenses of which \$1.4 million related to fees associated with a committed unutilized interim bridge loan that served as a back stop for the partial financing of the Median transaction. The remaining \$0.3 million related to the write-off of certain debt issue costs associated with the replacement of our old credit facility.

Other income (including our earnings from equity and other interests) was up \$4.8 million in 2014 primarily due to the \$2.9 million gain on the La Palma property sale along with foreign currency transaction gains. Our earnings from equity and other interests was down from 2013 due to lower income from our interest in Bucks as the property was sold in August 2014 – this interest generated about \$1 million of income annually.

In addition to the items noted above, net income for 2014 and 2013 was impacted by discontinued operations. See Note 11 to our consolidated financial statements in Item 8 to this Form 10-K for further information.

Year Ended December 31, 2013 Compared to the Year Ended December 31, 2012

Net income for the year ended December 31, 2013, was \$97.0 million compared to net income of \$89.9 million for the year ended December 31, 2012. This increase was primarily related to acquisitions made in 2012 and 2013, partially offset by higher interest expense due to additional debt incurred in 2013 and strategic dispositions in 2012 and 2013. FFO, after adjusting for certain items (as more fully described in Reconciliation of Non-GAAP Financial Measures), was \$147.2 million, or \$0.96 per diluted share for 2013 as compared to \$119.4 million, or \$0.90 per diluted share for 2012, a 7% increase on a per share basis. These increases are primarily the result of the same transactions described herein.

A comparison of revenues for the years ended December 31, 2013 and 2012 is as follows (dollar amounts in thousands):

	2013	2012		Change	
		(Dollar amounts in thousands)			
Rent Billed	\$ 132,580	54.7%	\$ 118,374	59.7%	\$ 14,206
Percentage rent billed	(2)	— %	1,509	0.8%	(1,511)
Straight-line rent	10,706	4.4%	7,911	4.0%	2,795
Income from direct financing leases	40,830	16.8%	21,728	11.0 %	19,102
Interest and fee income	58,409	24.1%	48,603	24.5%	9,806
Total revenue	<u>\$ 242,523</u>	<u>100.0%</u>	<u>\$ 198,125</u>	<u>100.0%</u>	<u>\$ 44,398</u>

Rent billed for 2013 increased 12.0% versus the prior year as a result of \$1.8 million in additional rent generated from annual escalation provisions in our leases and \$15.5 million of incremental revenue from the properties acquired or completed in 2012 and 2013 including the Hammond acquisition, three IASIS acquisitions, the RHM acquisition, and completed development properties. This is partially offset by the \$3.1 million of revenue from our Monroe facility that was recorded in 2012 but not in 2013. Straight-line rent increased 35.3% as a result of the RHM acquisition, the Hammond acquisition in the 2012 fourth quarter and our Twelve Oaks, Little Elm, and Lafayette development deals that came online in 2013.

Income from direct financing leases is higher than the prior year as a result of \$17.1 million of incremental revenue from the Ernest transaction (additional quarter in 2013) and the new Corpus Christi, Roxborough, Reno, Saint John, and Providence facilities along with \$2.0 million of additional income generated from our annual escalation provisions. Interest from loans is higher than the prior year due to the \$4.0 million, \$0.5 million, and \$5.2 million of incremental interest related to the Ernest, Hoboken, and Centinela loans, respectively.

Real estate depreciation and amortization during 2013 was \$37.0 million compared to \$32.8 million in 2012 due to the incremental depreciation from the facilities acquired in 2012, the IASIS and RHM acquisitions in 2013 and the development properties completed in 2013.

[Table of Contents](#)

[Index to Financial Statements](#)

Acquisition expenses increased from \$5.4 million to \$19.5 million primarily as a result of the RHM and IASIS acquisitions in 2013 along with continued activity to pursue potential deals. As part of the RHM acquisition in the fourth quarter of 2013, we incurred approximately \$12 million in real estate transfer taxes.

General and administrative expenses in 2013 totaled \$30.1 million, which is 12.4% of revenues, down from 14.4% of revenues in the prior year. The drop in general and administrative expenses as a percentage of revenue is primarily due to our business model as we can generally increase our revenue significantly without increasing our headcount and related expense at the same rate. On a dollar basis, general and administrative expenses were up slightly from the prior year, as we incurred more stock compensation expense in 2013 than in 2012. This increase in stock compensation expense is the result of certain performance award hurdles being met earlier than expected due to the total shareholder return performance over the last three years.

We recognized \$3.6 million of earnings from equity and other interests (part of our RIDEA investments) in certain of our tenants in 2013 up from \$2.9 million in 2012. This increase over 2012 is due to the timing of when such investments were made and since we elected to record our share of the investee's earnings on a 90-day lag basis starting in 2012.

Interest expense for 2013 and 2012 totaled \$66.7 million and \$58.2 million, respectively. This increase is related to higher average debt balances in the current year associated with our €200 million denominated 2013 Senior Unsecured Notes and the \$150 million tuck on offering to our 2012 Senior Unsecured Notes. Our total weighted average interest rates were consistent at 6% in 2013 and 2012. See Note 4 to our consolidated financial statements in Item 8 to this Annual Report on Form 10-K for further information on our debt activities.

In addition to the items noted above, net income for 2013 and 2012 was impacted by discontinued operations. See Note 11 to our consolidated financial statements in Item 8 to this Form 10-K for further information.

Reconciliation of Non-GAAP Financial Measures

Investors and analysts following the real estate industry utilize funds from operations, or FFO, as a supplemental performance measure. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assumes that the value of real estate diminishes predictably over time. We compute FFO in accordance with the definition provided by the National Association of Real Estate Investment Trusts, or NAREIT, which represents net income (loss) (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairment charges on real estate assets, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

In addition to presenting FFO in accordance with the NAREIT definition, we also disclose normalized FFO, which adjusts FFO for items that relate to unanticipated or non-core events or activities or accounting changes that, if not noted, would make comparison to prior period results and market expectations potentially less meaningful to investors and analysts.

We believe that the use of FFO, combined with the required GAAP presentations, improves the understanding of our operating results among investors and the use of normalized FFO makes comparisons of our operating results with prior periods and other companies more meaningful. While FFO and normalized FFO are relevant and widely used supplemental measures of operating and financial performance of REITs, they should not be viewed as a substitute measure of our operating performance since the measures do not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which can be significant economic costs that could materially impact our results of operations. FFO and normalized FFO should not be considered an alternative to net income

[Table of Contents](#)[Index to Financial Statements](#)

(loss) (computed in accordance with GAAP) as indicators of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity.

The following table presents a reconciliation of net income attributable to MPT common stockholders to FFO and normalized FFO for the years ended December 31, 2014, 2013, and 2012 (\$ amounts in thousands except per share data):

	For the Year Ended		
	December 31, 2014	December 31, 2013	December 31, 2012
FFO information:			
Net income attributable to MPT common stockholders	\$ 50,522	\$ 96,991	\$ 89,900
Participating securities' share in earnings	(895)	(729)	(887)
Net income, less participating securities' share in earnings	\$ 49,627	\$ 96,262	\$ 89,013
Depreciation and amortization:			
Continuing operations	53,938	36,978	32,815
Discontinued operations	—	708	2,041
Gain on sale of real estate	(2,857)	(7,659)	(16,369)
Real estate impairment charge	5,974	—	—
Funds from operations	\$ 106,682	\$ 126,289	\$ 107,500
Write-off of straight line rent	2,818	1,457	6,456
Acquisition costs	26,389	19,494	5,420
Debt refinancing and unutilized financing expenses	1,698	—	—
Loan and other impairment charges	44,154	—	—
Normalized funds from operations	\$ 181,741	\$ 147,240	\$ 119,376
Per diluted share data:			
Net income, less participating securities' share in earnings	\$ 0.29	\$ 0.63	\$ 0.67
Depreciation and amortization:			
Continuing operations	0.31	0.24	0.25
Discontinued operations	—	—	0.01
Gain on sale of real estate	(0.01)	(0.04)	(0.12)
Real estate impairment charge	0.04	—	—
Funds from operations	\$ 0.63	\$ 0.83	\$ 0.81
Write-off of straight line rent	0.02	0.01	0.05
Acquisition costs	0.15	0.12	0.04
Debt refinancing and unutilized financing expenses	—	—	—
Loan and other impairment charges	0.26	—	—
Normalized funds from operations	\$ 1.06	\$ 0.96	\$ 0.90

Distribution Policy

We have elected to be taxed as a REIT commencing with our taxable year that began on April 6, 2004 and ended on December 31, 2004. To qualify as a REIT, we must meet a number of organizational and operational requirements, including a requirement that we distribute at least 90% of our REIT taxable income, excluding net capital gain, to our stockholders. It is our current intention to comply with these requirements and maintain such status going forward.

[Table of Contents](#)

[Index to Financial Statements](#)

The table below is a summary of our distributions declared for the three year period ended December 31, 2014:

<u>Declaration Date</u>	<u>Record Date</u>	<u>Date of Distribution</u>	<u>Distribution per Share</u>
November 13, 2014	December 4, 2014	January 8, 2015	\$0.21
August 21, 2014	September 18, 2014	October 15, 2014	\$0.21
May 15, 2014	June 12, 2014	July 10, 2014	\$0.21
February 21, 2014	March 14, 2014	April 11, 2014	\$0.21
November 7, 2013	December 3, 2013	January 7, 2014	\$0.21
August 15, 2013	September 12, 2013	October 10, 2013	\$0.20
May 23, 2013	June 13, 2013	July 11, 2013	\$0.20
February 14, 2013	March 14, 2013	April 11, 2013	\$0.20
October 30, 2012	November 23, 2012	January 5, 2013	\$0.20
August 16, 2012	September 13, 2012	October 11, 2012	\$0.20
May 17, 2012	June 14, 2012	July 12, 2012	\$0.20
February 16, 2012	March 15, 2012	April 12, 2012	\$0.20

On February 23, 2015, we announced that our Board of Directors declared a regular quarterly cash dividend of \$0.22 per share of common stock to be paid on April 9, 2015 to stockholders of record on March 12, 2015.

We intend to pay to our stockholders, within the time periods prescribed by the Internal Revenue Code (“Code”), all or substantially all of our annual REIT taxable income, including taxable gains from the sale of real estate and recognized gains on the sale of securities. It is our policy to make sufficient cash distributions to stockholders in order for us to maintain our status as a REIT under the Code and to avoid corporate income and excise taxes on undistributed income. However, our unsecured credit facility limits the amounts of dividends we can pay — see Note 4 to our consolidated financial statements in Item 8 to this Form 10-K for further information.

ITEM 7A. *Quantitative and Qualitative Disclosures about Market Risk*

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. We seek to mitigate the effects of fluctuations in interest rates by matching the terms of new investments with new long-term fixed rate borrowings to the extent possible. We may or may not elect to use financial derivative instruments to hedge interest rate or foreign currency exposure. For interest rate hedging, these decisions are principally based on our policy to match our variable rate investments with comparable borrowings, but are also based on the general trend in interest rates at the applicable dates and our perception of the future volatility of interest rates. For foreign currency, these decisions are principally based on how our investments are financed, the long-term nature of our investments, the need to repatriate earnings back to the U.S. and the general trend in foreign currency exchange rates.

In addition, the value of our facilities will be subject to fluctuations based on changes in local and regional economic conditions and changes in the ability of our tenants to generate profits, all of which may affect our ability to refinance our debt if necessary. The changes in the value of our facilities would be impacted also by changes in “cap” rates, which is measured by the current base rent divided by the current market value of a facility.

Our primary exposure to market risks relates to fluctuations in interest rates and foreign currency. The following analyses present the sensitivity of the market value, earnings and cash flows of our significant financial instruments to hypothetical changes in interest rates and exchange rates as if these changes had occurred. The hypothetical changes chosen for these analyses reflect our view of changes that are reasonably possible over a one-year period. These forward looking disclosures are selective in nature and only address the potential impact from these hypothetical changes. They do not include other potential effects which could impact our business as

[Table of Contents](#)

[Index to Financial Statements](#)

a result of changes in market conditions. In addition, they do not include measures we may take to minimize our exposure such as entering into future interest rate swaps to hedge against interest rate increases on our variable rate debt.

Interest Rate Sensitivity

For fixed rate debt, interest rate changes affect the fair market value but do not impact net income to common stockholders or cash flows. Conversely, for floating rate debt, interest rate changes generally do not affect the fair market value but do impact net income to common stockholders and cash flows, assuming other factors are held constant. At December 31, 2014, our outstanding debt totaled \$2.2 billion, which consisted of fixed-rate debt of \$1.5 billion (including \$125.0 million of floating debt swapped to fixed) and variable rate debt of \$718.5 million. If market interest rates increase by one-percent, the fair value of our fixed rate debt at December 31, 2014 would decrease by approximately \$2 million. Changes in the fair value of our fixed rate debt will not have any impact on us unless we decided to repurchase the debt in the open markets.

If market rates of interest on our variable rate debt increase by 1%, the increase in annual interest expense on our variable rate debt would decrease future earnings and cash flows by \$0.1 million per year. If market rates of interest on our variable rate debt decrease by 1%, the decrease in interest expense on our variable rate debt would increase future earnings and cash flows by \$0.1 million per year. This assumes that the average amount outstanding under our variable rate debt for a year is \$718.5 million, the balance of our revolver and term loan at December 31, 2014.

Foreign Currency Sensitivity

With our investments in Germany and the United Kingdom, we are subject to fluctuations in the Euro and British Pound to US dollar currency exchange rates. Increases or decreases in the value of the Euro to US dollar and the British Pound to US dollar exchange rates may impact our financial condition and/or our results of operations. Based solely on operating results for 2014 and on an annualized basis, if the Euro exchange rate were to change by 1%, our net income would change by less than \$0.4 million. Based solely on operating results for 2014 and on an annualized basis, if the British Pound exchange rate were to change by 1%, our net income would change by less than \$0.4 million.

ITEM 8. Financial Statements and Supplementary Data

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders
of Medical Properties Trust, Inc.:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a) present fairly, in all material respects, the financial position of Medical Properties Trust, Inc. and its subsidiaries at December 31, 2014 and December 31, 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the index appearing under Item 15(a) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 2 to the consolidated financial statements, the Company adopted Accounting Standards Update 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, which changed the criteria for reporting discontinued operations in during the year ended December 31, 2014.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Table of Contents](#)

[Index to Financial Statements](#)

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

MEDICAL PROPERTIES TRUST, INC. AND SUBSIDIARIES
MPT OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
Notes To Consolidated Financial Statements

1. Organization

Medical Properties Trust, Inc., a Maryland corporation, was formed on August 27, 2003, under the General Corporation Law of Maryland for the purpose of engaging in the business of investing in, owning, and leasing healthcare real estate. Our operating partnership subsidiary, MPT Operating Partnership, L.P., (the "Operating Partnership") through which we conduct all of our operations, was formed in September 2003. Through another wholly-owned subsidiary, Medical Properties Trust, LLC, we are the sole general partner of the Operating Partnership. At present, we directly own substantially all of the limited partnership interests in the Operating Partnership and have elected to report our required disclosures and that of the Operating Partnership on a combined basis except where material differences exist.

We have operated as a real estate investment trust ("REIT") since April 6, 2004, and accordingly, elected REIT status upon the filing in September 2005 of the calendar year 2004 federal income tax return. Accordingly, we will generally not be subject to U.S. federal income tax, provided that we continue to qualify as a REIT and our distributions to our stockholders equal or exceed our taxable income.

Our primary business strategy is to acquire and develop real estate and improvements, primarily for long-term lease to providers of healthcare services such as operators of general acute care hospitals, inpatient physical rehabilitation hospitals, long-term acute care hospitals, surgery centers, centers for treatment of specific conditions such as cardiac, pulmonary, cancer, and neurological hospitals, and other healthcare-oriented facilities. We also make mortgage and other loans to operators of similar facilities. In addition, we may obtain profits or equity interests in our tenants, from time to time, in order to enhance our overall return. We manage our business as a single business segment. All of our properties are located in the United States and Europe.

2. Summary of Significant Accounting Policies

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation: Property holding entities and other subsidiaries of which we own 100% of the equity or have a controlling financial interest evidenced by ownership of a majority voting interest are consolidated. All inter-company balances and transactions are eliminated. For entities in which we own less than 100% of the equity interest, we consolidate the property if we have the direct or indirect ability to control the entities' activities based upon the terms of the respective entities' ownership agreements. For these entities, we record a non-controlling interest representing equity held by non-controlling interests.

We continually evaluate all of our transactions and investments to determine if they represent variable interests in a variable interest entity ("VIE"). If we determine that we have a variable interest in a VIE, we then evaluate if we are the primary beneficiary of the VIE. The evaluation is a qualitative assessment as to whether we have the ability to direct the activities of a VIE that most significantly impact the entity's economic performance. We consolidate each VIE in which we, by virtue of or transactions with our investments in the entity, are considered to be the primary beneficiary.

[Table of Contents](#)[Index to Financial Statements](#)

At December 31, 2014, we had loans and/or equity investments in certain VIEs, which are also tenants of our facilities (including but not limited to Ernest and Vibra). We have determined that we are not the primary beneficiary of these VIEs. The carrying value and classification of the related assets and maximum exposure to loss as a result of our involvement with these VIEs are presented below at December 31, 2014 (in thousands):

<u>VIE Type</u>	<u>Maximum Loss Exposure(1)</u>	<u>Asset Type Classification</u>	<u>Carrying Amount(2)</u>
Loans, net	\$257,208	Mortgage and other loans	\$ 207,617
Equity investments	\$ 53,542	Other assets	\$ 5,490

- (1) Our maximum loss exposure related to loans with VIEs represents our current aggregate gross carrying value of the loan plus accrued interest and any other related assets (such as rents receivable), less any liabilities. Our maximum loss exposure related to our equity investment in VIEs represent the current carrying values of such investment plus any other related assets (such as rent receivables) less any liabilities.
- (2) Carrying amount reflects the net book value of our loan or equity interest only in the VIE.

For the VIE types above, we do not consolidate the VIE because we do not have the ability to control the activities (such as the day-to-day healthcare operations of our borrowers or investees) that most significantly impact the VIE's economic performance. As of December 31, 2014, we were not required to provide financial support through a liquidity arrangement or otherwise to our unconsolidated VIEs, including circumstances in which it could be exposed to further losses (e.g., cash short falls).

Typically, our loans are collateralized by assets of the borrower (some assets of which are on the premises of facilities owned by us) and further supported by limited guarantees made by certain principals of the borrower.

See Note 3 for additional description of the nature, purpose and activities of our more significant VIEs and interests therein.

Investments in Unconsolidated Entities: Investments in entities in which we have the ability to influence (but not control) are typically accounted for by the equity method. Under the equity method of accounting, our share of the investee's earnings or losses are included in our consolidated results of operations, and we have elected to record our share of such investee's earnings or losses on a 90-day lag basis. The initial carrying value of investments in unconsolidated entities is based on the amount paid to purchase the interest in the investee entity. Subsequently, our investments are increased by the equity in our investee earnings and decreased by cash distributions from our investees. To the extent that our cost basis is different from the basis reflected at the investee entity level, the basis difference is generally amortized over the lives of the related assets and liabilities, and such amortization is included in our share of equity in earnings of the investee. We evaluate our equity method investments for impairment based upon a comparison of the fair value of the equity method investment to its carrying value. If we determine a decline in the fair value of an investment in an unconsolidated investee entity below its carrying value is other - than - temporary, an impairment is recorded.

Cash and Cash Equivalents: Certificates of deposit, short-term investments with original maturities of three months or less and money-market mutual funds are considered cash equivalents. The majority of our cash and cash equivalents are held at major commercial banks which at times may exceed the Federal Deposit Insurance Corporation limit. We have not experienced any losses to date on our invested cash. Cash and cash equivalents which have been restricted as to its use are recorded in other assets.

Revenue Recognition: We receive income from operating leases based on the fixed, minimum required rents (base rents) per the lease agreements. Rent revenue from base rents is recorded on the straight-line method over the terms of the related lease agreements for new leases and the remaining terms of existing leases for those acquired as part of a property acquisition. The straight-line method records the periodic average amount of base rent earned over the term of a lease, taking into account contractual rent increases over the lease term. The

[Table of Contents](#)

[Index to Financial Statements](#)

straight-line method typically has the effect of recording more rent revenue from a lease than a tenant is required to pay early in the term of the lease. During the later parts of a lease term, this effect reverses with less rent revenue recorded than a tenant is required to pay. Rent revenue, as recorded on the straight-line method, in the consolidated statements of income is presented as two amounts: billed rent revenue and straight-line revenue. Billed rent revenue is the amount of base rent actually billed to the customer each period as required by the lease. Straight-line rent revenue is the difference between rent revenue earned based on the straight-line method and the amount recorded as billed rent revenue. We record the difference between base rent revenues earned and amounts due per the respective lease agreements, as applicable, as an increase or decrease to straight-line rent receivable.

Certain leases may provide for additional rents contingent upon a percentage of the tenant's revenue in excess of specified base amounts/thresholds (percentage rents). Percentage rents are recognized in the period in which revenue thresholds are met. Rental payments received prior to their recognition as income are classified as deferred revenue. We also receive additional rent (contingent rent) under some leases based on increases in the consumer price index or when the consumer price index exceeds the annual minimum percentage increase in the lease. Contingent rents are recorded as billed rent revenue in the period earned.

We use direct finance lease accounting ("DFL") to record rent on certain leases deemed to be financing leases, per accounting rules, rather than operating leases. For leases accounted for as DFLs, the future minimum lease payments are recorded as a receivable. The difference between the future minimum lease payments and the estimated residual values less the cost of the properties is recorded as unearned income. Unearned income is deferred and amortized to income over the lease terms to provide a constant yield when collectability of the lease payments is reasonably assured. Investments in DFLs are presented net of unamortized and unearned income.

In instances where we have a profits or equity interest in our tenant's operations, we record income equal to our percentage interest of the tenant's profits, as defined in the lease or tenant's operating agreements, once annual thresholds, if any, are met.

We begin recording base rent income from our development projects when the lessee takes physical possession of the facility, which may be different from the stated start date of the lease. Also, during construction of our development projects, we are generally entitled to accrue rent based on the cost paid during the construction period (construction period rent). We accrue construction period rent as a receivable with a corresponding offset to deferred revenue during the construction period. When the lessee takes physical possession of the facility, we begin recognizing the deferred construction period revenue on the straight-line method over the remaining term of the lease.

We receive interest income from our tenants/borrowers on mortgage loans, working capital loans, and other long-term loans. Interest income from these loans is recognized as earned based upon the principal outstanding and terms of the loans.

Commitment fees received from development and leasing services for lessees are initially recorded as deferred revenue and recognized as income over the initial term of a lease to produce a constant effective yield on the lease (interest method). Commitment and origination fees from lending services are also recorded as deferred revenue initially and recognized as income over the life of the loan using the interest method.

Tenant payments for certain taxes, insurance, and other operating expenses related to our facilities (most of which are paid directly by our tenants to the government or related vendor) are recorded net of the respective expense as generally our leases are "triple-net" leases, with terms requiring such expenses to be paid by our tenants. Failure on the part of our tenants to pay such expense or to pay late would result in a violation of the lease agreement, which could lead to an event of default, if not cured.

Acquired Real Estate Purchase Price Allocation: For existing properties acquired for leasing purposes, we account for such acquisitions based on business combination accounting rules. We allocate the purchase price of acquired properties to net tangible and identified intangible assets acquired based on their fair values. In making

[Table of Contents](#)

[Index to Financial Statements](#)

estimates of fair values for purposes of allocating purchase prices of acquired real estate, we may utilize a number of sources, from time to time, including available real estate broker data, independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, internal data from previous acquisitions or developments, and other market data. We also consider information obtained about each property as a result of our pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired.

We record above-market and below-market in-place lease values, if any, for our facilities, which are based on the present value of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. We amortize any resulting capitalized above-market lease values as a reduction of rental income over the lease term. We amortize any resulting capitalized below-market lease values as an increase to rental income over the lease term.

We measure the aggregate value of other lease intangible assets acquired based on the difference between (i) the property valued with new or in-place leases adjusted to market rental rates and (ii) the property valued as if vacant. Management's estimates of value are made using methods similar to those used by independent appraisers (e.g., discounted cash flow analysis). Factors considered by management in our analysis include an estimate of carrying costs during hypothetical expected lease-up periods, considering current market conditions, and costs to execute similar leases. We also consider information obtained about each targeted facility as a result of our pre-acquisition due diligence, marketing, and leasing activities in estimating the fair value of the intangible assets acquired. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which we expect to be about six months depending on specific local market conditions. Management also estimates costs to execute similar leases including leasing commissions, legal costs, and other related expenses to the extent that such costs are not already incurred in connection with a new lease origination as part of the transaction.

Other intangible assets acquired, may include customer relationship intangible values which are based on management's evaluation of the specific characteristics of each prospective tenant's lease and our overall relationship with that tenant. Characteristics to be considered by management in allocating these values include the nature and extent of our existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals, including those existing under the terms of the lease agreement, among other factors.

We amortize the value of lease intangibles to expense over the initial term of the respective leases. If a lease is terminated, the unamortized portion of the lease intangibles are charged to expense.

Real Estate and Depreciation: Real estate, consisting of land, buildings and improvements, are maintained at cost. Although typically paid by our tenants, any expenditure for ordinary maintenance and repairs that we pay are expensed to operations as incurred. Significant renovations and improvements which improve and/or extend the useful life of the asset are capitalized and depreciated over their estimated useful lives. We record impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets, including an estimated liquidation amount, during the expected holding periods are less than the carrying amounts of those assets. Impairment losses are measured as the difference between carrying value and fair value of assets. For assets held for sale, we cease recording depreciation expense and adjust the assets' value to the lower of its carrying value or fair value, less cost of disposal. Fair value is based on estimated cash flows discounted at a risk-adjusted rate of interest. We classify real estate assets as held for sale when we have commenced an active program to sell the assets, and in the opinion of management, it is probable the asset will be sold within the next 12 months.

Construction in progress includes the cost of land, the cost of construction of buildings, improvements and fixed equipment, and costs for design and engineering. Other costs, such as interest, legal, property taxes and

[Table of Contents](#)

[Index to Financial Statements](#)

corporate project supervision, which can be directly associated with the project during construction, are also included in construction in progress. We commence capitalization of costs associated with a development project when the development of the future asset is probable and activities necessary to get the underlying property ready for its intended use have been initiated. We stop the capitalization of costs when the property is substantially complete and ready for its intended use.

Depreciation is calculated on the straight-line method over the useful lives of the related real estate and other assets. Our weighted-average useful lives at December 31, 2014 are as follows:

Buildings and improvements	37.9 years
Tenant lease intangibles	17.9 years
Leasehold improvements	22.3 years
Furniture, equipment and other	6.5 years

Losses from Rent Receivables: For all leases, we continuously monitor the performance of our existing tenants including, but not limited to: admission levels and surgery/procedure volumes by type; current operating margins; ratio of our tenant's operating margins both to facility rent and to facility rent plus other fixed costs; trends in revenue and patient mix; and the effect of evolving healthcare regulations on tenant's profitability and liquidity.

Losses from Operating Lease Receivables: We utilize the information above along with the tenant's payment and default history in evaluating (on a property-by-property basis) whether or not a provision for losses on outstanding rent receivables is needed. A provision for losses on rent receivables (including straight-line rent receivables) is ultimately recorded when it becomes probable that the receivable will not be collected in full. The provision is an amount which reduces the receivable to its estimated net realizable value based on a determination of the eventual amounts to be collected either from the debtor or from existing collateral, if any.

Losses on DFL Receivables: Allowances are established for DFLs based upon an estimate of probable losses for the individual DFLs deemed to be impaired. DFLs are impaired when it is deemed probable that we will be unable to collect all amounts due in accordance with the contractual terms of the lease. Like operating lease receivables, the need for an allowance is based upon our assessment of the lessee's overall financial condition; economic resources and payment record; the prospects for support from any financially responsible guarantors; and, if appropriate, the realizable value of any collateral. These estimates consider all available evidence including the expected future cash flows discounted at the DFL's effective interest rate, fair value of collateral, and other relevant factors, as appropriate. DFLs are placed on non-accrual status when we determine that the collectability of contractual amounts is not reasonably assured. While on non-accrual status, we generally account for the DFLs on a cash basis, in which income is recognized only upon receipt of cash.

Loans: Loans consist of mortgage loans, working capital loans and other long-term loans. Mortgage loans are collateralized by interests in real property. Working capital and other long-term loans are generally collateralized by interests in receivables and corporate and individual guarantees. We record loans at cost. We evaluate the collectability of both interest and principal on a loan-by-loan basis (using the same process as we do for assessing the collectability of rents) to determine whether they are impaired. A loan is considered impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the existing contractual terms. When a loan is considered to be impaired, the amount of the allowance is calculated by comparing the recorded investment to either the value determined by discounting the expected future cash flows using the loan's effective interest rate or to the fair value of the collateral if the loan is collateral dependent. When a loan is deemed to be impaired, we generally place the loan on non-accrual status and record interest income only upon receipt of cash.

[Table of Contents](#)

[Index to Financial Statements](#)

Earnings Per Share/Units: Basic earnings per common share/unit is computed by dividing net income applicable to common shares/units by the weighted number of shares/units of common stock/units outstanding during the period. Diluted earnings per common share/units is calculated by including the effect of dilutive securities.

Our unvested restricted stock/unit awards contain non-forfeitable rights to dividends, and accordingly, these awards are deemed to be participating securities. These participating securities are included in the earnings allocation in computing both basic and diluted earnings per common share/unit.

Income Taxes: We conduct our business as a real estate investment trust (“REIT”) under Sections 856 through 860 of the Internal Revenue Code. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute to stockholders at least 90% of our REIT’s ordinary taxable income. As a REIT, we generally are not subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost, unless the Internal Revenue Service (“IRS”) grants us relief under certain statutory provisions. Such an event could materially adversely affect our net income and net cash available for distribution to stockholders. However, we intend to operate in such a manner so that we will remain qualified as a REIT for federal income tax purposes.

Our financial statements include the operations of taxable REIT subsidiaries (“TRS”), including MPT Development Services, Inc. (“MDS”) and MPT Covington TRS, Inc. (“CVT”), along with around 30 others, which are single member LLCs that are disregarded for tax purposes and are reflected in the tax returns of MDS. Our TRS entities are not entitled to a dividends paid deduction and are subject to federal, state, and local income taxes. Our TRS entities are authorized to provide property development, leasing, and management services for third-party owned properties, and they make loans to and/or investments in our lessees.

With the property acquisitions in Germany and the United Kingdom, we will be subject to income taxes internationally. However, we do not expect to incur any additional income taxes in the United States as such income from our international properties will flow through our REIT income tax returns. For our TRS and international subsidiaries, we determine deferred tax assets and liabilities based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Any increase or decrease in our deferred tax receivables/liabilities that results from a change in circumstances and that causes us to change our judgment about expected future tax consequences of events, is reflected in our tax provision when such changes occur. Deferred income taxes also reflect the impact of operating loss carryforwards. A valuation allowance is provided if we believe it is more likely than not that all or some portion of the deferred tax asset will not be realized. Any increase or decrease in the valuation allowance that results from a change in circumstances, and that causes us to change our judgment about the realizability of the related deferred tax asset, is reflected in our tax provision when such changes occur.

Stock-Based Compensation: We adopted the 2013 Equity Incentive Plan (the “Equity Incentive Plan”) during the second quarter of 2013. Awards of restricted stock, stock options and other equity-based awards with service conditions are amortized to compensation expense over the vesting periods (typically three years), using the straight-line method. Awards of deferred stock units vest when granted and are charged to expense at the date of grant. Awards that contain market conditions are amortized to compensation expense over the derived vesting periods, which correspond to the periods over which we estimate the awards will be earned, which generally range from three to five years, using the straight-line method. Awards with performance conditions are amortized using the straight-line method over the service period in which the performance conditions are measured, adjusted for the probability of achieving the performance conditions.

Deferred Costs: Costs incurred prior to the completion of offerings of stock or debt that directly relate to the offerings are deferred and netted against proceeds received from the offering. External costs incurred in

[Table of Contents](#)

[Index to Financial Statements](#)

connection with anticipated financings and refinancings of debt are generally capitalized as deferred financing costs in other assets and amortized over the lives of the related debt as an addition to interest expense. For debt with defined principal re-payment terms, the deferred costs are amortized to produce a constant effective yield on the loan (interest method). For debt without defined principal repayment terms, such as revolving credit agreements, the deferred costs are amortized on the straight-line method over the term of the debt. Leasing commissions and other leasing costs directly attributable to tenant leases are capitalized as deferred leasing costs and amortized on the straight-line method over the terms of the related lease agreements. Costs identifiable with loans made to borrowers are recognized as a reduction in interest income over the life of the loan.

Foreign Currency Translation and Transactions: Certain of our subsidiaries' functional currencies are the local currencies of their respective countries. We translate the results of operations of our foreign subsidiaries into U.S. dollars using average rates of exchange in effect during the period, and we translate balance sheet accounts using exchange rates in effect at the end of the period. We record resulting currency translation adjustments in accumulated other comprehensive income, a component of stockholders' equity on our consolidated balance sheets.

Certain of our U.S. subsidiaries will enter into short-term transactions denominated in foreign currency from time to time. Gains or losses resulting from these foreign currency transactions are translated into U.S. dollars at the rates of exchange prevailing at the dates of the transactions. The effects of transaction gains or losses are included in other income in the consolidated statements of income.

Derivative Financial Investments and Hedging Activities: During our normal course of business, we may use certain types of derivative instruments for the purpose of managing interest rate and/or foreign currency risk. We record our derivative and hedging instruments at fair value on the balance sheet. Changes in the estimated fair value of derivative instruments that are not designated as hedges or that do not meet the criteria for hedge accounting are recognized in earnings. For derivatives designated as cash flow hedges, the change in the estimated fair value of the effective portion of the derivative is recognized in accumulated other comprehensive income (loss), whereas the change in the estimated fair value of the ineffective portion is recognized in earnings. For derivatives designated as fair value hedges, the change in the estimated fair value of the effective portion of the derivatives offsets the change in the estimated fair value of the hedged item, whereas the change in the estimated fair value of the ineffective portion is recognized in earnings.

To qualify for hedge accounting, we formally document all relationships between hedging instruments and hedged items, as well as our risk management objective and strategy for undertaking the hedge prior to entering into a derivative transaction. This process includes specific identification of the hedging instrument and the hedge transaction, the nature of the risk being hedged and how the hedging instrument's effectiveness in hedging the exposure to the hedged transaction's variability in cash flows attributable to the hedged risk will be assessed. Both at the inception of the hedge and on an ongoing basis, we assess whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows or fair values of hedged items. In addition, for cash flow hedges, we assess whether the underlying forecasted transaction will occur. We discontinue hedge accounting if a derivative is not determined to be highly effective as a hedge or that it is probable that the underlying forecasted transaction will not occur.

Fair Value Measurement: We measure and disclose the estimated fair value of financial assets and liabilities utilizing a hierarchy of valuation techniques based on whether the inputs to a fair value measurement are considered to be observable or unobservable in a marketplace. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. This hierarchy requires the use of observable market data when available. These inputs have created the following fair value hierarchy:

- *Level 1* — quoted prices for *identical* instruments in active markets;
- *Level 2* — quoted prices for *similar* instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and

[Table of Contents](#)

[Index to Financial Statements](#)

- *Level 3* — fair value measurements derived from valuation techniques in which one or more significant inputs or significant value drivers are *unobservable*.

We measure fair value using a set of standardized procedures that are outlined herein for all assets and liabilities which are required to be measured at their estimated fair value on either a recurring or non-recurring basis. When available, we utilize quoted market prices from an independent third party source to determine fair value and classify such items in Level 1. In some instances where a market price is available, but the instrument is in an inactive or over-the-counter market, we consistently apply the dealer (market maker) pricing estimate and classify the asset or liability in Level 2.

If quoted market prices or inputs are not available, fair value measurements are based upon valuation models that utilize current market or independently sourced market inputs, such as interest rates, option volatilities, credit spreads, market capitalization rates, etc. Items valued using such internally-generated valuation techniques are classified according to the lowest level input that is significant to the fair value measurement. As a result, the asset or liability could be classified in either Level 2 or 3 even though there may be some significant inputs that are readily observable. Internal fair value models and techniques used by us include discounted cash flow and Monte Carlo valuation models. We also consider our counterparty's and own credit risk on derivatives and other liabilities measured at their estimated fair value.

Fair Value Option Election: For our equity interest in Ernest and related loans (as more fully described in Note 3), we have elected to account for these investments at fair value due to the size of the investments and because we believe this method is more reflective of current values. We have not made a similar election for other equity interest or loans.

Recent Accounting Developments: In 2014, the FASB issued *Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* ("ASU 2014-08"), which raises the threshold for disposals to qualify as discontinued operations. A discontinued operation is defined as: (1) a component of an entity or group of components that has been disposed of or classified as held for sale and represents a strategic shift that has or will have a major effect on an entity's operations and financial results; or (2) an acquired business that is classified as held for sale on the acquisition date. ASU 2014-08 also requires additional disclosures regarding discontinued operations, as well as material disposals that do not meet the definition of discontinued operations. We adopted ASU 2014-08 for the quarter ended March 31, 2014. The application of this guidance is prospective from the date of adoption and should result in our not generally having to reflect property disposals as discontinued operations in the future — such as with the La Palma and Bucks property disposals in 2014.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* ("ASU 2014-09"). ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. Additionally, this guidance requires improved disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. ASU 2014-09 is effective for the first interim period within annual reporting periods beginning after December 15, 2016, and early adoption is not permitted. We are currently in the process of evaluating the impact the adoption of ASU 2014-09 will have on our financial position and results of operations.

In January 2015, the FASB issued ASU No. 2015-1, *Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items* ("ASU 2015-01"). ASU 2015-01 eliminates from GAAP the concept of extraordinary items. ASU 2015-01 is effective for fiscal years and interim periods beginning after December 15, 2015. We early adopted ASU 2015-01 as of December 31, 2014; the adoption of ASU 2015-01 did not have a material impact on our consolidated financial position or results of operations.

[Table of Contents](#)[Index to Financial Statements](#)

Reclassifications: Certain reclassifications have been made to the condensed consolidated financial statements to conform to the 2014 consolidated financial statement presentation. These reclassifications had no impact on stockholders' equity or net income.

3. Real Estate and Loans Receivable

Acquisitions

We acquired the following assets:

	2014	2013	2012
Assets Acquired		(in thousands)	
Land	\$ 22,569	\$ 41,473	\$ 518
Building	241,242	439,030	8,942
Intangible lease assets — subject to amortization (weighted average useful life of 18.2 years in 2014, 21.0 years in 2013 and 15.0 years in 2012)	22,513	38,589	1,040
Net investments in direct financing leases	—	110,580	310,000
Mortgage loans	—	20,000	200,000
Other loans	447,664	5,250	95,690
Other assets	33,708	—	5,300
Total assets acquired	<u>\$ 767,696</u>	<u>\$ 654,922</u>	<u>\$ 621,490</u>

2014 Activity

Median Transaction

On October 15, 2014, we entered into definitive agreements pursuant to which we will acquire substantially all the real estate assets of Median Kliniken S.à r.l. ("Median"), a German provider of post-acute and acute rehabilitation services, for an aggregate purchase price of approximately €705 million, (or \$881 million based on exchange rates at that time). The portfolio includes 38 rehabilitation hospitals and two acute care hospitals located across 11 states in the Federal Republic of Germany.

The transaction is structured using a two step process in partnership with affiliates of Waterland Private Equity Fund V C.V. ("Waterland"). In the first step, which was completed on December 15, 2014, an affiliate of Waterland acquired 94.9% of the outstanding equity interest in Median pursuant to a stock purchase agreement with Median's current owners. We indirectly acquired the remaining 5.1% of the outstanding equity interest and provided or committed to provide interim acquisition loans to Waterland and Median in aggregate amounts of approximately €425 million (\$531 million), of which €349 million had been advanced at December 31, 2014. These interim loans we make will bear interest at a rate similar to the initial lease rate under the planned sale and leaseback transactions described below.

In a series of transactions we expect will be completed in early 2015, we will acquire substantially all of Median's real estate assets under a sale and leaseback transaction. We will either assume or novate any third party debt attributable to the real estate assets acquired or provide the cash required to repay the third party debt. The purchase price we are required to pay for the real estate assets will be offset, pro rata, against amounts of debt that we assume or have provided cash to repay, and/or against the amounts of loans previously made. The sale and leaseback transactions are subject to customary real estate, regulatory and other closing conditions, including waiver of any statutory pre-emption rights by local municipalities. To the extent we are unable to acquire the entire Median portfolio as contemplated, we will have a right of first refusal with regard to any new real estate properties owned or acquired by Median.

[Table of Contents](#)

[Index to Financial Statements](#)

Upon our acquisition of the real estate assets, we will lease them back to Median under a 27 year master lease, with annual escalators at the greater of one percent or 70% of the German consumer price index.

An affiliate of Waterland controls RHM Klinik-und Altenheimbetriebe GmbH & Co. KG (“RHM”), the operator and lessee of the other German facilities that we own.

In the fourth quarter of 2014, we acquired three RHM rehabilitation facilities in Germany for an aggregate purchase price of €63.6 million (approximately \$81 million) including approximately €3.0 million (or approximately \$3.6 million) of transfer and other taxes that have been expensed as acquisition costs. These facilities include: Bad Mergentheim (211 beds), Bad Tolz (248 beds), and Bad Liebenstein (271 beds). All three properties are included under our existing master lease agreement with RHM as described below.

On October 31, 2014, we acquired a 237-bed acute care hospital, associated medical office buildings, and a behavioral health facility in Sherman, Texas for \$32.5 million. Alecto Healthcare Services (“Alecto”) is the tenant and operator pursuant to a 15-year lease agreement with three five-year extension options. In addition we agreed to fund a working capital loan up to \$7.5 million, all of which was funded at December 31, 2014, and we obtained a 20% interest in the operator of the facility.

On September 19, 2014, we acquired an acute care hospital in Fairmont, West Virginia for an aggregate purchase price of \$15 million from Alecto. The facility was simultaneously leased back to the seller under a 15-year initial term with three five-year extension options. In addition, we made a \$5 million working capital loan to the tenant with a five year term and a commitment to fund up to \$5 million in capital improvements. Finally, we obtained a 20% interest in the operator of this facility.

On July 1, 2014, we acquired an acute care hospital in Peasedown St. John, United Kingdom from Circle Health Ltd., through its subsidiary Circle Hospital (Bath) Ltd. The sale/leaseback transaction, excluding any transfer taxes, is valued at approximately £28.3 million (or approximately \$48.0 million based on exchange rates at that time). The lease has an initial term of 15-years with a tenant option to extend the lease for an additional 15 years. The lease includes annual rent increases, which will equal the year-over-year change in the retail price index with a floor of 2% and a cap of 5%. With the transaction, we incurred approximately £1.1 million (approximately \$1.9 million) of transfer and other taxes that have been expensed as acquisition costs.

On March 31, 2014, we acquired a general acute care hospital and an adjacent parcel of land for an aggregate purchase price of \$115 million from a joint venture of LHP Hospital Group, Inc. and Hackensack University Medical Center Mountainside. The facility was simultaneously leased back to the seller under a lease with a 15-year initial term with a 3-year extension option, followed by a further 12-year extension option at fair market value. The lease provides for consumer price-indexed annual rent increases, subject to a specified floor and ceiling. The lease includes a customary right of first refusal with respect to a subsequent proposed sale of the facility.

From the respective acquisition dates in 2014 through that year end, the 2014 acquisitions contributed \$12.4 million and \$8.7 million of revenue and income (excluding related acquisition and financing expenses) for the period ended December 31, 2014. In addition, we incurred \$26.4 million of acquisition related expenses in 2014, of which \$25.2 million (including \$5.8 million in transfer taxes as part of our RHM, Circle, and Median transactions) related to acquisitions consummated as of December 31, 2014.

The purchase price allocations attributable to the 2014 acquisitions are preliminary. When all relevant information is obtained, resulting changes, if any, to our provisional purchase price allocation will be retrospectively adjusted to reflect new information obtained about the facts and circumstances that existed as of the respective acquisition dates that, if known, would have affected the measurement of the amounts recognized as of those dates.

2013 Activity

RHM Portfolio Acquisition

On November 29, 2013, we acquired 11 rehabilitation facilities in the Federal Republic of Germany from RHM for an aggregate purchase price, excluding €9 million applicable transfer taxes, of €175 million (or \$237.8 million based on exchange rates at that time). Each of the facilities are leased to RHM under a master lease providing for a term of 27 years and for annual rent increases of 2.0% from 2015 through 2017, and of 0.5% thereafter. On December 31, 2020 and every three years thereafter, rent will be increased to reflect 70% of cumulative increases in the German consumer price index.

On December 12, 2013, we acquired the real estate of Dallas Medical Center in Dallas, Texas from affiliates of Prime for a purchase price of \$25 million and leased the facility to Prime with an initial 10-year lease term under the master lease agreement, plus two renewal options of five years each. This lease is accounted for as a direct financing lease.

On September 26, 2013, we acquired three general acute care hospitals from affiliates of IASIS for a combined purchase price of \$281.3 million. Each of the facilities were leased back to IASIS under leases with initial 15-year terms plus two renewal options of five years each, and consumer price-indexed rent increases limited to a 2.5% ceiling annually. The lessees have a right of first refusal option with respect to subsequent proposed sales of the facilities. All of our leases with affiliates of IASIS will be cross-defaulted with each other. In addition to the IASIS acquisitions transactions, we amended our lease with IASIS for the Pioneer Valley Hospital in West Valley City, Utah, which extended the lease to 2028 from 2019 and adjusted the rent.

On July 18, 2013, we acquired the real estate of Esplanade Rehab Hospital in Corpus Christi, Texas (now operating as Corpus Christi Rehabilitation Hospital). The total purchase price was \$10.5 million including \$0.5 million for adjacent land. The facility is leased to an affiliate of Ernest under the master lease agreement entered into in 2012 that initially provided for a 20-year term with three five-year extension options, plus consumer price-indexed rent increases, limited to a 2% floor and 5% ceiling annually. This lease is accounted for as a DFL. In addition, we made a \$5.3 million loan on this property with terms similar to the lease terms.

On June 11, 2013, we acquired the real estate of two acute care hospitals in Kansas from affiliates of Prime for a combined purchase price of \$75 million and leased the facilities to the operator under a master lease agreement. The master lease is for 10 years and contains two renewal options of five years each, and the rent increases annually based on the greater of the consumer price-index or 2%. This lease is accounted for as a DFL.

On December 31, 2013, we provided a \$20 million mortgage financing to Alecto for the 204-bed Olympia Medical Center.

From the respective acquisition dates, in 2013 through that year-end, the 2013 acquisitions contributed \$13.6 million and \$10.6 million of revenue and income (excluding related acquisition and financing expenses) for the period ended December 31, 2013. In addition, we incurred \$19.5 million of acquisition related expenses in 2013, of which \$18.0 million (including \$12 million in transfer taxes as a part of the RHM acquisition) related to acquisitions consummated as of December 31, 2013.

2012 Activity

On February 29, 2012, we made loans to and acquired assets from Ernest for a combined purchase price and investment of \$396.5 million (“Ernest Transaction”).

Real Estate Acquisition and Mortgage Loan Financing

Pursuant to a definitive real property asset purchase agreement, we acquired from Ernest and certain of its subsidiaries (i) a portfolio of five rehabilitation facilities (including a ground lease interest relating to a community-based acute rehabilitation facility in Wyoming), (ii) seven long-term acute care facilities located in seven states and (iii) undeveloped land in Provo, Utah (collectively, the “Acquired Facilities”) for an aggregate purchase price of \$200 million. The Acquired Facilities are leased to subsidiaries of Ernest pursuant to a master lease agreement. The master lease agreement has a 20-year term with three five-year extension options and provided for an initial rental rate of 9%, with consumer price-indexed increases, limited to a 2% floor and 5% ceiling annually thereafter. In addition, we made Ernest a \$100 million loan secured by a first mortgage interest in four subsidiaries of Ernest, which has terms similar to the leasing terms described above.

Acquisition Loan and Equity Contribution

Through an affiliate of one of our TRSs, we made investments of approximately \$96.5 million in Ernest Health Holdings, LLC, which is the owner of Ernest. These investments are structured as a \$93.2 million acquisition loan and a \$3.3 million equity contribution.

The interest rate on the acquisition loan is 15%. Ernest is required to pay us a minimum of 6% and 7% of the loan amount in years one and two, respectively, and 10% thereafter, although there are provisions in the loan agreement that are expected to result in full payment of the 15% preference when funds are sufficient. Any of the 15% in excess of the minimum that is not paid may be accrued, interest compounded, and paid upon the occurrence of a capital or liquidity event and is payable at maturity. The loan may be prepaid without penalty at any time.

On July 3, 2012, we funded a \$100 million mortgage loan secured by the real property of Centinela Hospital Medical Center. Centinela is a 369 bed acute care facility that is operated by Prime. This mortgage loan is cross-defaulted with other mortgage loans to Prime and certain master lease agreements. The initial term of this mortgage loan runs through 2022.

On September 19, 2012, we acquired the real estate of the 380 bed St. Mary’s Regional Medical Center, an acute care hospital in Reno, Nevada for \$80 million and the real estate of the 140 bed Roxborough Memorial Hospital in Pennsylvania for \$30 million. The acquired facilities are leased to Prime pursuant to a master lease agreement, which is more fully described below in the Leasing Operations section.

On December 14, 2012, we acquired the real estate of a 40 bed long-term acute care hospital in Hammond, Louisiana for \$10.5 million and leased the facility to the operator under a 15-year lease, with three five-year extension options. The rent escalates annually based on consumer price indexed increases. As part of this transaction, we made a secured working capital loan of \$2.5 million as well as a revolving loan of up to \$2.0 million. In addition, we made a \$2.0 million equity investment for a 25% equity ownership in the operator of this facility.

From the respective acquisition dates in 2012 through that year end, these 2012 acquisitions contributed \$46.3 million and \$46.1 million of revenue and income (excluding related acquisition expenses) for the period ended December 31, 2012. In addition, we incurred \$5.4 million of acquisition related expenses in 2012, of which \$5.1 million related to acquisitions consummated as of December 31, 2012.

[Table of Contents](#)

[Index to Financial Statements](#)

Pro Forma Information

The following unaudited supplemental pro forma operating data is presented for the year ended December 31, 2014 and 2013, as if each acquisition (which excludes the Median loan advancements) was completed on January 1, 2013. The unaudited supplemental pro forma operating data is not necessarily indicative of what the actual results of operations would have been assuming the transactions had been completed as set forth above, nor do they purport to represent our results of operations for future periods (in thousands, except per share amounts).

	For the Year Ended December 31, (Unaudited)	
	2014	2013
Total revenues	\$ 329,258	\$ 315,780
Net income	67,150	144,545
Net income per share/unit	\$ 0.38	\$ 0.84

Development Activities

During 2014, we completed construction and began recording rental income on the following facilities:

- Northern Utah Rehabilitation Hospital — This \$19 million inpatient rehabilitation facility located in South Ogden, Utah is leased to Ernest pursuant to the 2012 master lease.
- Oakleaf Surgical Hospital — This approximately \$30 million acute care facility located in Altoona, Wisconsin. This facility is leased to National Surgical Hospitals for 15 years and contains two renewal options of five years each plus an additional option for nearly another five years, and the rent increases annually based on changes in the consumer price-index.
- First Choice ER (a subsidiary of Adeptus Health) — We completed 17 acute care facilities for this tenant during 2014 totaling approximately \$83.0 million. These facilities are leased pursuant to the master lease entered into in 2013.

On August 15, 2014 we executed a binding \$8.7 million agreement with Health Care Authority for University of Alabama Birmingham (UAB) Medical West, an Affiliate of UAB Health System for the development of a freestanding emergency department and a medical office building. The facilities will be leased to Medical West under 15 year initial lease terms with four extension options of five years each.

On July 29, 2014, we executed a binding \$150 million agreement with Adeptus Health for the development of acute care hospitals and free-standing emergency departments. These facilities will be leased to Adeptus Health pursuant to a new master lease agreement that has a 15-year initial term with three extension options of five years each that provides for annual rent increases based on changes in the consumer price index with a 2% minimum. This new master lease agreement is cross-defaulted with the original master lease executed with First Choice ER in 2013. We began construction on seven of these facilities in the 2014 second half pursuant to the master funding and development agreement.

Disposals

2014 Activity

On December 31, 2014, we sold our La Palma facility for \$12.5 million, resulting in a gain of \$2.9 million. Due to this sale, we wrote-off \$1.3 million of straight-line rent receivables.

On May 20, 2014, the tenant of our Bucks facility gave notice of their intent to exercise the lease's purchase option. Pursuant to this purchase option, the tenant acquired the facility on August 6, 2014 for \$35 million. We wrote down this facility to fair market value less cost to sell, resulting in a \$3.1 million real estate impairment charge in the 2014 second quarter.

The sale of the Bucks and La Palma facilities was not a strategic shift in our operations, and therefore the results of the Bucks and La Palma operations have not been reclassified as discontinued operations.

2013 Activity

On November 27, 2013, we sold the real estate of an inpatient rehabilitation facility, Warm Springs Rehabilitation Hospital of San Antonio, for \$14 million, resulting in a gain on sale of \$5.6 million.

On April 17, 2013, we sold two long-term acute care hospitals, Summit Hospital of Southeast Arizona and Summit Hospital of Southeast Texas, for total proceeds of \$18.5 million, resulting in a gain of \$2.1 million.

2012 Activity

On December 27, 2012, we sold our Huntington Beach facility for \$12.5 million, resulting in a gain of \$1.9 million. Due to this sale, we wrote-off \$0.7 million of straight-line rent receivable. Due to this sale, we wrote-off \$1.3 million of straight line rent receivables.

During the third quarter of 2012, we entered into a definitive agreement to sell the real estate of two LTACH facilities, Thornton and New Bedford, to Vibra for total cash proceeds of \$42 million. The sale of Thornton was completed on September 28, 2012, resulting in a gain of \$8.4 million. Due to this sale, we wrote-off \$1.6 million in straight-line rent receivables. The sale of New Bedford was completed on October 22, 2012, resulting in a gain of \$7.2 million. Associated with this sale, we wrote-off \$4.1 million in straight-line rent receivables in the fourth quarter 2012.

On August 21, 2012, we sold our Denham Springs facility for \$5.2 million, resulting in a gain of \$0.3 million.

[Table of Contents](#)[Index to Financial Statements](#)

On June 15, 2012, we sold the HealthSouth Rehabilitation Hospital of Fayetteville in Fayetteville, Arkansas for \$16 million, resulting in a loss of \$1.4 million. In connection with this sale, HealthSouth Corporation agreed to extend the lease on our Wichita, Kansas property, which is now set to end in March 2022.

For each of the disposals in 2013 and 2012 (which occurred prior to the accounting changed discussed in Note 1 under the heading “Recent Accounting Developments”), the operating results of these facilities for the current and all prior periods have been included in discontinued operations.

Intangible Assets

At December 31, 2014 and 2013, our intangible lease assets were \$108.9 million (\$87.7 million, net of accumulated amortization) and \$90.5 million (\$74.9 million, net of accumulated amortization), respectively.

We recorded amortization expense related to intangible lease assets of \$7.0 million, \$4.0 million, and \$3.9 million in 2014, 2013, and 2012, respectively, and expect to recognize amortization expense from existing lease intangible assets as follows: (amounts in thousands)

<u>For the Year Ended December 31:</u>	
2015	\$6,438
2016	6,397
2017	6,387
2018	6,326
2019	6,271

As of December 31, 2014, capitalized lease intangibles have a weighted average remaining life of 17.9 years.

Leasing Operations

All of our leases are accounted for as operating leases except we are accounting for 14 Ernest facilities and five Prime facilities as DFLs. The components of our net investment in DFLs consisted of the following (dollars in thousands):

	<u>As of December 31, 2014</u>
Minimum lease payments receivable	\$ 1,607,024
Estimated residual values	211,888
Less unearned income	(1,379,396)
Net investment in direct financing leases	<u>\$ 439,516</u>

Minimum rental payments due to us in future periods under operating leases and DFLs, which have non-cancelable terms extending beyond one year at December 31, 2014, are as follows: (amounts in thousands)

	<u>Total Under Operating Leases</u>	<u>Total Under DFLs</u>	<u>Total</u>
2015	\$ 196,864	\$ 43,386	\$ 240,250
2016	198,265	44,254	242,519
2017	198,807	45,139	243,946
2018	199,728	46,041	245,769
2019	199,857	46,962	246,819
Thereafter	1,838,346	380,743	2,219,089
	<u>\$ 2,831,867</u>	<u>\$ 606,525</u>	<u>\$3,438,392</u>

[Table of Contents](#)

[Index to Financial Statements](#)

On July 3, 2012, we entered into master lease agreements with certain subsidiaries of Prime, which replaced the then current leases with the same tenants covering the same properties. The master leases are for 10 years and contain two renewal options of five years each. The initial lease rate is generally consistent with the blended average rate of the prior lease agreements. However, the annual escalators, which in the prior leases were limited, have been increased to 100% of consumer price index increases, along with a minimum floor. The master leases include repurchase options substantially similar to those in the prior leases, including provisions establishing minimum repurchase prices equal to our total investment.

Monroe Facility

As of December 31, 2014 and 2013, our net investment (exclusive of the related real estate) in Monroe was as follows:

	As of December 31, 2014	As of December 31, 2013
Loans	\$ —	\$ 31,341
Less: Loan impairment reserve	—	(12,000)
Loans, net	—	19,341
Interest, rent and other receivables	—	20,972
Net investment	<u>\$ —</u>	<u>\$ 40,313</u>

Due to the performance and cash flow shortages of the previous tenant, we stopped recording interest income on the Monroe loan and unbilled rent revenue in 2010. In addition, we stopped recording billed rental revenue on this property in April 1, 2013. During 2014, the previous operator of our Monroe facility continued to underperform and became further behind on payments to us as required by the real estate lease agreement and working capital loan agreement. In August 2014, this operator filed for bankruptcy. As part of the bankruptcy process and to help with a smoother transition of the property to a new operator, we agreed to provide up to \$5 million in debtor-in-possession financing of which all was funded by December 31, 2014. Based on these new developments and the fair value of our real estate and the underlying collateral of our loan (using Level 2 inputs), we recorded a \$47.0 million impairment charge in 2014.

Effective December 31, 2014, the bankruptcy court approved the purchase by Prime of the assets of the prior operator. Prime will lease the facility from us pursuant to terms under an existing master lease. The initial annual lease payment is approximately \$2.5 million, and Prime is current on its rent through February 2015. At December 31, 2014, our investment in Monroe is approximately \$36 million, which we believe is fully recoverable.

Florence facility

On March 6, 2013, the tenant of our \$27.4 million facility in Phoenix, Arizona filed for Chapter 11 bankruptcy. At December 31, 2014, we have approximately \$1 million of receivables outstanding but the tenant continues to pay us in accordance with bankruptcy orders. In addition, we have a letter of credit for approximately \$1.2 million to cover any rent and other monetary payments not paid. We have entered into a non-binding letter of intent with the stalking horse bidder for the assumption of the existing lease, with certain non-monetary amendments. Although no assurances can be made that we will not have any impairment charges in the future, we believe our investment in Florence at December 31, 2014, is fully recoverable.

Gilbert facility

In the first quarter of 2014, the tenant of our facility in Gilbert, Arizona filed for Chapter 11 bankruptcy; however, we sent notice of termination of the lease prior to the bankruptcy filing. As a result of the lease terminating, we recorded a charge of approximately \$1 million to reserve against the straight-line rent receivables. In addition, we accelerated the amortization of the related lease intangible asset resulting in \$1.1 million of additional expense in the 2014 first quarter. The tenant has continued to perform its monetary

[Table of Contents](#)

[Index to Financial Statements](#)

obligations and we have agreed to the terms of an amended lease upon the tenant's bankruptcy exit. At December 31, 2014, we have no outstanding receivables. Although no assurances can be made that we will not have any impairment charges or write-offs of receivables in the future, we believe our real estate investment in Gilbert of \$14.1 million at December 31, 2014, is fully recoverable.

Loans

The following is a summary of our loans (\$ amounts in thousands):

	As of December 31, 2014		As of December 31, 2013	
	Balance	Weighted Average Interest Rate	Balance	Weighted Average Interest Rate
Mortgage loans	\$397,594	10.5%	\$388,756	10.0%
Acquisition loans	525,136	9.3%	109,655	14.7%
Working capital and other loans	48,031	10.4%	51,335	10.8%
	<u>\$970,761</u>		<u>\$549,746</u>	

Our mortgage loans cover eight of our properties with three operators.

Other loans typically consist of loans to our tenants for acquisitions and working capital purposes. At December 31, 2014, acquisition loans includes our \$97.5 million loan to Ernest plus \$422.5 million related to the Median transaction in 2014.

On March 1, 2012, pursuant to our convertible note agreement, we converted \$1.6 million of our \$5.0 million convertible note into a 9.9% equity interest in the operator of our Hoboken University Medical Center facility. At December 31, 2014, \$3.4 million remains outstanding on the convertible note, and we retain the option, to convert this remainder into an additional 15.1% equity interest in the operator.

Concentration of Credit Risks

For the years ended December 31, 2014 and 2013, revenue from affiliates of Prime (including rent and interest from mortgage loans) accounted for 26.9% and 32.0%, respectively, of total revenue. From an investment concentration perspective, Prime represented 20.0% and 24.5% of our total assets at December 31, 2014 and December 31, 2013, respectively.

For the year ended December 31, 2014 and 2013, revenue from affiliates of Ernest (including rent and interest from mortgage and acquisition loans) accounted for 18.3% and 20.2% of total revenue, respectively. From an investment concentration perspective, Ernest represented 13.0% and 15.9% of our total assets at December 31, 2014 and December 31, 2013, respectively.

For the year ended December 31, 2014, Median represented 11.3% of our total assets at December 31, 2014.

On an individual property basis, we had no investment of any single property greater than 4% of our total assets as of December 31, 2014.

From a global geographic perspective, approximately 80% of our total assets are in the United States while 20% reside in Europe as of December 31, 2014, up from 9% in 2013. Revenue from our European investments was \$26.0 million and \$1.8 million in 2014 and 2013, respectively.

From a United States geographic perspective, investments located in California represented 14.6% of our total assets at December 31, 2014, down from 18.7% in the prior year. Investments located in Texas represented 20.2% of our total assets at December 31, 2014, down from 22.7% in the prior year.

Related Party Transactions

Lease and interest revenue earned from tenants in which we have an equity interest in were \$101.8 million, \$70.0 million and \$54.3 million in 2014, 2013 and 2012, respectively.

4. Debt

The following is a summary of debt (\$ amounts in thousands):

	As of December 31, 2014		As of December 31, 2013	
	Balance	Interest Rate	Balance	Interest Rate
Revolving credit facility	\$ 593,490	Variable	\$ 105,000	Variable

2014 Senior Unsecured Notes	300,000	5.50%	—	
Term loans	138,682	Various	113,948	Various
	<u>\$2,201,654</u>		<u>\$1,421,681</u>	

As of December 31, 2014, principal payments due on our debt (which exclude the effects of any discounts or premiums recorded) are as follows:

2015	\$ 283
2016	125,298
2017	320
2018	606,271
2019	125,000
Thereafter	1,341,960
Total	<u>\$ 2,199,132</u>

(A) These notes are Euro-denominated and reflect the exchange rates at December 31, 2014 and 2013, respectively.

Revolving Credit Facility

On June 19, 2014, we closed on a \$900 million senior unsecured credit facility (the "Credit Facility"). The Credit Facility was comprised of a \$775 million senior unsecured revolving credit facility (the "Revolving credit facility") and a \$125 million senior unsecured term loan facility (the "Term Loan"). The Credit Facility had an accordion feature that allowed us to expand the size of the facility by up to \$250 million through increases to the Revolving credit facility, Term Loan, both or as a separate term loan tranche. The Credit Facility replaced our previous \$400 million unsecured revolving credit facility and \$100 million unsecured term loan. This transaction resulted in a refinancing charge of approximately \$0.3 million in the 2014 second quarter.

On October 17, 2014, we entered into an amendment to our Credit Facility to exercise the \$250 million accordion on the Revolving credit facility. This amendment increased the Credit Facility to \$1.15 billion and added a new accordion feature that allows us to expand our credit facility by another \$400 million.

The Revolving credit facility matures in June 2018 and can be extended for an additional 12 months at our option. The Revolving credit facility's interest rate was (1) the higher of the "prime rate", federal funds rate plus

0.50%, or Eurodollar rate plus 1.00%, plus a spread that was adjustable from 0.70% to 1.25% based on current total leverage, or (2) LIBOR plus a spread that was adjustable from 1.70% to 2.25% based on current total leverage. In addition to interest expense, we were required to pay a quarterly commitment fee on the undrawn portion of the revolving credit facility, ranging from 0.25% to 0.35% per year.

In November 2014, we received an upgrade to our credit rating resulting in an improvement in our interest rate spreads and commitment fee rates. Effective December 10, 2014, the Revolving credit facility's interest rate is (1) the higher of the "prime rate", federal funds rate plus 0.50%, or Eurodollar rate plus 1.00% plus a fixed spread of 0.40% or (2) LIBOR plus a fixed spread of 1.40%. In regards to commitment fees, we now pay based on the total facility at a rate of 0.30% per year.

At December 31, 2014 and 2013, we had \$593.5 million and \$105.0 million, respectively, outstanding on the Revolving credit facility.

At December 31, 2014, our availability under our Revolving credit facility was approximately \$432 million. The weighted average interest rate on this facility was 2.2% and 3.2% for 2014 and 2013, respectively.

2014 Senior Unsecured Notes

On April 17, 2014, we completed a \$300 million senior unsecured notes offering ("2014 Senior Unsecured Notes"). Interest on the notes is payable semi-annually on May 1 and November 1 of each year. The 2014 Senior Unsecured Notes pay interest in cash at a rate of 5.50% per year. The notes mature on May 1, 2024. We may redeem some or all of the 2014 Senior Unsecured Notes at any time prior to May 1, 2019 at a "make-whole" redemption price. On or after May 1, 2019, we may redeem some or all of the notes at a premium that will decrease over time. In addition, at any time prior to May 1, 2017, we may redeem up to 35% of the aggregate principal amount of the 2014 Senior Unsecured Notes using the proceeds of one or more equity offerings. In the event of a change of control, each holder of the 2014 Senior Unsecured Notes may require us to repurchase some or all of our 2014 Senior Unsecured Notes at a repurchase price equal to 101% of the aggregate principal amount of the 2014 Senior Unsecured Notes plus accrued and unpaid interest to the date of purchase.

2013 Senior Unsecured Notes

On October 10, 2013, we completed the 2013 Senior Unsecured Notes offering for €200 million. Interest on the Notes is payable semi-annually on April 1 and October 1 of each year. The 2013 Senior Unsecured Notes pay interest in cash at a rate of 5.750% per year. The notes mature on October 1, 2020. We may redeem some or all of the 2013 Senior Unsecured Notes at any time prior to October 1, 2016 at a "make-whole" redemption price. On or after October 1, 2016, we may redeem some or all of the Notes at a premium that will decrease over time. In addition, at any time prior to October 1, 2016, we may redeem up to 35% of the aggregate principal amount of the 2013 Senior Unsecured Notes using the proceeds of one or more equity offerings. In the event of a change of control, each holder of the 2013 Senior Unsecured Notes may require us to repurchase some or all of our 2013 Senior Unsecured Notes at a repurchase price equal to 101% of the aggregate principal amount of the 2013 Senior Unsecured Notes plus accrued and unpaid interest to the date of purchase.

2012 Senior Unsecured Notes

On February 17, 2012, we completed a \$200 million offering of senior unsecured notes ("2012 Senior Unsecured Notes") (resulting in net proceeds of \$196.5 million, after underwriting discount). On August 20, 2013, we completed a \$150 million tack on to the notes (resulting in net proceeds of \$150.4 million, after underwriting discount). These 2012 Senior Unsecured Notes accrue interest at a fixed rate of 6.375% per year and mature on February 15, 2022. The 2013 tack on offering, was issued at a premium (price of 102%), resulting in an effective rate of 5.998%. Interest on these notes is payable semi-annually on February 15 and August 15 of each year. We may redeem some or all of the 2012 Senior Unsecured Notes at any time prior to February 15, 2017 at a "make-whole" redemption price. On or after February 15, 2017, we may redeem some or all of the 2012 Senior Unsecured Notes at a premium that will decrease over time, plus accrued and unpaid interest to, but

not including, the redemption date. In the event of a change of control, each holder of the 2012 Senior Unsecured Notes may require us to repurchase some or all of its 2012 Senior Unsecured Notes at a repurchase price equal to 101% of the aggregate principal amount plus accrued and unpaid interest to the date of purchase.

2011 Senior Unsecured Notes

On April 26, 2011, we closed on a private placement of \$450 million aggregate principal amount of 6.875% Senior Notes due 2021 (the “2011 Senior Unsecured Notes”) to qualified institutional buyers in reliance on Rule 144A under the Securities Act. The 2011 Senior Unsecured Notes were subsequently registered under the Securities Act pursuant to an exchange offer. Interest on the 2011 Senior Unsecured Notes is payable semi-annually on May 1 and November 1 of each year. The 2011 Senior Unsecured Notes pay interest in cash at a rate of 6.875% per year and mature on May 1, 2021. We may redeem some or all of the 2011 Senior Unsecured Notes at any time prior to May 1, 2016 at a “make-whole” redemption price. On or after May 1, 2016, we may redeem some or all of the 2011 Senior Unsecured Notes at a premium that will decrease over time, plus accrued and unpaid interest to, but not including, the redemption date. In the event of a change of control, each holder of the 2011 Senior Unsecured Notes may require us to repurchase some or all of its 2011 Senior Unsecured Notes at a repurchase price equal to 101% of the aggregate principal amount plus accrued and unpaid interest to the date of purchase.

2006 Senior Unsecured Notes

During 2006, we issued \$125.0 million of Senior Unsecured Notes (the “2006 Senior Unsecured Notes”). The 2006 Senior Unsecured Notes were placed in private transactions exempt from registration under the Securities Act. One of the issuances of the 2006 Senior Unsecured Notes totaling \$65.0 million pays interest quarterly at a floating annual rate of three-month LIBOR plus 2.30% and can be called at par value by us at any time. This portion of the 2006 Senior Unsecured Notes matures in July 2016. The remaining issuances of 2006 Senior Unsecured Notes pays interest quarterly at a floating annual rate of three-month LIBOR plus 2.30% and can also be called at par value by us at any time. These remaining notes mature in October 2016.

During the second quarter 2010, we entered into an interest rate swap to manage our exposure to variable interest rates by fixing \$65 million of our \$125 million 2006 Senior Unsecured Notes, which started July 31, 2011 (date on which the interest rate turned variable) through maturity date (or July 2016), at a rate of 5.507%. We also entered into an interest rate swap to fix \$60 million of 2006 Senior Unsecured Notes which started October 31, 2011 (date on which the related interest rate turned variable) through the maturity date (or October 2016) at a rate of 5.675%. At December 31, 2014 and 2013, the fair value of the interest rate swaps was \$6.0 million and \$9.0 million, respectively, which is reflected in accounts payable and accrued expenses on the consolidated balance sheets.

We account for our interest rate swaps as cash flow hedges. Accordingly, the effective portion of changes in the fair value of our swaps is recorded as a component of accumulated other comprehensive income/loss on the balance sheet and reclassified into earnings in the same period, or periods, during which the hedged transactions effects earnings, while any ineffective portion is recorded through earnings immediately. We did not have any hedge ineffectiveness from inception of our interest rate swaps through December 31, 2014 and therefore, there was no income statement effect recorded during the years ended December 31, 2014, 2013, and 2012. We do not expect any of the current losses included in accumulated other comprehensive loss to be reclassified into earnings in the next 12 months. At December 31, 2014 and 2013, we have posted \$3.3 million and \$5.0 million of collateral related to our interest rate swaps, respectively, which is reflected in other assets on our consolidated balance sheets.

Term Loans

As noted previously, we closed on the 2014 Term Loan for \$125 million in the second quarter of 2014. The Term Loan matures in June 2019. The Term Loan’s initial interest rate was (1) the higher of the “prime rate”,

federal funds rate plus 0.50%, or Eurodollar rate plus 1.00%, plus a spread that was adjustable from 0.60% to 1.20% based on current total leverage, or (2) LIBOR plus a spread that was adjustable from 1.60% to 2.20% based on current total leverage. With the upgrade to our credit rating as discussed above, the Term Loan's interest rate, effective December 10, 2014, improved to (1) the higher of the "prime rate", federal funds rate plus 0.50%, or Euro dollar rate plus 1.00% plus a fixed spread of 0.65%, or (2) LIBOR plus a fixed spread of 1.65%. At December 31, 2014 and 2013, the interest rate in effect was 1.82% and 2.43%, respectively.

In connection with our acquisition of the Northland LTACH Hospital on February 14, 2011, we assumed a \$14.6 million mortgage. The Northland mortgage loan requires monthly principal and interest payments based on a 30-year amortization period. The Northland mortgage loan has a fixed interest rate of 6.2%, matures on January 1, 2018 and can be prepaid after January 1, 2013, subject to a certain prepayment premium. At December 31, 2014, the remaining balance on this term loan was \$13.7 million. The loan was collateralized by the real estate of the Northland LTACH Hospital, which had a net book value of \$17.5 million and \$18.0 million at December 31, 2014 and 2013, respectively.

Other Commitments

At December 31, 2014, we had commitments from a syndicate of lenders for a senior unsecured interim bridge loan facility with availability of up to \$215 million. This facility served as a back stop for the partial financing of step 1 of the Median transaction. We recorded \$1.4 million of expense in 2014 related to the fees incurred on this facility that was never utilized and expired in January 2015.

Covenants

Our debt facilities impose certain restrictions on us, including restrictions on our ability to: incur debts; create or incur liens; provide guarantees in respect of obligations of any other entity; make redemptions and repurchases of our capital stock; prepay, redeem or repurchase debt; engage in mergers or consolidations; enter into affiliated transactions; dispose of real estate or other assets; and change our business. In addition, the credit agreements governing our revolving credit facility and Term Loan limit the amount of dividends we can pay as a percentage of normalized adjusted funds from operations, as defined in the agreements, on a rolling four quarter basis. At December 31, 2014, the dividend restriction was 95% of normalized adjusted FFO. The indentures governing our senior unsecured notes also limit the amount of dividends we can pay based on the sum of 95% of funds from operations, proceeds of equity issuances and certain other net cash proceeds. Finally, our senior unsecured notes require us to maintain total unencumbered assets (as defined in the related indenture) of not less than 150% of our unsecured indebtedness.

In addition to these restrictions, the revolving credit facility and Term Loan contain customary financial and operating covenants, including covenants relating to our total leverage ratio, fixed charge coverage ratio, mortgage secured leverage ratio, recourse mortgage secured leverage ratio, consolidated adjusted net worth, facility leverage ratio, and unsecured interest coverage ratio. This facility also contains customary events of default, including among others, nonpayment of principal or interest, material inaccuracy of representations and failure to comply with our covenants. If an event of default occurs and is continuing under the facility, the entire outstanding balance may become immediately due and payable. At December 31, 2014, we were in compliance with all such financial and operating covenants.

5. Income Taxes

Medical Properties Trust, Inc.

We have maintained and intend to maintain our election as a REIT under the Internal Revenue Code of 1986, as amended. To qualify as a REIT, we must meet a number of organizational and operational requirements, including a requirement to distribute at least 90% of our taxable income to our stockholders. As a REIT, we generally will not be subject to federal income tax if we distribute 100% of our taxable income to our stockholders and satisfy certain other requirements. Income tax is paid directly by our stockholders on the

[Table of Contents](#)[Index to Financial Statements](#)

dividends distributed to them. If our taxable income exceeds our dividends in a tax year, REIT tax rules allow us to designate dividends from the subsequent tax year in order to avoid current taxation on undistributed income. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income taxes at regular corporate rates, including any applicable alternative minimum tax. Taxable income from non-REIT activities managed through our taxable REIT subsidiaries is subject to applicable United States federal, state and local income taxes. Our international subsidiaries are also subject to income taxes in the jurisdictions in which they operate.

From our taxable REIT subsidiaries and our foreign operations, we incurred income tax expenses as follows (in thousands):

	For the years ended December 31,		
	2014	2013	2012
Current income tax (benefit) expense:			
Domestic	\$ 114	\$ 358	\$ (44)
Foreign	225	158	—
	<u>339</u>	<u>516</u>	<u>(44)</u>
Deferred income tax (benefit) expense			
Domestic	(23)	210	63
Foreign	24	—	—
	<u>1</u>	<u>210</u>	<u>63</u>
Income tax (benefit) expense	<u>\$ 340</u>	<u>\$ 726</u>	<u>\$ 19</u>

The foreign provision (benefit) for income taxes is based on foreign loss before income taxes of \$7.5 million in 2014 as compared with foreign loss before income taxes of \$12.9 million in 2013 (primarily due to the real estate transfer taxes expensed in these periods).

The domestic provision (benefit) for income taxes is based on loss before income taxes of \$20.9 million in 2014 from our taxable REIT subsidiaries (primarily due to impairment charges related to Monroe working capital loan) as compared with income before income taxes of \$7.6 million in 2013 from our taxable REIT subsidiaries, and income before income taxes of \$0.1 million in 2012 from our taxable REIT subsidiaries.

At December 31, 2014 and 2013, components of our deferred tax assets and liabilities were as follows (in thousands):

	2014	2013
Deferred tax liabilities:		
Property and equipment	\$ —	\$ (2,560)
Unbilled rent	(2,070)	(610)
Partnership investments	(3,468)	—
Other	(3,759)	(2,313)
Total deferred tax liabilities	<u>\$ (9,297)</u>	<u>\$ (5,483)</u>
Deferred tax assets:		
Loan loss and other reserves	\$ —	\$ 7,751
Operating loss and interest deduction carry forwards	19,546	2,283
Property and equipment	2,373	—
Partnership investments	—	805
Other	3,971	2,256
Total deferred tax assets	<u>25,890</u>	<u>13,095</u>
Valuation allowance	(16,831)	(7,843)
Total net deferred tax assets	<u>\$ 9,059</u>	<u>\$ 5,252</u>
Net deferred tax (liability)	<u>\$ (238)</u>	<u>\$ (231)</u>

[Table of Contents](#)

[Index to Financial Statements](#)

At December 31, 2014, we had U.S. federal and state NOLs of \$50.7 million and \$121.8 million, respectively, that expire in 2021 through 2034. At December 31, 2014, we had foreign NOLs of \$6.7 million that may be carried forward indefinitely.

At December 31, 2014, we had U.S. federal alternative minimum tax credits of \$0.1 million that may be carried forward indefinitely.

In 2014, our valuation allowance increased by \$8.9 million as a result of book losses sustained by both our foreign subsidiaries as the result of significant acquisition expenses incurred and certain of our domestic taxable REIT subsidiaries. We believe (based on cumulative losses and potential of future taxable income) that we should reserve for our net deferred tax assets. We will continue to monitor this valuation allowance and, if circumstances change (such as entering into new transactions including working capital loans, equity investments, etc), we will adjust this valuation allowance accordingly.

A reconciliation of the income tax expense at the statutory income tax rate and the effective tax rate for income from continuing operations before income taxes for the years ended December 31, 2014, 2013, and 2012 is as follows (in thousands):

	2014	2013	2012
Income from continuing operations (before-tax)	\$ 51,138	\$ 90,027	\$ 72,889
Income tax at the US statutory federal rate (35%)	17,898	31,509	25,511
Rate differential	1,145	2,380	—
State income taxes, net of federal benefit	(337)	271	(8)
Dividends paid deduction	(27,873)	(33,345)	(25,454)
Change in valuation allowance	8,988	(697)	—
Other items, net	519	608	(30)
Total income tax expense	<u>\$ 340</u>	<u>\$ 726</u>	<u>\$ 19</u>

We have no liabilities for uncertain tax positions as of December 31, 2014 and 2013. We recognize interest and penalties related to unrecognized tax positions in income tax expense. We do not currently anticipate that the total amount of unrecognized tax positions will significantly increase or decrease in the next twelve months.

We have met the annual REIT distribution requirements by payment of at least 90% of our estimated taxable income in 2014, 2013, and 2012. Earnings and profits, which determine the taxability of such distributions, will differ from net income reported for financial reporting purposes due primarily to differences in cost basis, differences in the estimated useful lives used to compute depreciation, and differences between the allocation of our net income and loss for financial reporting purposes and for tax reporting purposes.

A schedule of per share distributions we paid and reported to our stockholders is set forth in the following:

	For the Years Ended December 31,		
	2014	2013	2012
Common share distribution	\$ 0.840000	\$ 0.800000	\$ 0.800000
Ordinary income	0.520692	0.599384	0.601216
Capital gains(1)	0.000276	0.046380	0.117584
Unrecaptured Sec. 1250 gain	0.000276	0.026512	0.086976
Return of capital	0.319032	0.154236	0.081200
Allocable to next year	—	—	—

(1) Capital gains include unrecaptured Sec. 1250 gains.

MPT Operating Partnership, L.P.

As a partnership, the allocated share of income of the Operating Partnership is included in the income tax returns of the general and limited partners. Accordingly, no accounting for income taxes is generally required for

[Table of Contents](#)[Index to Financial Statements](#)

such income of the Operating Partnership. However, the Operating Partnership has formed taxable REIT subsidiaries on behalf of Medical Properties Trust, Inc., which are subject to federal, state and local income taxes at regular corporate rates, and its international subsidiaries are subject to income taxes in the jurisdictions in which they operate. See discussion above under Medical Properties Trust, Inc. for more details of income taxes associated with our taxable REIT subsidiaries and international operations.

6. Earnings Per Share/Unit

Medical Properties Trust, Inc.

Our earnings per share were calculated based on the following (amounts in thousands):

	For the Years Ended December 31,		
	2014	2013	2012
Numerator:			
Income from continuing operations	\$ 50,798	\$ 89,301	\$ 72,870
Non-controlling interests' share in continuing operations	(274)	(224)	(177)
Participating securities' share in earnings	(894)	(729)	(887)
Income from continuing operations, less participating securities' share in earnings	49,630	88,348	71,806
Income (loss) from discontinued operations attributable to MPT common stockholders	(2)	7,914	17,207
Net income, less participating securities' share in earnings	<u>\$ 49,628</u>	<u>\$ 96,262</u>	<u>\$ 89,013</u>
Denominator:			
Basic weighted-average common shares	169,999	151,439	132,331
Dilutive potential common shares	541	1,159	2
Diluted weighted-average common shares	<u>170,540</u>	<u>152,598</u>	<u>132,333</u>

MPT Operating Partnership, L.P.

Our earnings per unit were calculated based on the following (amounts in thousands):

	For the Years Ended December 31,		
	2014	2013	2012
Numerator:			
Income from continuing operations	\$ 50,798	\$ 89,301	\$ 72,870
Non-controlling interests' share in continuing operations	(274)	(224)	(177)
Participating securities' share in earnings	(894)	(729)	(887)
Income from continuing operations, less participating securities' share in earnings	49,630	88,348	71,806
Income (loss) from discontinued operations attributable to MPT Operating Partnership partners	(2)	7,914	17,207
Net income, less participating securities' share in earnings	<u>\$ 49,628</u>	<u>\$ 96,262</u>	<u>\$ 89,013</u>
Denominator:			
Basic weighted-average units	169,999	151,439	132,331
Dilutive potential units	541	1,159	2
Diluted weighted-average units	<u>170,540</u>	<u>152,598</u>	<u>132,333</u>

For the year ended December 31, 2012, approximately 0.1 million of options were excluded from the diluted earnings per share/unit calculation as they were not determined to be dilutive.

7. Stock Awards

Stock Awards

Our Equity Incentive Plan authorizes the issuance of common stock options, restricted stock, restricted stock units, deferred stock units, stock appreciation rights, performance units and awards of interests in our Operating Partnership. Our Equity Incentive Plan is administered by the Compensation Committee of the Board of Directors. We have reserved 7,643,651 shares of common stock for awards under the Equity Incentive Plan and 6,316,151 shares remain available for future stock awards as of December 31, 2014. The Equity Incentive Plan contains a limit of 5,000,000 shares as the maximum number of shares of common stock that may be awarded to an individual in any fiscal year. Awards under the Equity Incentive Plan are subject to forfeiture due to termination of employment prior to vesting. In the event of a change in control, outstanding and unvested options will immediately vest, unless otherwise provided in the participant's award or employment agreement, and restricted stock, restricted stock units, deferred stock units and other stock-based awards will vest if so provided in the participant's award agreement. The term of the awards is set by the Compensation Committee, though Incentive Stock Options may not have terms of more than ten years. Forfeited awards are returned to the Equity Incentive Plan and are then available to be re-issued as future awards. For each share of common stock issued by Medical Properties Trust, Inc. pursuant to its Equity Incentive Plan, the Operating Partnership issues a corresponding number of operating partnership units.

The following awards have been granted pursuant to our Equity Incentive Plan (and its predecessor plan):

Stock Options

At December 31, 2014, we had no options outstanding and exercisable. In 2014, 20,000 options were exercised. No options were granted in 2014, 2013, or 2012.

Restricted Equity Awards

These stock-based awards are in the form of service-based awards and performance-based awards. The service-based awards vest as the employee provides the required service (typically three to five years). Service based awards are valued at the average price per share of common stock on the date of grant. In 2014, 2013, and 2012, the Compensation Committee granted awards to employees which vest based on us achieving certain total shareholder returns or comparisons of our total shareholder returns to peer total return indices. Generally, dividends are not paid on these performance awards until the award is earned. See below for details of such grants:

- 2014 performance awards - The 2014 performance awards were granted in three parts:
 - 1) Approximately 40% of the 2014 performance awards were based on us achieving a simple 9.0% annual total shareholder return over a three year period; however, the award contained both carry forward and carry back provisions through December 31, 2018. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 1.7%; expected volatility of 27%; expected dividend yield of 8.0%; and expected service period of 3 years.
 - 2) Approximately 30% of the 2014 performance awards were based on us achieving a cumulative total shareholder return from January 1, 2014 to December 31, 2016. The minimum total shareholder return needed to earn a portion of this award is 27.0% with 100% of the award earned if our total shareholder return reaches 35.0%. If any shares are earned from this award, the shares will vest in equal annual amounts on December 31, 2016, 2017 and 2018. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.8%; expected volatility of 27%; expected dividend yield of 8.0%; and expected service period of 5 years.

- 3) The remainder of the 2014 performance awards will be earned if our total shareholder return outpaces that of the MSCI U.S. REIT Index (“Index”) over the cumulative period from January 1, 2014 to December 31, 2016. Our total shareholder return must exceed that of the Index to earn the minimum number of shares under this award, while it must exceed the Index by 6% to earn 100% of the award. If any shares are earned from this award, the shares will vest in equal annual amounts on December 31, 2016, 2017 and 2018. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.8%; expected volatility of 27%; expected dividend yield of 8.0%; and expected service period of 5 years.

There were 108,261 of the 2014 performance awards earned and vested in 2014. At December 31, 2014, we have 776,562 of 2014 performance awards remaining to be earned.

- 2013 performance awards - The 2013 performance awards were granted in three parts:

- 1) Approximately 27% of the 2013 performance awards were based on us achieving a simple 8.5% annual total shareholder return over a three year period; however, the award contained both carry forward and carry back provisions through December 31, 2017. None of these shares may be sold for two years after they have vested. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.72%; expected volatility of 27%; expected dividend yield of 8.0%; and expected service period of 3 years.
- 2) Approximately 36% of the 2013 performance awards were based on us achieving a cumulative total shareholder return from January 1, 2013 to December 31, 2015. The minimum total shareholder return needed to earn a portion of this award is 25.5% with 100% of the award earned if our total shareholder return reaches 33.5%. If any shares are earned from this award, the shares will vest in equal annual amounts on December 31, 2015, 2016 and 2017. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.38%; expected volatility of 28%; expected dividend yield of 8.0%; and expected service period of 5 years.
- 3) The remainder of the 2013 performance awards will be earned if our total shareholder return outpaces that of the Index over the cumulative period from January 1, 2013 to December 31, 2015. Our total shareholder return must exceed that of the Index to earn the minimum number of shares under this award, while it must exceed the Index by 6% to earn 100% of the award. If any shares are earned from this award, the shares will vest in equal annual amounts on December 31, 2015, 2016 and 2017. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.38%; expected volatility of 28%; expected dividend yield of 8.0%; and expected service period of 5 years.

There were 80,293 of the 2013 performance awards earned and vested in 2014. There were 68,086 of the 2013 performance awards earned and vested in 2013. At December 31, 2014, we have 624,187 of 2013 performance awards remaining to be earned.

- 2012 performance awards - The 2012 performance awards were granted in three parts:

- 1) Approximately 30% of the 2012 performance awards were based on us achieving a simple 9.0% annual total shareholder return over a three year period; however, the award contains both carry forward and carry back provisions through December 31, 2016. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.93%; expected volatility of 34%; expected dividend yield of 8.6%; and expected service period of 4 years.
- 2) Approximately 35% of the 2012 performance awards were based on us achieving a cumulative total shareholder return from January 1, 2012 to December 31, 2014. The minimum total shareholder return needed to earn a portion of this award is 27% with 100% of the award earned if our total shareholder return reaches 35%. If any shares are earned from this award, the shares will vest in

equal annual amounts on January 1, 2015, 2016 and 2017. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.43%; expected volatility of 35%; expected dividend yield of 8.6%; and expected service period of 5 years.

- 3) The remainder of the 2012 performance awards will be earned if our total shareholder return outpaces that of the Index over the cumulative period from January 1, 2012 to December 31, 2014. Our total shareholder return must exceed that of the Index to earn the minimum number of shares under this award, while it must exceed the Index by 6% to earn 100% of the award. If any shares are earned from this award, the shares will vest in equal annual amounts on January 1, 2015, 2016 and 2017. The fair value of this award was estimated on the date of grant using a Monte Carlo valuation model that assumed the following: risk free interest rate of 0.43%; expected volatility of 35%; expected dividend yield of 8.6%; and expected service period of 5 years.

There were 84,190 of the 2012 performance awards earned and vested in 2014. There were 84,188 of the 2012 performance awards earned and vested in 2013 and 2,599 forfeited in 2013. There were 84,188 of the 2012 performance awards earned and vested in 2012 and 5,718 forfeited in 2012. At December 31, 2014, we have 641,476 of 2012 performance awards remaining to be earned.

The following summarizes restricted equity award activity in 2014 and 2013 (which includes awards granted in 2014, 2013, 2012, and any applicable prior years), respectively:

For the Year Ended December 31, 2014:

	Vesting Based on Service		Vesting Based on Market/Performance Conditions	
	Shares	Weighted Average Value at Award Date	Shares	Weighted Average Value at Award Date
Nonvested awards at beginning of the year	325,999	\$ 11.36	1,999,179	\$ 5.44
Awarded	424,366	\$ 12.21	903,134	\$ 7.57
Vested	(298,102)	\$ 11.43	(473,795)	\$ 7.60
Forfeited	—	\$ —	—	\$ —
Nonvested awards at end of year	<u>452,263</u>	\$ 12.11	<u>2,428,518</u>	\$ 5.81

For the Year Ended December 31, 2013:

	Vesting Based on Service		Vesting Based on Market/Performance Conditions	
	Shares	Weighted Average Value at Award Date	Shares	Weighted Average Value at Award Date
Nonvested awards at beginning of the year	466,883	\$ 10.72	1,879,889	\$ 6.48
Awarded	240,425	\$ 12.26	754,255	\$ 6.13
Vested	(381,309)	\$ 11.15	(386,446)	\$ 8.27
Forfeited	—	\$ —	(248,519)	\$ 11.03
Nonvested awards at end of year	<u>325,999</u>	\$ 11.36	<u>1,999,179</u>	\$ 5.44

The value of stock-based awards is charged to compensation expense over the vesting periods. In the years ended December 31, 2014, 2013 and 2012, we recorded \$9.2 million, \$8.8 million, and \$7.6 million, respectively, of non-cash compensation expense. The remaining unrecognized cost from restricted equity awards at December 31, 2014, is \$12.4 million and will be recognized over a weighted average period of 2.4 years. Restricted equity awards which vested in 2014, 2013 and 2012 had a value of \$10.2 million, \$9.2 million, and \$9.2 million, respectively.

8. Commitments and Contingencies

Commitments

Our operating leases primarily consist of ground leases on which certain of our facilities or other related property reside along with corporate office and equipment leases. These ground leases are long-term leases (almost all having terms for approximately 50 years or more), some contain escalation provisions and one contains a purchase option. Properties subject to these ground leases are subleased to our tenants. Lease and rental expense (which is recorded on the straight-line method) for 2014, 2013 and 2012, respectively, were \$2,321,790, \$2,304,461, and \$2,195,835, which was offset by sublease rental income of \$192,098, \$512,503, and \$492,095 for 2014, 2013, and 2012, respectively.

Fixed minimum payments due under operating leases with non-cancelable terms of more than one year at December 31, 2014 are as follows: (amounts in thousands)

2015	\$ 3,415
2016	3,434
2017	3,443
2018	3,436
2019	3,055
Thereafter	84,759
	<u>\$101,542</u>

The total amount to be received in the future from non-cancellable subleases at December 31, 2014, is \$86.5 million.

Contingencies

We are a party to various legal proceedings incidental to our business. In the opinion of management, after consultation with legal counsel, the ultimate liability, if any, with respect to those proceedings is not presently expected to materially affect our financial position, results of operations or cash flows.

9. Common Stock/Partner's Capital

2014 Activity

Medical Properties Trust, Inc.

On March 11, 2014, we completed an underwritten public offering of 7.7 million shares of our common stock, resulting in net proceeds of approximately \$100.2 million, after deducting estimated offering expenses. We also granted the underwriters a 30-day option to purchase up to an additional 1.2 million shares of common stock. The option, which was exercised in full, closed on April 8, 2014 and resulted in additional net proceeds of approximately \$16 million.

In January 2014, we put an at-the-market equity offering program in place, giving us the ability to sell up to \$250 million of stock with a commission of 1.25%. During 2014, we sold 1.7 million shares of our common stock under our at-the-market equity offering program, at an average price of \$13.56 per share resulting in total proceeds, net of commission, of \$22.6 million.

2013 Activity

On August 20, 2013, we completed an offering of 11.5 million shares of common stock (including 1.5 million shares sold pursuant to the exercise in full of the underwriters' option to purchase additional shares) at a price of \$12.75 per share, resulting in net proceeds (after underwriting discount and expenses) of \$140.4 million.

[Table of Contents](#)

[Index to Financial Statements](#)

On February 28, 2013, we completed an offering of 12.7 million shares of our common stock (including 1.7 million shares sold pursuant to the exercise in full of the underwriters' option to purchase additional shares) at a price of \$14.25 per share, resulting in net proceeds (after underwriting discount and expenses) of \$172.9 million.

MPT Operating Partnership, L.P.

The Operating Partnership is made up of a general partner, Medical Properties Trust, LLC ("General Partner") and limited partners, including the Company (which owns 100% of the General Partner) and three other partners. By virtue of its ownership of the General Partner, the Company has a 99.8% ownership interest in Operating Partnership via its ownership of all the common units. The remaining ownership interest is held by the two employees and one director via their ownership of LTIP units. These LTIP units were issued to the employees pursuant to the 2007 Multi-Year Incentive Plan, which is now part of the Equity Incentive Plan discussed in Note 7 and once vested in accordance with their award agreement, may be converted to common units per the Second Amended and Restated Agreement of Limited Partnership of MPT Operating Partnership, L.P. ("Operating Partnership Agreement").

In regards to distributions, the Operating Partnership shall distribute cash at such times and in such amounts as are determined by the General Partner in its sole and absolute discretion, to common unit holders who are common unit holders on the record date. However, per the Operating Partnership Agreement, the General Partner shall use its reasonable efforts to cause the Operating Partnership to distribute amounts sufficient to enable the Company to pay stockholder dividends that will allow the Company to (i) meet its distribution requirement for qualification as a REIT and (ii) avoid any federal income or excise tax liability imposed by the Internal Revenue Code, other than to the extent the Company elects to retain and pay income tax on its net capital gain. In accordance with the Operating Partnership Agreement, LTIP units are treated as common units for distribution purposes.

The Operating Partnership's net income will generally be allocated first to the General Partner to the extent of any cumulative losses and then to the limited partners in accordance with their respective percentage interests in the common units issued by the Operating Partnership. Any losses of the Operating Partnership will generally be allocated first to the limited partners until their capital account is zero and then to the General Partner. In accordance with the Operating Partnership Agreement, LTIP units are treated as common units for purposes of income and loss allocations. Limited partners have the right to require the Operating Partnership to redeem part or all of their common units. It is at the Operating Partnership's discretion to redeem such common units for cash based on the fair market value of an equivalent number of shares of the Company's common stock at the time of redemption or, alternatively, redeem the common units for shares of the Company's common stock on a one-for-one basis, subject to adjustment in the event of stock splits, stock dividends, or similar events. In order for LTIP units to be redeemed, they must first be converted to common units and then must wait two years from the issuance of the LTIP units to be redeemed.

For each share of common stock issued by Medical Properties Trust, Inc., the Operating Partnership issues a corresponding number of operating partnership units.

10. Fair Value of Financial Instruments

We have various assets and liabilities that are considered financial instruments. We estimate that the carrying value of cash and cash equivalents, and accounts payable and accrued expenses approximate their fair values. Included in our accounts payable and accrued expenses are our interest rate swaps, which are recorded at fair value based on Level 2 observable market assumptions using standardized derivative pricing models. We estimate the fair value of our interest and rent receivables using Level 2 inputs such as discounting the estimated future cash flows using the current rates at which similar receivables would be made to others with similar credit ratings and for the same remaining maturities. The fair value of our mortgage loans and working capital loans are estimated by using Level 2 inputs (except for the Monroe loan in 2013 for which we use Level 3 inputs) such as

[Table of Contents](#)

[Index to Financial Statements](#)

discounting the estimated future cash flows using the current rates which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. We determine the fair value of our senior unsecured notes, using Level 2 inputs such as quotes from securities dealers and market makers. We estimate the fair value of our 2006 Senior Unsecured Notes, revolving credit facilities, and term loans using Level 2 inputs based on the present value of future payments, discounted at a rate which we consider appropriate for such debt.

Fair value estimates are made at a specific point in time, are subjective in nature, and involve uncertainties and matters of significant judgment. Settlement of such fair value amounts may not be possible and may not be a prudent management decision. The following table summarizes fair value estimates for our financial instruments (in thousands):

<u>Asset (Liability)</u>	<u>December 31,</u> <u>2014</u>		<u>December 31,</u> <u>2013</u>	
	<u>Book Value</u>	<u>Fair Value</u>	<u>Book Value</u>	<u>Fair Value</u>
Interest and rent receivables	\$ 41,137	\$ 41,005	\$ 58,565	\$ 44,415
Loans(1)	773,311	803,824	351,713	358,383
Debt, net	(2,201,654)	(2,285,727)	(1,421,681)	(1,486,090)

(1) Excludes loans related to Ernest Transaction since they are recorded at fair value and discussed below.

Items Measured at Fair Value on a Recurring Basis

Our equity interest in Ernest and related loans, as discussed in Note 2, are being measured at fair value on a recurring basis as we elected to account for these investments using the fair value option method. We have elected to account for these investments at fair value due to the size of the investments and because we believe this method is more reflective of current values. We have not made a similar election for other equity interests or loans in or prior to 2014.

At December 31, 2014, these amounts were as follows (in thousands):

<u>Asset (Liability)</u>	<u>Fair Value</u>	<u>Cost</u>	<u>Asset Type Classification</u>
Mortgage loan	\$ 100,000	\$ 100,000	Mortgage loans
Acquisition loans	97,450	97,450	Other loans
Equity investment	3,300	3,300	Other assets
	<u>\$ 200,750</u>	<u>\$ 200,750</u>	

Our mortgage loans with Ernest are recorded at fair value based on Level 3 inputs by discounting the estimated cash flows using the market rates which similar loans would be made to borrowers with similar credit ratings and the same remaining maturities. Our acquisition loans and equity investments in Ernest are recorded at fair value based on Level 3 inputs, by using a discounted cash flow model, which requires significant estimates of our investee such as projected revenue and expenses and appropriate consideration of the underlying risk profile of the forecast assumptions associated with the investee. We classify these loans and equity investments as Level 3, as we use certain unobservable inputs to the valuation methodology that are significant to the fair value measurement, and the valuation requires management judgment due to the absence of quoted market prices. For these cash flow models, our observable inputs include use of a capitalization rate, discount rate (which is based on a weighted-average cost of capital), and market interest rates, and our unobservable input includes an adjustment for a marketability discount ("DLOM") on our equity investment of 40% at December 31, 2014.

In regards to the underlying projection of revenues and expenses used in the discounted cash flow model, such projections are provided by Ernest. However, we will modify such projections (including underlying assumptions used) as needed based on our review and analysis of Ernest's historical results, meetings with key members of management, and our understanding of trends and developments within the healthcare industry.

In arriving at the DLOM, we started with a DLOM range based on the results of studies supporting valuation discounts for other transactions or structures without a public market. To select the appropriate DLOM within the range, we then considered many qualitative factors including the percent of control, the nature of the underlying investee's business along with our rights as an investor pursuant to the operating agreement, the size of investment, expected holding period, number of shareholders, access to capital marketplace, etc. To illustrate the effect of movements in the DLOM, we performed a sensitivity analysis below by using basis point variations (dollars in thousands):

<u>Basis Point Change in Marketability Discount</u>	<u>Estimated Increase (Decrease) In Fair Value</u>
+100 basis points	\$ (451)
- 100 basis points	\$ 451

Because the fair value of Ernest investments noted above approximate their original cost, we did not recognize any unrealized gains/losses during 2014, 2013, or 2012. To date, we have not received any distribution payments from our equity investment in Ernest.

11. Discontinued Operations

The following table presents the results of discontinued operations, which include the revenue and expenses of facilities disposed of prior to 2014 for the year ended December 31, 2014, 2013, and 2012 (amounts in thousands except per share/unit data):

	For the Years Ended December 31,		
	2014	2013	2012
Revenues	\$—	\$ 988	\$ 3,470
Gain on sale	—	7,659	16,369
Income (loss) from discontinued operations	(2)	7,914	17,207
Income from discontinued operations — diluted per share/unit	\$—	\$ 0.05	\$ 0.13

12. Other Assets

The following is a summary of our other assets (in thousands):

	At December 31,	
	2014	2013
Debt issue costs, net	\$ 35,324	\$27,180
Other corporate assets	28,197	20,337
Prepays and other assets	58,584	20,356
Total other assets	<u>\$122,105</u>	<u>\$67,873</u>

Other corporate assets include leasehold improvements associated with our corporate office space, furniture and fixtures, equipment, software, deposits, etc. Included in prepaids and other assets is prepaid insurance, prepaid taxes, lease inducements made to tenants (such as the \$5 million inducement made to Prime in 2014 related to their taking over the management of the Monroe facility), and our equity interests in our tenants (which is up this year due to new investments made along with income earned from these equity interests — see Note 3 for further details).

[Table of Contents](#)[Index to Financial Statements](#)**13. Quarterly Financial Data (unaudited)***Medical Properties Trust, Inc.*

The following is a summary of the unaudited quarterly financial information for the years ended December 31, 2014 and 2013: (amounts in thousands, except for per share data)

	For the Three Month Periods in 2014 Ended			
	March 31	June 30	September 30	December 31
Revenues	\$ 73,089	\$ 76,560	\$ 80,777	\$ 82,106

[Index to Financial Statements](#)

ITEM 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

ITEM 9A. Controls and Procedures

Medical Properties Trust, Inc.

(a) *Evaluation of Disclosure Controls and Procedures.* As required by Rule 13a-15(b), under the Securities Exchange Act of 1934, as amended, we have carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be disclosed by us in the reports that we file with the SEC.

(b) *Management's Report on Internal Control over Financial Reporting.* The management of Medical Properties Trust, Inc. has prepared the consolidated financial statements and other information in our Annual Report in accordance with accounting principles generally accepted in the United States of America and is responsible for its accuracy. The financial statements necessarily include amounts that are based on management's best estimates and judgments. In meeting its responsibility, management relies on internal accounting and related control systems. The internal control systems are designed to ensure that transactions are properly authorized and recorded in our financial records and to safeguard our assets from material loss or misuse. Such assurance cannot be absolute because of inherent limitations in any internal control system.

Management of Medical Properties Trust, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of our annual financial statements, management has undertaken an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2014. The assessment was based upon the framework described in the "Integrated Control-Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") based on criteria established in *Internal Control — Integrated Framework (2013)*. Management's assessment included an evaluation of the design of internal control over financial reporting and testing of the operational effectiveness of internal control over financial reporting. We have reviewed the results of the assessment with the Audit Committee of our Board of Directors.

Based on our assessment under the criteria set forth in COSO, management has concluded that, as of December 31, 2014, Medical Properties Trust, Inc. maintained effective internal control over financial reporting.

The effectiveness of our internal control over financial reporting as of December 31, 2014, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

(c) *Changes in Internal Controls over Financial Reporting.* There has been no change in Medical Properties Trust, Inc.'s internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

MPT Operating Partnership, L.P.

(a) *Evaluation of Disclosure Controls and Procedures.* As required by Rule 13a-15(b), under the Securities Exchange Act of 1934, as amended, we have carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be disclosed by us in the reports that we file with the SEC.

(b) *Management's Report on Internal Control over Financial Reporting.* The management of MPT Operating Partnership, L.P. has prepared the consolidated financial statements and other information in our Annual Report in accordance with accounting principles generally accepted in the United States of America and is responsible for its accuracy. The financial statements necessarily include amounts that are based on management's best estimates and judgments. In meeting its responsibility, management relies on internal accounting and related control systems. The internal control systems are designed to ensure that transactions are properly authorized and recorded in our financial records and to safeguard our assets from material loss or misuse. Such assurance cannot be absolute because of inherent limitations in any internal control system.

Management of MPT Operating Partnership, L.P. is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of our annual financial statements, management has undertaken an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2014. The assessment was based upon the framework described in the "Integrated Control-Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") based on criteria established in *Internal Control — Integrated Framework (2013)*. Management's assessment included an evaluation of the design of internal control over financial reporting and testing of the operational effectiveness of internal control over financial reporting. We have reviewed the results of the assessment with the Audit Committee of our Board of Directors.

Based on our assessment under the criteria set forth in COSO, management has concluded that, as of December 31, 2014, MPT Operating Partnership, L.P. maintained effective internal control over financial reporting.

The effectiveness of our internal control over financial reporting as of December 31, 2014, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

(c) *Changes in Internal Controls over Financial Reporting.* There has been no change in MPT Operating Partnership, L.P.'s internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. Other Information

None.

PART III

ITEM 10. *Directors, Executive Officers and Corporate Governance*

The information required by this Item 10 is incorporated by reference to our definitive Proxy Statement for the 2015 Annual Meeting of Stockholders, which will be filed by us with the Commission not later than April 30, 2015.

ITEM 11. *Executive Compensation*

The information required by this Item 11 is incorporated by reference to our definitive Proxy Statement for the 2015 Annual Meeting of Stockholders, which will be filed by us with the Commission not later than April 30, 2015.

ITEM 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

The information required by this Item 12 is incorporated by reference to our definitive Proxy Statement for the 2015 Annual Meeting of Stockholders, which will be filed by us with the Commission not later than April 30, 2015.

ITEM 13. *Certain Relationships and Related Transactions, and Director Independence*

The information required by this Item 13 is incorporated by reference to our definitive Proxy Statement for the 2015 Annual Meeting of Stockholders, which will be filed by us with the Commission not later than April 30, 2015.

Medical Properties Trust, Inc. and MPT Operating Partnership, L.P.
Schedule II: Valuation and Qualifying Accounts
December 31, 2014

<u>Year Ended December 31,</u>	<u>Balance at Beginning of Year(1)</u>	<u>Additions Charged Against Operations(1)</u>	<u>Deductions Net Recoveries/ Writeoffs(1)</u>	<u>Balance at End of Year(1)</u>
	(In thousands)			
2014	\$ 41,573	\$ 65,512(2)	\$ (86,956)(5)	\$ 20,129
2013	\$ 34,769	\$ 9,397(3)	\$ (2,593)	\$ 41,573
2012	\$ 32,618	\$ 4,540(4)	\$ (2,389)	\$ 34,769

- (1) Includes allowance for doubtful accounts, straight-line rent reserves, allowance for loan losses, tax valuation allowances and other reserves.
- (2) Includes the \$47 million of impairment charges related to the Monroe property, \$9.5 million of rent and interest reserves primarily related to the Monroe property (prior to change in operators — see note 3 to Item 8 of the Form 10-K for further details), and approximately \$9 million increase in the valuation allowance to fully reserve our net deferred tax assets.
- (3) Includes \$4.8 million and \$2.7 million in rent and interest reserves, respectively, related to our Monroe properties along with \$1.9 million to fully reserve for the net deferred tax asset of certain German subsidiaries.
- (4) Includes \$1.6 million and \$2.9 million in rent and interest reserves, respectively, related to our Monroe properties.
- (5) Writeoffs of loans and other receivables related to the Monroe facility due to change in operators.

Dated as of March 31, 2014

To

INDENTURE

Dated as of April 26, 2011

6.875% Senior Notes due 2021

FOURTEENTH SUPPLEMENTAL INDENTURE

FOURTEENTH SUPPLEMENTAL INDENTURE (this "Fourteenth Supplemental Indenture"), dated as of March 31, 2014, by and among MPT of Los Angeles, L.P., a Delaware limited partnership, MPT Legacy of Montclair, LLC, a Delaware limited liability company, MPT Legacy of Pocatello, LLC, a Delaware limited liability company, MPT of Alvin FCER, LLC, a Delaware limited liability company, MPT of Firestone FCER, LLC, a Delaware limited liability company, MPT of Houston-Eldridge FCER, LLC, a Delaware limited liability company, MPT of Cedar Hill FCER, LLC, a Delaware limited liability company, MPT of Allen FCER, LLC, a Delaware limited liability company, MPT of Frisco FCER, LLC, a Delaware limited liability company, MPT of Broomfield FCER, LLC, a Delaware limited liability company, MPT of Champion Forest FCER, LLC, a Delaware limited liability company, MPT of Northgate FCER, LLC, a Delaware limited liability company, MPT of Thornton FCER, LLC, a Delaware limited liability company, MPT of Fountain FCER, LLC, a Delaware limited liability company, MPT of Missouri City FCER, LLC, a Delaware limited liability company and MPT of Pearland FCER, LLC, a Delaware limited liability company (the "New Guaranteeing Subsidiaries"), MPT Operating Partnership, L.P., a Delaware limited partnership ("Opco"), MPT Finance Corporation, a Delaware corporation ("Finco" and, together with Opco, the "Issuers"), Medical Properties Trust, Inc., a Maryland corporation (the "Parent"), as Guarantor, each of the other Guarantors (as defined in the Indenture), as Guarantors, and Wilmington Trust Company, a Delaware chartered trust company, as Trustee (the "Trustee").

WITNESSETH

WHEREAS, the Issuers and the Guarantors have heretofore executed and delivered an Indenture, dated as of April 26, 2011 (the "Base Indenture"), as supplemented by that certain First Supplemental Indenture, dated as of August 10, 2011 (the "First Supplemental Indenture"), by that certain Second Supplemental Indenture, dated as of October 3, 2011 (the "Second Supplemental Indenture"), by that certain Third Supplemental Indenture, dated as of December 2, 2011 (the "Third Supplemental Indenture"), by that certain Fourth Supplemental Indenture, dated as of January 19, 2012 (the "Fourth Supplemental Indenture"), by that certain Fifth Supplemental Indenture dated as of April 9, 2012, (the "Fifth Supplemental Indenture"), by that certain Sixth Supplemental Indenture dated as of June 27, 2012, (the "Sixth Supplemental Indenture"), by that certain Seventh Supplemental Indenture dated as of July 31, 2012 (the "Seventh Supplemental Indenture"), by that certain Eighth Supplemental Indenture dated as of September 28, 2012 (the "Eighth Supplemental Indenture"), by that certain Ninth Supplement Indenture dated as of December 28, 2012 (the "Ninth Supplemental Indenture"), by that certain Tenth Supplement Indenture dated as of June 27, 2013 (the "Tenth Supplemental Indenture"), by that certain Eleventh Supplemental Indenture dated as of August 8, 2013 (the "Eleventh Supplemental Indenture"), by that certain Twelfth Supplemental Indenture dated as of October 30, 2013 (the "Twelfth Supplemental Indenture") and by that certain Thirteenth Supplemental Indenture dated as of December 20, 2013 (the "Thirteenth Supplemental Indenture"), together with the Base Indenture, the First Supplemental Indenture, the Second Supplemental Indenture, the Third Supplemental Indenture, the Fourth Supplemental Indenture, the Fifth Supplemental Indenture, the Sixth Supplemental Indenture, the Seventh Supplemental Indenture, the Eighth Supplemental Indenture, the Ninth Supplemental Indenture, the Tenth Supplemental Indenture, the Eleventh Supplemental Indenture and the Twelfth Supplemental Indenture, the "Indenture"), providing for the issuance by the Issuers of the 6.875% Senior Notes due 2021 (the "Notes");

WHEREAS, pursuant to Section 9.01(a)(4) of the Indenture, the Issuers, the Guarantors and the Trustee may supplement the Indenture without the consent of any Holders in order to add Guarantees with respect to the Notes;

WHEREAS, as of March 31, 2014, the New Guaranteeing Subsidiaries guarantee the Credit Agreement, and pursuant to Section 4.14(a) of the Indenture, the New Guaranteeing Subsidiaries are required to become Guarantors under the Indenture;

WHEREAS, the Indenture requires that an entity that constitutes a Guarantor shall join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which such entity shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior basis and all other obligations under the Indenture; and

WHEREAS, pursuant to Section 9.01 of the Indenture, the Trustee is authorized to execute and deliver this Fourteenth Supplemental Indenture.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt of which is hereby acknowledged, the Issuers, the Guarantors, the Trustee and the New Guaranteeing Subsidiaries mutually covenant and agree for the equal and ratable benefit of the Holders of the Notes as follows:

1. CAPITALIZED TERMS. Capitalized terms used herein without definition shall have the meanings assigned to them in the Indenture. The rules of interpretation set forth in the Indenture shall be applied here as if set forth in full herein.

2. AGREEMENT TO GUARANTEE. The New Guaranteeing Subsidiaries hereby agree to provide unconditional Guarantees on the terms and subject to the conditions set forth in the Indenture including but not limited to Article 10 thereof.

3. MISCELLANEOUS PROVISIONS.

(a) The Trustee makes no undertaking or representation in respect of, and shall not be responsible in any manner whatsoever for and in respect of, the validity or sufficiency of this Thirteenth Supplemental Indenture or the proper authorization or the due execution hereof by the Issuers or for or in respect of the recitals and statements contained herein, all of which recitals and statements are made solely by the Issuers.

(b) On the date hereof, the Indenture shall be supplemented and amended in accordance herewith, and this Fourteenth Supplemental Indenture shall form part of the Indenture for all purposes, and the Holder of every Note heretofore or hereafter authenticated and delivered under the Indenture shall be bound thereby. The Trustee accepts the trusts created by the Indenture, as amended and supplemented by this Fourteenth Supplemental Indenture, and agrees to perform the same upon the terms and conditions of the Indenture, as amended and supplemented by this Fourteenth Supplemental Indenture.

(c) This Fourteenth Supplemental Indenture shall be deemed to be incorporated in, and made a part of, the Indenture. The Indenture, as amended and supplemented by this Fourteenth

Supplemental Indenture, shall be read, taken and construed as one and the same instrument and all the provisions of the Indenture shall remain in full force and effect in accordance with the terms thereof and as amended and supplemented by this Fourteenth Supplemental Indenture.

(d) THIS FOURTEENTH SUPPLEMENTAL INDENTURE SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK.

(e) This Fourteenth Supplemental Indenture may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

[Signature Pages Follow]

IN WITNESS WHEREOF, the parties hereto have caused this Fourteenth Supplemental Indenture to be duly executed and attested, all as of the date first above written.

To

INDENTURE

Dated as of April 26, 2011

6.875% Senior Notes due 2021

SIXTEENTH SUPPLEMENTAL INDENTURE

SIXTEENTH SUPPLEMENTAL INDENTURE (this "Sixteenth Supplemental Indenture"), dated as of October 3, 2014, by and among MPT of Commerce City FCER, LLC, a Delaware limited liability company, MPT of Fort Worth FCER, LLC, a Delaware limited liability company, MPT of Summerwood FCER, LLC, a Delaware limited liability company, MPT of Fairmount – Alecto, LLC, a Delaware limited liability company, MPT of Hoover – Medical West, LLC, a Delaware limited liability company (the "Domestic Guarantors"), and MPT UK Holdco, MPT Bath, MPT RHM Hohenlohe, MPT RHM Buchberg and MPT RHM Heinrich Mann, each a *société à responsabilité limitée* incorporated and existing under the laws of the Grand Duchy of Luxembourg (the "Lux Guarantors" and together with the Domestic Guarantors, the "New Guaranteeing Subsidiaries"), MPT Operating Partnership, L.P., a Delaware limited partnership ("Opco"), MPT Finance Corporation, a Delaware corporation ("Finco" and, together with Opco, the "Issuers"), Medical Properties Trust, Inc., a Maryland corporation (the "Parent"), as Guarantor, each of the other Guarantors (as defined in the Indenture), as Guarantors, and Wilmington Trust Company, a Delaware chartered trust company, as Trustee (the "Trustee").

WITNESSETH

WHEREAS, the Issuers and the Guarantors have heretofore executed and delivered an Indenture, dated as of April 26, 2011 (the "Base Indenture"), as supplemented by that certain First Supplemental Indenture, dated as of August 10, 2011 (the "First Supplemental Indenture"), by that certain Second Supplemental Indenture, dated as of October 3, 2011 (the "Second Supplemental Indenture"), by that certain Third Supplemental Indenture, dated as of December 2, 2011 (the "Third Supplemental Indenture"), by that certain Fourth Supplemental Indenture, dated as of January 19, 2012 (the "Fourth Supplemental Indenture"), by that certain Fifth Supplemental Indenture dated as of April 9, 2012, (the "Fifth Supplemental Indenture"), by that certain Sixth Supplemental Indenture dated as of June 27, 2012, (the "Sixth Supplemental Indenture"), by that certain Seventh Supplemental Indenture dated as of July 31, 2012 (the "Seventh Supplemental Indenture"), by that certain Eighth Supplemental Indenture dated as of September 28, 2012 (the "Eighth Supplemental Indenture"), by that certain Ninth Supplement Indenture dated as of December 28, 2012 (the "Ninth Supplemental Indenture"), by that certain Tenth Supplement Indenture dated as of June 27, 2013 (the "Tenth Supplemental Indenture"), by that certain Eleventh Supplemental Indenture dated as of August 8, 2013 (the "Eleventh Supplemental Indenture"), by that certain Twelfth Supplemental Indenture dated as of October 30, 2013 (the "Twelfth Supplemental Indenture"), by that certain Thirteenth Supplemental Indenture dated as of December 20, 2013 (the "Thirteenth Supplemental Indenture"), by that certain Fourteenth Supplemental Indenture dated as of March 31, 2014 (the "Fourteenth Supplemental Indenture") and by that certain Fifteenth Supplemental Indenture dated as of June 30, 2014 (the "Fifteenth Supplemental Indenture"), together with the Base Indenture, the First Supplemental Indenture, the Second Supplemental Indenture, the Third Supplemental Indenture, the Fourth Supplemental Indenture, the Fifth Supplemental Indenture, the Sixth Supplemental Indenture, the Seventh Supplemental Indenture, the Eighth Supplemental Indenture, the Ninth Supplemental Indenture, the Tenth Supplemental Indenture, the Eleventh Supplemental Indenture, the Twelfth Supplemental Indenture, the Thirteenth Supplemental Indenture and the Fourteenth Supplemental Indenture, the "Indenture"), providing for the issuance by the Issuers of the 6.875% Senior Notes due 2021 (the "Notes");

WHEREAS, pursuant to Section 9.01(a)(4) of the Indenture, the Issuers, the Guarantors and the Trustee may supplement the Indenture without the consent of any Holders in order to add Guarantees with respect to the Notes;

WHEREAS, as of August 6, 2014 and September 30, 2014, the Domestic Guarantors guaranteed the Credit Agreement, and pursuant to Section 4.14(a) of the Indenture, the Domestic Guarantors are required to become Guarantors under the Indenture;

WHEREAS, the Indenture requires that an entity that constitutes a Guarantor shall join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which such entity shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior basis and all other obligations under the Indenture;

WHEREAS, the Lux Guarantors wish to join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which the Lux Guarantors shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior basis and all other obligations under the Indenture; and

WHEREAS, pursuant to Section 9.01 of the Indenture, the Trustee is authorized to execute and deliver this Sixteenth Supplemental Indenture.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt of which is hereby acknowledged, the Issuers, the Guarantors, the Trustee and the New Guaranteeing Subsidiaries mutually covenant and agree for the equal and ratable benefit of the Holders of the Notes as follows:

1. CAPITALIZED TERMS. Capitalized terms used herein without definition shall have the meanings assigned to them in the Indenture. The rules of interpretation set forth in the Indenture shall be applied here as if set forth in full herein.

2. AGREEMENT TO GUARANTEE. The New Guaranteeing Subsidiaries hereby agree to provide unconditional Guarantees effective as of September 30, 2014, on the terms and subject to the conditions set forth in the Indenture including but not limited to Article 10 thereof.

3. MISCELLANEOUS PROVISIONS.

(a) The Trustee makes no undertaking or representation in respect of, and shall not be responsible in any manner whatsoever for and in respect of, the validity or sufficiency of this Sixteenth Supplemental Indenture or the proper authorization or the due execution hereof by the Issuers or for or in respect of the recitals and statements contained herein, all of which recitals and statements are made solely by the Issuers.

(b) Effective as of September 30, 2014, the Indenture shall be supplemented and amended in accordance herewith, and this Sixteenth Supplemental Indenture shall form part of the Indenture for all purposes, and the Holder of every Note heretofore or hereafter authenticated and delivered under the Indenture shall be bound thereby. The Trustee accepts the trusts created

by the Indenture, as amended and supplemented by this Sixteenth Supplemental Indenture, and agrees to perform the same upon the terms and conditions of the Indenture, as amended and supplemented by this Sixteenth Supplemental Indenture.

(c) This Sixteenth Supplemental Indenture shall be deemed to be incorporated in, and made a part of, the Indenture. The Indenture, as amended and supplemented by this Sixteenth Supplemental Indenture, shall be read, taken and construed as one and the same instrument and all the provisions of the Indenture shall remain in full force and effect in accordance with the terms thereof and as amended and supplemented by this Sixteenth Supplemental Indenture.

(d) THIS SIXTEENTH SUPPLEMENTAL INDENTURE SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK.

(e) This Sixteenth Supplemental Indenture may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

[Signature Pages Follow]

IN WITNESS WHEREOF, the parties hereto have caused this Sixteenth Supplemental Indenture to be duly executed and attested, all as of the date first above written.

THIRTEENTH SUPPLEMENTAL INDENTURE

Dated as of October 3, 2014

To

INDENTURE

Dated as of February 17, 2012

6.375% Senior Notes due 2022

THIRTEENTH SUPPLEMENTAL INDENTURE

THIRTEENTH SUPPLEMENTAL INDENTURE (this “Thirteenth Supplemental Indenture”), dated as of October 3, 2014, by and among MPT of Commerce City FCER, LLC, a Delaware limited liability company, MPT of Fort Worth FCER, LLC, a Delaware limited liability company, MPT of Summerwood FCER, LLC, a Delaware limited liability company, MPT of Fairmount – Alecto, LLC, a Delaware limited liability company, MPT of Hoover – Medical West, LLC, a Delaware limited liability company (the “Domestic Guarantors”), and MPT UK Holdco, MPT Bath, MPT RHM Hohenlohe, MPT RHM Buchberg and MPT RHM Heinrich Mann, each a *société à responsabilité limitée* incorporated and existing under the laws of the Grand Duchy of Luxembourg (the “Lux Guarantors” and together with the Domestic Guarantors, the “New Guaranteeing Subsidiaries”), MPT Operating Partnership, L.P., a Delaware limited partnership (“Opco”), MPT Finance Corporation, a Delaware corporation (“Finco” and, together with Opco, the “Issuers”), Medical Properties Trust, Inc., a Maryland corporation (the “Parent”), as Guarantor, each of the other Guarantors (as defined in the Indenture), as Guarantors, and Wilmington Trust, National Association, existing under the laws of the United States of America, as Trustee (the “Trustee”).

WITNESSETH

WHEREAS, the Issuers and the Guarantors have heretofore executed and delivered an Indenture, dated as of February 17, 2012, (the “Base Indenture”), as supplemented by that certain First Supplemental Indenture dated as of April 9, 2012 (the “First Supplemental Indenture”), by that certain Second Supplemental Indenture dated as of June 27, 2012 (the “Second Supplemental Indenture”), by that certain Third Supplemental Indenture dated as of July 31, 2012 (the “Third Supplemental Indenture”), by that certain Fourth Supplemental Indenture dated as of September 28, 2012 (the “Fourth Supplemental Indenture”), by that certain Fifth Supplemental Indenture dated as of December 28, 2012 (the “Fifth Supplemental Indenture”), by that certain Sixth Supplemental Indenture dated as of June 27, 2013, by that certain Seventh Supplemental Indenture dated as of August 8, 2013 (the “Seventh Supplemental Indenture”), by that certain Eighth Supplemental Indenture dated as of August 20, 2013 (the “Eighth Supplemental Indenture”), by that certain Ninth Supplemental Indenture dated as of October 30, 2013 (the “Ninth Supplemental Indenture”), by that certain Tenth Supplemental Indenture dated as of December 20, 2013 (the “Tenth Supplemental Indenture”), by that certain Eleventh Supplemental Indenture dated as of March 31, 2014 (the “Eleventh Supplemental Indenture”) and by that certain Twelfth Supplemental Indenture dated as of June 30, 2014 (the “Twelfth Supplemental Indenture”, together with the Base Indenture, the First Supplemental Indenture, the Second Supplement Indenture, the Third Supplemental Indenture, the Fourth Supplemental Indenture, the Fifth Supplemental Indenture, the Sixth Supplemental Indenture, the Seventh Supplemental Indenture, the Eighth Supplemental Indenture, the Ninth Supplemental Indenture, the Tenth Supplemental Indenture and the Eleventh Supplemental Indenture, the “Indenture”), providing for the issuance by the Issuers of the 6.375% Senior Notes due 2022 (the “Notes”);

WHEREAS, pursuant to Section 9.01(a)(4) of the Indenture, the Issuers, the Guarantors and the Trustee may supplement the Indenture without the consent of any Holders in order to add Guarantees with respect to the Notes;

WHEREAS, as of August 6, 2014 and September 30, 2014, the Domestic Guarantors guaranteed the Credit Agreement, and pursuant to Section 4.14(a) of the Indenture, the Domestic Guarantors are required to become Guarantors under the Indenture;

WHEREAS, the Indenture requires that an entity that constitutes a Guarantor shall join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which such entity shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior basis and all other obligations under the Indenture;

WHEREAS, the Lux Guarantors wish to join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which the Lux Guarantors shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior secured basis and all other obligations under the Indenture; and

WHEREAS, pursuant to Section 9.01 of the Indenture, the Trustee is authorized to execute and deliver this Thirteenth Supplemental Indenture.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt of which is hereby acknowledged, the Issuers, the Guarantors, the Trustee and the New Guaranteeing Subsidiaries mutually covenant and agree for the equal and ratable benefit of the Holders of the Notes as follows:

1. CAPITALIZED TERMS. Capitalized terms used herein without definition shall have the meanings assigned to them in the Indenture. The rules of interpretation set forth in the Indenture shall be applied here as if set forth in full herein.

2. AGREEMENT TO GUARANTEE. The New Guaranteeing Subsidiaries hereby agree to provide unconditional Guarantees effective as of September 30, 2014, on the terms and subject to the conditions set forth in the Indenture including but not limited to Article 10 thereof.

3. MISCELLANEOUS PROVISIONS.

(a) The Trustee makes no undertaking or representation in respect of, and shall not be responsible in any manner whatsoever for and in respect of, the validity or sufficiency of this Thirteenth Supplemental Indenture or the proper authorization or the due execution hereof by the Issuers or for or in respect of the recitals and statements contained herein, all of which recitals and statements are made solely by the Issuers.

(b) Effective as of September 30, 2014, the Indenture shall be supplemented and amended in accordance herewith, and this Thirteenth Supplemental Indenture shall form part of the Indenture for all purposes, and the Holder of every Note heretofore or hereafter authenticated and delivered under the Indenture shall be bound thereby. The Trustee accepts the trusts created by the Indenture, as amended and supplemented by this Thirteenth Supplemental Indenture, and agrees to perform the same upon the terms and conditions of the Indenture, as amended and supplemented by this Thirteenth Supplemental Indenture.

(c) This Thirteenth Supplemental Indenture shall be deemed to be incorporated in, and made a part of, the Indenture. The Indenture, as amended and supplemented by this Thirteenth Supplemental Indenture, shall be read, taken and construed as one and the same instrument and all the provisions of the Indenture shall remain in full force and effect in accordance with the terms thereof and as amended and supplemented by this Thirteenth Supplemental Indenture.

(d) THIS THIRTEENTH SUPPLEMENTAL INDENTURE SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK.

(e) This Thirteenth Supplemental Indenture may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

[Signature Pages Follow]

IN WITNESS WHEREOF, the parties hereto have caused this Thirteenth Supplemental Indenture to be duly executed and attested, all as of the date first above written.

5.70% Senior Notes due 2020

SEVENTH SUPPLEMENTAL INDENTURE

SEVENTH SUPPLEMENTAL INDENTURE (this "Seventh Supplemental Indenture"), dated as of October 3, 2014, by and among MPT of Commerce City FCER, LLC, a Delaware limited liability company, MPT of Fort Worth FCER, LLC, a Delaware limited liability company, MPT of Summerwood FCER, LLC, a Delaware limited liability company, MPT of Fairmount – Alecto, LLC, a Delaware limited liability company, MPT of Hoover – Medical West, LLC, a Delaware limited liability company (the "Domestic Guarantors"), and MPT UK Holdco, MPT Bath, MPT RHM Hohenlohe, MPT RHM Buchberg and MPT RHM Heinrich Mann, each a *société à responsabilité limitée* incorporated and existing under the laws of the Grand Duchy of Luxembourg (the "Lux Guarantors") and together with the Domestic Guarantors, the "New Guarantoring Subsidiaries"), MPT Operating Partnership, L.P., a Delaware limited partnership ("Opco"), MPT Finance Corporation, a Delaware corporation ("Finco") and, together with Opco, the "Issuers"), Medical Properties Trust, Inc., a Maryland corporation (the "Parent"), as Guarantor, each of the other Guarantors (as defined in the Indenture), as Guarantors, and Wilmington Trust, National Association, existing under the laws of the United States of America, as Trustee (the "Trustee").

WITNESSETH

WHEREAS, the Issuers and the Guarantors have heretofore executed and delivered an Indenture, dated as of October 10, 2013 (the "Base Indenture"), as supplemented by that certain First Supplemental Indenture, dated as of October 10, 2013 (the "First Supplemental Indenture"), by that certain Second Supplemental Indenture, dated as of October 30, 2013 (the "Second Supplemental Indenture"), by that certain Third Supplemental Indenture, dated as of December 20, 2013 (the "Third Supplemental Indenture"), by that certain Fourth Supplemental Indenture, dated as of March 31, 2014 (the "Fourth Supplemental Indenture"), by that certain Fifth Supplemental Indenture, dated as of April 17, 2014 (the "Fifth Supplemental Indenture"), and by that certain Sixth Supplemental Indenture, dated as of June 30, 2014 (the "Sixth Supplemental Indenture" and together with the Base Indenture, the First Supplemental Indenture, the Second Supplemental Indenture, the Third Supplemental Indenture, the Fourth Supplemental Indenture and the Fifth Supplemental Indenture, the "Indenture"), providing for the issuance by the Issuers of the 5.750% Senior Notes due 2020 (the "Notes");

WHEREAS, pursuant to Section 10.01(a)(4) of the Indenture, the Parent, the Issuers, the Guarantors and the Trustee, together, may supplement the Indenture without notice to or the consent of any Holders or any other party to the Indenture in order to add Guarantees with respect to the Notes;

WHEREAS, as of August 6, 2014 and September 30, 2014, the Domestic Guarantors guaranteed the Credit Agreement, and pursuant to Section 5.14(a) of the Indenture, the Domestic Guarantors are required to become Guarantors under the Indenture;

WHEREAS, the Indenture requires that an entity that constitutes a Guarantor shall join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which such entity shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior basis and all other obligations under the Indenture;

WHEREAS, the Lux Guarantors wish to join the Issuers and the existing Guarantors in executing and delivering to the Trustee a supplemental indenture pursuant to which the Lux Guarantors shall unconditionally Guarantee, on a joint and several basis, the full and prompt payment of the principal of, premium, if any, and interest in respect of the Notes on a senior basis and all other obligations under the Indenture; and

WHEREAS, pursuant to Section 10.06 of the Indenture, the Trustee is authorized to execute and deliver this Seventh Supplemental Indenture.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt of which is hereby acknowledged, the Issuers, the Guarantors, the Trustee and the New Guaranteeing Subsidiaries mutually covenant and agree for the equal and ratable benefit of the Holders of the Notes as follows:

1. CAPITALIZED TERMS. Capitalized terms used herein without definition shall have the meanings assigned to them in the Indenture. The rules of interpretation set forth in the Indenture shall be applied here as if set forth in full herein.

2. AGREEMENT TO GUARANTEE. The New Guaranteeing Subsidiaries hereby agree to provide unconditional Guarantees effective as of September 30, 2014, on the terms and subject to the conditions set forth in the Indenture including, but not limited to, Article 11 thereof.

3. MISCELLANEOUS PROVISIONS.

(a) The Trustee makes no undertaking or representation in respect of, and shall not be responsible in any manner whatsoever for and in respect of, the validity or sufficiency of this Seventh Supplemental Indenture or the proper authorization or the due execution hereof by the Issuers or for or in respect of the recitals and statements contained herein, all of which recitals and statements are made solely by the Issuers.

(b) Effective as of September 30, 2014, the Indenture shall be supplemented and amended in accordance herewith, and this Seventh Supplemental Indenture shall form part of the Indenture for all purposes, and the Holder of every Note heretofore or hereafter authenticated and delivered under the Indenture shall be bound thereby. The Trustee accepts the trusts created by the Indenture, as amended and supplemented by this Seventh Supplemental Indenture, and agrees to perform the same upon the terms and conditions of the Indenture, as amended and supplemented by this Seventh Supplemental Indenture.

(c) This Seventh Supplemental Indenture shall be deemed to be incorporated in, and made a part of, the Indenture. The Indenture, as amended and supplemented by this Seventh Supplemental Indenture, shall be read, taken and construed as one and the same instrument and all the provisions of the Indenture shall remain in full force and effect in accordance with the terms thereof and as amended and supplemented by this Seventh Supplemental Indenture.

(d) THIS SEVENTH SUPPLEMENTAL INDENTURE SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK.

(e) This Seventh Supplemental Indenture may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have caused this Seventh Supplemental Indenture to be duly executed and attested, all as of the date first above written.

**AMENDMENT NO. 1 TO AMENDED AND
RESTATED REVOLVING CREDIT AND TERM LOAN AGREEMENT**

This **AMENDMENT NO. 1 TO AMENDED AND RESTATED REVOLVING CREDIT AND TERM LOAN AGREEMENT**, dated as of October 17, 2014 (this "**Amendment No. 1**"), is by and among MEDICAL PROPERTIES TRUST, INC., a Maryland corporation ("**Holdings**"), MPT OPERATING PARTNERSHIP, L.P., a Delaware limited partnership (the "**Borrower**"), the financial institutions listed on the signature pages hereof (the "**Lenders**") and JPMORGAN CHASE BANK, N.A., as administrative agent for the Lenders (the "**Administrative Agent**"). Reference is made to that certain Amended and Restated Revolving Credit and Term Loan Agreement, dated as of June 19, 2014 (as amended, restated, replaced, supplemented or modified from time to time, the "**Credit Agreement**"), by and among Holdings, the Borrower, the Lenders referenced therein and the Administrative Agent. Capitalized terms used herein without definition shall have the same meanings as set forth in the Credit Agreement, as amended hereby.

RECITALS

WHEREAS, the Borrower has requested that the Lenders and the Administrative Agent make certain amendments to the Credit Agreement; and

WHEREAS, the Borrower, the Lenders and the Administrative Agent are willing to make such amendments as set forth herein;

NOW, THEREFORE, in consideration of the premises and the agreements, provisions and covenants herein contained, the parties hereto agree as follows:

SECTION 1. AMENDMENTS TO CREDIT AGREEMENT. As of the Amendment Effective Date (as defined in Section 4 hereof), the Credit Agreement is hereby amended as follows:

1.1 Amendment to Section 1.1: Definition of Alternative Currency Sublimit. The definition of "Alternative Currency Sublimit" set forth in Section 1.1 of the Credit Agreement is restated in its entirety to read as follows:

““**Alternative Currency Sublimit**”: an amount equal to the lesser of the Total Revolving Commitments and €500,000,000. The Alternative Currency Sublimit is part of, and not in addition to, the Revolving Commitments.”

1.2 Amendment to Section 1.1: Definition of Permitted Investments. The definition of "Permitted Investments" set forth in Section 1.1 of the Credit Agreement is amended by:

(a) restating clause (r) thereof to read as follows:

“(s) any transaction (other than any Investment specifically limited by the above clauses (a) through (r)) which constitutes an Investment to the extent permitted by Section 7.10.”

; and

(b) inserting the following new clause (r) after clause (q) thereof:

“(r) the Median Investment; and”.

1.3 Amendment to Section 1.1: Definition of Pricing Grids. The definition of “Pricing Grids” set forth in Section 1.1 of the Credit Agreement is hereby amended by adding the following proviso after the table entitled “For Term Loans:” in clause (a) of such definition:

“; provided that if either the Total Leverage Ratio or the Unsecured Leverage Ratio exceeds 65%, then the Applicable Margins for both Revolving Loans and Term Loans shall be increased by 0.50% above the Applicable Margins otherwise applicable to a Total Leverage Ratio ³ 55% in the tables set forth above.”

1.4 Amendment to Section 1.1: Definition of Swingline Commitment. The definition of “Swingline Commitment” set forth in Section 1.1 of the Credit Agreement is hereby restated in its entirety to read as follows:

““Swingline Commitment”: the obligation of the Swingline Lender to make Swingline Loans pursuant to Section 2.6 in an aggregate principal amount at any one time outstanding not to exceed \$77,500,000.”

1.5 Amendment to Section 1.1: Definition of Total Asset Value. The definition of “Total Asset Value” set forth in Section 1.1 of the Credit Agreement is restated in its entirety to read as follows:

““Total Asset Value”: an amount equal to the sum, without duplication, of (i) the undepreciated cost (after taking into account any impairments) of all Real Properties that are 100% fee owned or ground-leased by the Group Members (other than Development Properties), plus (ii) the pro-rata share of the undepreciated cost (after taking into account any impairments) of all Real Properties that are less than 100% fee owned or ground-leased by the Group Members (other than Development Properties), plus (iii) unrestricted cash and Cash Equivalents of the Group Members in excess of \$10,000,000; provided that, for purposes of calculating the Total Leverage Ratio, no such unrestricted cash and Cash Equivalents will be added to Total Asset Value if such unrestricted cash and Cash Equivalents have been deducted from Total Indebtedness in the Total Leverage Ratio, plus (iv) the book value of (A) notes receivable of the Group Members which are secured by mortgage Liens on real estate and which are not more than 60 days past due or otherwise in payment default after giving effect to applicable cure periods that has resulted in the commencement of the exercise of remedies (“Mortgage Notes”), (B) notes receivable of Group Members (1) under which the obligor (or the guarantor thereof) is the operator of a medical property for which a Group Member is the lessor or mortgagee, (2) which are cross-defaulted to the lease or Mortgage Note held by such Group Member, (3) which are not more than 60 days past due or otherwise in payment default after giving effect to applicable cure periods, and (4) which are not in a principal amount in excess of \$15,000,000 per note and are set forth in a schedule provided to the Administrative Agent (provided that not more than \$50,000,000 of Total Asset Value may be attributable to

notes receivable described in this clause (B)), (C) notes receivable in the original principal amount of approximately \$93,200,000 evidencing the acquisition loan in connection with the acquisition of Ernest Health, Inc., and (D) notes receivable in the original principal amount of approximately €480,000,000 evidencing the Median Investment so long as such notes are not more than 60 days past due or otherwise in payment default after giving effect to applicable cure periods, plus (v) the book value (after taking into account any impairments) of Construction-in-Process for all Development Properties (in an amount not to exceed the greater of \$200,000,000 and 7% of Total Asset Value), all as determined on a consolidated basis in accordance with GAAP.”

1.6 Amendment to Section 1.1: Definition of Unencumbered Asset Value. The definition of “Unencumbered Asset Value” set forth in Section 1.1 of the Credit Agreement is amended by:

(a) restating clause (C) of the proviso to such definition in its entirety to read as follows:

“(C) not more than 30% of Unencumbered Asset Value may be attributable to Unencumbered Properties and Mortgage Notes for which a single Person is the tenant or obligor (and where any tenant or obligor is a joint venture in which a Person holds an interest, only such Person’s pro-rata share of the Unencumbered Asset Value attributable to the Unencumbered Property or Mortgage Note owned by such joint venture shall be counted against such Person for purposes of this clause (C)), provided that not more than 40% of Unencumbered Asset Value may be attributable to Unencumbered Properties and Mortgage Notes for which (i) Prime Healthcare or (ii) Median or RHM Klinik-und Altenheimbetriebe GmbH & Co. KG, as applicable, are the tenant or obligor in any two consecutive quarters,”

; and

(b) restating clause (G) of the proviso to such definition in its entirety to read as follows:

“(G) not more than 40% of Unencumbered Asset Value, in the aggregate, may be attributable to Unencumbered Properties located in Specified Jurisdictions (provided that not more than 20% of Unencumbered Asset Value, in the aggregate, may be attributable to Unencumbered Properties located in Specified Jurisdictions other than Germany and the United Kingdom),”

1.7 Amendment to Section 1.1: New Definition of Median Investment. Section 1.1 of the Credit Agreement is amended by adding the following new definitions of “Median” and “Median Investment” immediately after the definition of “Materials of Environmental Concern”:

““Median”: Median Kliniken S. à r.l. together with its subsidiaries and participations.

“**Median Investment**”: the Investment made by the Borrower or its Subsidiaries to Waterland Private Equity Fund V C.V. and/or its affiliates or investment vehicles in connection with the acquisition of a portfolio of Median healthcare facilities in an aggregate amount not to exceed EUR480,000,000.”

1.8 Amendment to Section 2.23. Section 2.23(a) of the Credit Agreement is amended by (a) deleting the amount “\$250,000,000” on the sixth line thereof and substituting the amount “\$400,000,000” in place thereof and (b) deleting the amount “\$1,150,000,000” on the eighth line thereof and substituting the amount “\$1,550,000,000” in place thereof.

1.9 Amendment to Section 3.1. Section 3.1(a) of the Credit Agreement is amended by deleting the words “agrees to” on the second line thereof and substituting the words “may in its sole discretion” in place thereof.

1.10 Amendment to Section 7.1(a). Section 7.1(a) of the Credit Agreement is restated in its entirety to read as follows:

“(a) **Total Leverage Ratio.** Permit the ratio of (i) (A) Total Indebtedness minus (B) as of such date of determination, unrestricted cash and Cash Equivalents of the Group Members in excess of \$10,000,000 that is being held to repay that portion of Total Indebtedness that matures within twenty-four (24) months of such date of determination to (ii) Total Asset Value (the “**Total Leverage Ratio**”) as at the last day of any period of four consecutive fiscal quarters of the Borrower or on the date of any incurrence of Indebtedness by the Borrower or its Subsidiaries hereunder to exceed 60%; provided that such ratio may exceed 60% in order to permit the Borrower to consummate a Significant Acquisition so long as (i) such ratio does not exceed 60% as of the end of more than two (2) consecutive fiscal quarters in any fiscal year and (ii) such ratio does not exceed 65% as of such date of determination; and provided further that such ratio may exceed 60% for the fiscal quarters ending December 31, 2014, March 31, 2015 and June 30, 2015 in order to permit the Borrower to consummate the Median Investment so long as such ratio does not exceed 70% as of such date of determination.”

1.11 Amendment to Section 7.1(f). Section 7.1(f) of the Credit Agreement is restated in its entirety to read as follows:

“(f) **Unsecured Leverage Ratio.** Permit the ratio of (i)(A) Unsecured Indebtedness minus (B) as of such date of determination, unrestricted cash and Cash Equivalents of the Group Members in excess of \$10,000,000 that is being held to repay that portion of Unsecured Indebtedness that matures within twenty-four (24) months of such date of determination to (ii) Unencumbered Asset Value (the “**Unsecured Leverage Ratio**”) as at the last day of any period of four consecutive fiscal quarters of the Borrower or on the date of any incurrence of Indebtedness by the Borrower or its Subsidiaries hereunder to exceed 60%; provided that such ratio may exceed 60% in order to permit the Borrower to consummate a Significant Acquisition so long as (i) such ratio does not exceed 60% as of the end of more than two (2) consecutive fiscal quarters in any fiscal year and (ii) such ratio does not exceed 65% as of such date of determination; and provided further that such ratio may exceed 60% for the fiscal quarters ending December 31, 2014, March 31, 2015 and June 30, 2015 in order to permit the Borrower to consummate the Median Investment so long as such ratio does not exceed 80% as of such date of determination.”

1.12 Revolving Commitment. The aggregate Revolving Commitments are increased by \$250,000,000 to \$1,025,000,000.

1.13 Commitments. Schedule 1.1 A to the Credit Agreement is hereby deleted in its entirety and Schedule 1.1 A to this Amendment No. 1 is substituted in place thereof.

1.14 Increase of Revolving Commitments by Increasing Lenders. Each of JPMorgan Chase Bank, N.A., Bank of America, N.A., Barclays Bank pic, KeyBank National Association, Deutsche Bank AG New York Branch, Compass Bank, Credit Agricole Corporate and Investment Bank, Royal Bank of Canada, SunTrust Bank, Wells Fargo Bank, National Association, Citizens Bank, National Association and Credit Suisse AG, Cayman Islands Branch (the “Increasing Lenders”) hereby agrees to increase its Revolving Commitment to the amount set forth on Schedule 1.1 A to this Amendment No. 1.

1.15 Request under Section 2.23(a) of Credit Agreement.

(a) The Administrative Agent and the Lenders party hereto hereby waive the requirement under Section 2.23(a) of the Credit Agreement that the Borrower provide written notice to the Administrative Agent of its request for New Revolving Commitments.

(b) This Amendment No. 1 is and shall be deemed to be for all purposes of the Credit Agreement a partial exercise by the Borrower of its rights under Section 2.23(a) (as amended by this Amendment No. 1) of the Credit Agreement to request an increase of the Revolving Commitments. From and after the Amendment Effective Date, the Borrower shall be able to request \$400,000,000 of remaining Incremental Commitments pursuant to Section 2.23 of the Credit Agreement.

SECTION 2. REPRESENTATIONS AND WARRANTIES OF BORROWER AND HOLDINGS

In order to induce Lenders and Administrative Agent to enter into this Amendment No. 1, Borrower and Holdings each represents and warrants to each Lender and Administrative Agent that the following statements are true, correct and complete:

(i) each of Borrower and Holdings has the power and authority, and the legal right, to make, deliver and perform its obligations under this Amendment No. 1, the Credit Agreement as amended by this Amendment No. 1 (the “**Amended Agreement**”) and any Notes issued pursuant to Section 4D below (the “**New Notes**”);

(ii) each of Borrower and Holdings has taken all necessary organizational action to authorize the execution, delivery and performance of this Amendment No. 1 and the New Notes;

(iii) no consent or authorization of, filing with, notice to or other act by or in respect of, any Governmental Authority or any other Person is required in connection with the execution, delivery, performance, validity or enforceability of this Amendment No. 1 and the New Notes, except consents, authorizations, filings and notices which have been obtained or made and are in full force and effect;

(iv) the execution, delivery and performance of this Amendment No. 1 and the New Notes will not violate any Requirement of Law or any Contractual Obligation of any Group Member, except for any such violation which could not reasonably be expected to have a Material Adverse Effect, and will not result in, or require, the creation or imposition of any Lien on any of their respective properties or revenues pursuant to any Requirement of Law or any such Contractual Obligation;

(v) this Amendment No. 1, the Amended Agreement and the New Notes have been duly executed and delivered by Borrower and Holdings and are the legal, valid and binding obligations of Borrower and Holdings, enforceable against Borrower and Holdings in accordance with their respective terms, except as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors’ rights generally and by general equitable principles (whether enforcement is sought by proceedings in equity or at law);

(vi) the representations and warranties contained in Section 4 of the Credit Agreement are and will be true and correct in all material respects on and as of the date hereof and the Amendment Effective Date to the same extent as though made on and as of such dates, except to the extent such representations and warranties specifically relate to an earlier date, in which case they were true and correct in all material respects on and as of such earlier date; and

(vii) no event has occurred and is continuing or will result from the consummation of the transactions contemplated by this Amendment No. 1 that would constitute a Default or Event of Default.

SECTION 3. ACKNOWLEDGEMENT AND CONSENT

Each Guarantor has read this Amendment No. 1 and consents to the terms hereof and further hereby confirms and agrees that, notwithstanding the effectiveness of this Amendment No. 1, the obligations of such Guarantor under each of the Loan Documents to which such Guarantor is a party shall not be impaired and each of the Loan Documents to which such Guarantor is a party is, and shall continue to be, in full force and effect and is hereby confirmed and ratified in all respects.

Each of Holdings, Borrower and the Subsidiary Guarantors hereby acknowledges and agrees that the Guarantor Obligations under, and as defined in, the Guarantee Agreement, dated as of June 19, 2014, by and among Holdings, the Subsidiary Guarantors and the Administrative Agent, as supplemented (the "Guarantee Agreement") will include all Obligations under, and as defined in, the Credit Agreement (as amended hereby).

Each Guarantor acknowledges and agrees that (i) notwithstanding the conditions to effectiveness set forth in this Amendment No. 1, such Guarantor is not required by the terms of the Credit Agreement or any other Loan Document to consent to the amendments to the Credit Agreement effected pursuant to this Amendment No. 1 and (ii) nothing in the Credit Agreement, this Amendment No. 1 or any other Loan Document shall be deemed to require the consent of such Guarantor to any future amendments to the Credit Agreement.

SECTION 4. CONDITIONS TO EFFECTIVENESS

Except as set forth below, Section 1 of this Amendment No. 1 shall become effective only upon the satisfaction of the following conditions precedent (the date of satisfaction of such conditions being referred to as the "**Amendment Effective Date**"):

A. The Borrower, Holdings, the other Guarantors, the Administrative Agent and the Required Lenders shall have indicated their consent hereto by the execution and delivery of the signature pages hereof to the Administrative Agent.

B. The Administrative Agent shall have received a secretary's certificate of Holdings and the Borrower (i) either confirming that there have been no changes to its organizational documents since April 26, 2011, or if there have been changes to Holdings' or the Borrower's organizational documents since such date, certifying as to such changes, and (ii) certifying as to resolutions and incumbency of officers with respect to this Amendment No. 1 and the transactions contemplated hereby.

C. The Lenders and the Administrative Agent shall have received all reasonable out-of-pocket costs and expenses for which invoices have been presented (including the reasonable fees and expenses of legal counsel for which the Borrower agrees it is responsible pursuant to Section 10.5 of the Credit Agreement), incurred in connection with this Amendment No. 1.

D. Execution and delivery to the Administrative Agent by the Borrower of amended and restated Notes in favor of the Increasing Lenders in the aggregate total incremental amount of \$250,000,000.

E. Delivery to the Administrative Agent by Goodwin Procter LLP, as counsel to the Borrower, of an opinion addressed to the Lenders and the Administrative Agent in form and substance reasonably satisfactory to the Administrative Agent.

F. Payment by the Borrower of any agreed upon compensation to the Lenders and the Joint Lead Arrangers as provided in Section 2.23 of the Credit Agreement or as separately agreed in connection with this Amendment No. 1 and the increase of the Revolving Commitments of the Increasing Lenders and any resulting reallocation of the Revolving Loans.

G. The conditions set forth in Section 5.2 of the Credit Agreement shall have been satisfied and the Administrative Agent shall have received a certificate dated the Amendment Effective Date and executed by a Responsible Officer of the Borrower that such conditions have been satisfied and that the Borrower shall be in pro forma compliance with the covenants set forth in Section 7.1 of the Credit Agreement after giving effect to this Amendment No. 1, the incremental Revolving Commitments, the Loans to be made thereunder and the application of the proceeds therefrom as if made and applied on such date.

SECTION 5. MISCELLANEOUS

A. Reference to and Effect on the Credit Agreement and the Other Loan Documents.

(i) On and after the effective date of this Amendment No. 1, each reference in the Credit Agreement to “this Agreement”, “hereunder”, “hereof”, “herein” or words of like import referring to the Credit Agreement and each reference in the other Loan Documents to the “Credit Agreement”, “thereunder”, “thereof” or words of like import referring to the Credit Agreement shall mean and be a reference to the Credit Agreement as amended hereby.

(ii) Except as specifically amended by this Amendment No. 1, the Credit Agreement and the other Loan Documents shall remain in full force and effect and are hereby ratified and confirmed.

(iii) The execution, delivery and performance of this Amendment No. 1 shall not, except as expressly provided herein, constitute a waiver of any provision of, or operate as a waiver of any right, power or remedy of the Administrative Agent or any Lender under the Credit Agreement or any of the other Loan Documents.

B. Headings. Section and subsection headings in this Amendment No. 1 are included herein for convenience of reference only and shall not constitute a part of this Amendment No. 1 for any other purpose or be given any substantive effect.

C. Applicable Law. THIS AMENDMENT NO. 1 AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

D. Counterparts; Effectiveness. This Amendment No. 1 may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which

when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. This Amendment No. 1 (other than the provisions of Section 1 hereof, the effectiveness of which is governed by Section 4 hereof) shall become effective upon the execution of a counterpart hereof by Holdings, Borrower and the Required Lenders and receipt by Borrower and Administrative Agent of written or telephonic notification of such execution and authorization of delivery thereof.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the parties hereto have caused this Amendment No. 1 to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first written above.

Computation of Ratio of Earnings to Fixed Charges
Medical Properties Trust, Inc.

The following table sets forth ratio of earnings to fixed charges and ratio of earnings to combined fixed charges and preferred dividends for the periods indicated below.

	Year Ended December 31, 2014	Year Ended December 31, 2013	Year Ended December 31, 2012	Year Ended December 31, 2011	Year Ended December 31, 2010
Income (Loss) From Continuing Operations Before Income Taxes	\$ 50,864	\$ 89,803	\$ 72,712	\$ 12,070	\$ 865
Fixed Charges	101,914	68,654	60,011	58,964	40,814
Amortization of Capitalized Interest	318	271	227	204	204
Capitalized Interest	(1,860)	(1,729)	(1,596)	(896)	(63)
Earnings	\$ 151,236	\$ 159,999	\$ 131,354	\$ 70,342	\$ 41,820
Interest Expense/Debt Refinancing Costs	\$ 99,854	\$ 66,746	\$ 58,243	\$ 58,026	\$ 40,704
Portion of Rent Related to Interest	200	179	172	42	47
Capitalized Interest	1,860	1,729	1,596	896	63
Fixed Charges	\$ 101,914	\$ 68,654	\$ 60,011	\$ 58,964	\$ 40,814
Preferred Stock Dividends	—	—	—	—	—
Combined Fixed Charges and Preferred Stock Dividends	\$ 101,914	\$ 68,654	\$ 60,011	\$ 58,964	\$ 40,814
Ratio of Earnings to Fixed Charges	1.48x	2.29x	2.19x	1.19x	1.02x
Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends	1.48x	2.29x	2.19x	1.19x	1.02x

Our ratio of earnings to fixed charges is computed by dividing earnings by fixed charges. Our ratio of earnings to combined fixed charges and preferred dividends is computed by dividing earnings by combined fixed charges and preferred dividends. For these purposes, “earnings” is the amount resulting from adding together income (loss) from continuing operations, fixed charges, and amortization of capitalized interest and subtracting interest capitalized. “Fixed charges” is the amount resulting from adding together interest expensed and capitalized; amortized premiums, discounts and capitalized expenses related to indebtedness; and the interest portion of rent. “Combined fixed charges and preferred dividends” is the amount resulting from adding together fixed charges and preferred dividends paid and accrued for each respective period.

Computation of Ratio of Earnings to Fixed Charges
MPT Operating Partnership, L.P.

The following table sets forth ratio of earnings to fixed charges and ratio of earnings to combined fixed charges and preferred dividends for the periods indicated below.

	Year Ended December 31, 2014	Year Ended December 31, 2013	Year Ended December 31, 2012	Year Ended December 31, 2011	Year Ended December 31, 2010
Income (Loss) From Continuing Operations Before Income Taxes	\$ 50,864	\$ 89,803	\$ 72,712	\$ 12,087	\$ 940
Fixed Charges	101,914	68,654	60,011	58,964	40,814
Amortization of Capitalized Interest	318	271	227	204	204
Capitalized Interest	(1,860)	(1,729)	(1,596)	(896)	(63)
Earnings	\$ 151,236	\$ 156,999	\$ 131,354	\$ 70,359	\$ 41,895
Interest Expense/Debt Refinancing Costs	\$ 99,854	\$ 66,746	\$ 58,243	\$ 58,026	\$ 40,704
Portion of Rent Related to Interest	200	179	172	42	47
Capitalized Interest	1,860	1,729	1,596	896	63
Fixed Charges	\$ 101,914	\$ 68,654	\$ 60,011	\$ 58,964	\$ 40,814
Preferred Stock Dividends	—	—	—	—	—
Combined Fixed Charges and Preferred Stock Dividends	\$ 101,914	\$ 68,654	\$ 60,011	\$ 58,964	\$ 40,814
Ratio of Earnings to Fixed Charges	1.48x	2.29x	2.19x	1.19x	1.03x
Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends	1.48x	2.29x	2.19x	1.19x	1.03x

Our ratio of earnings to fixed charges is computed by dividing earnings by fixed charges. Our ratio of earnings to combined fixed charges and preferred dividends is computed by dividing earnings by combined fixed charges and preferred dividends. For these purposes, “earnings” is the amount resulting from adding together income (loss) from continuing operations, fixed charges, and amortization of capitalized interest and subtracting interest capitalized. “Fixed charges” is the amount resulting from adding together interest expensed and capitalized; amortized premiums, discounts and capitalized expenses related to indebtedness; and the interest portion of rent. “Combined fixed charges and preferred dividends” is the amount resulting from adding together fixed charges and preferred dividends paid and accrued for each respective period.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13a-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934

I, Edward K. Aldag, Jr., certify that:

- 1) I have reviewed this annual report on Form 10-K of Medical Properties Trust, Inc.
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
