FORWARD-LOOKING STATEMENTS

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results of the Company or future events to differ materially from those expressed in or underlying such forward-looking statements, including without limitation: Normalized FFO per share; expected payout ratio; the amount of acquisitions of healthcare real estate, if any; Net Debt to EBITDAre; portfolio diversification; capital markets conditions; the repayment of debt arrangements; statements concerning the additional income to the Company as a result of ownership interests in certain hospital operations and the timing of such income; the payment of future dividends, if any; completion of additional debt arrangements and additional investments; national and international economic, business, regulatory, real estate and other market conditions; the competitive environment in which the Company operates; the execution of the Company's business plan; financing risks; the Company's ability to maintain its status as a REIT for federal income tax purposes; acquisition and development risks; potential environmental and other liabilities; potential impact from health crises (like COVID-19) and other events beyond the control of our tenants/borrowers and the related impact to us; and other factors affecting the real estate industry generally or healthcare real estate in particular. For further discussion of the factors that could affect outcomes, please refer to the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and as updated by the Company's subsequently filed Quarterly Reports on Form 10-Q and other SEC filings. Except as otherwise required by the federal securities laws, the Company undertakes no obligation to update the information in this report.

Certain information in the supplemental package may be shown adjusted for transactions completed subsequent to period end and the consummation of pending transactions, including the expected sale of three Connecticut hospitals currently leased to Prospect and the expected acquisition of a majority interest in Springstone by LifePoint. The adjustments are based upon available information and assumptions that we believe are reasonable. There is no assurance that any pending transactions will occur.

COMPANY OVERVIEW

Medical Properties Trust, Inc. is a self-advised real estate investment trust formed in 2003 to acquire and develop net-leased hospital facilities. From its inception in Birmingham, Alabama, the Company has grown to become one of the world's largest owners of hospital real estate.

MPT's financing model facilitates acquisitions and recapitalizations and allows operators of hospitals to unlock the value of their real estate assets to fund facility improvements, technology upgrades and other investments in operations.

Notes:

(A) Certain line items above (such as depreciation and amortization) include our share of such income/expense from unconsolidated joint ventures. These amounts are included with all activity of our equity interests in the "Earnings from equity interests" line on the consolidated statements of income. The write-off of straight line rent in 2022 is predominantly related to sold properties.

(B) Investors and analysts following the real estate industry utilize funds from operations, or FFO, as a supplemental performance measure. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assumes that the value of real estate diminishes predictably over time. We compute FFO in accordance with the definition provided by the National Association of Real Estate Investment Trusts, or Nareit, which represents net income (loss) (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairment charges on real estate assets, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

In addition to presenting FFO in accordance with the Nareit definition, we disclose normalized FFO, which adjusts FFO for items that relate to unanticipated or non-core events or activities or accounting changes that, if not noted, would make comparison to prior period results and market expectations less meaningful to investors and analysts. We believe that the use of FFO, combined with the required GAAP presentations, improves the understanding of our operating results among investors and the use of normalized FFO makes comparisons of our operating results with prior periods and other companies more meaningful. While FFO and normalized FFO are relevant and widely used supplemental measures of operating and financial performance of REITs, they should not be viewed as a substitute measure of our operating performance since the measures do not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which can be significant economic costs that could materially impact our results of operations. FFO and normalized FFO should not be considered an alternative to net income (loss) (computed in accordance with GAAP) as indicators of our results of operations or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity.

We calculate adjusted funds from operations, or AFFO, by subtracting from or adding to normalized FFO (i) straight-line rent, (ii) non-cash share-based compensation expense, and (iii) amortization of deferred financing costs. AFFO is an operating measurement that we use to analyze our results of operations based more on the receipt, rather than the accrual, of our rental revenue and on certain other adjustments. We believe that this is an important measurement because our infrastructure-type assets generally require longer term leases with annual contractual escalations of base rents, resulting in the recognition of a significant amount of rental income that is not billable/collected until future periods. Our calculation of AFFO may not be comparable to AFFO or similarly titled measures reported by other REITs. AFFO should not be considered as an alternative to net income (calculated pursuant to GAAP) as an indicator of our results of operations or to cash flow from operating activities (calculated pursuant to GAAP) as an indicator of our liquidity.

Investors and analysts following the real estate industry utilize net debt (debt less cash) to EBITDA as a measurement of leverage that shows how many years it would take for us to pay back our debt, assuming net debt and EBITDA are held constant. In our calculation, we start with EBITDA_{re}, as defined by Nareit, which is net income before interest expense, income tax expense, depreciation and amortization, losses/gains on disposition of depreciated property, impairment losses, and adjustments to reflect our share of EBITDA from unconsolidated real estate joint ventures. We then adjust EBITDA_{re} for non-cash share-based compensation, non-cash fair value adjustments and other items that would make comparison of our operating results with prior periods and other companies more meaningful, to derive Adjusted EBITDA_{re}. We further adjust net debt and Adjusted EBITDA_{re} for the effects from investments and capital transactions that were either completed during the period or disclosed as firm commitments, assuming such transactions were consummated/fully funded as of the beginning of the period to derive Adjusted Net Debt and Further Adjusted EBITDA_{re}. Although non-GAAP measures, we believe Adjusted Net Debt and Adjusted EBITDA_{re} are useful to investors and analysts as they allow for a more current view of our credit quality and allow for the comparison of our credit strength between periods and to other real estate companies without the effect of items that by their nature are not comparable from period to period.

(A) Includes only the unlevered portion of our share of EBITDA_{re} from unconsolidated real estate joint ventures, as we have excluded any net debt from our unconsolidated real estate joint ventures in the Adjusted Net Debt line. We believe this adjustment is needed to appropriately reflect the relationship between EBITDA_{re} and net debt.

(B) Adjustments to reflect the expected acquisition of a majority interest in Springstone by LifePoint, the expected sale of three Connecticut hospitals currently leased to Prospect, and a full quarter impact from our mid-quarter investments and property sales. Adjusted net debt/annualized EBITDA_{re} would be 6.1x excluding the adjustments for the expected acquisition of a majority interest in Springstone by LifePoint and the expected sale of three Connecticut hospitals currently leased to Prospect.

(A) Schedule includes leases and mortgage loans.

(B) Lease/Loan expiration is based on the fixed term of the lease/loan and does not factor in potential renewal options provided for in our agreements.

(C) Reflects all properties, including those that are part of joint ventures, except three Connecticut properties under previously disclosed commitment to be sold, vacant properties representing less than 0.3% of total adjusted gross assets, and six facilities that are under development. This schedule also reflects extended lease terms as part of LifePoint's expected acquisition of a majority interest in Springstone.

(D) Represents base rent/interest income on an annualized basis as of period end (including foreign currency exchange rates) but does not include tenant recoveries, additional rents and other lease-related adjustments to revenue (i.e., straight-line rents and deferred revenues).

MPT invests in real estate, not the consolidated financial performance of its tenants. Each facility is underwritten for characteristics that make the infrastructure attractive to any experienced, competent operator - not just the current tenant. If we have underwritten these correctly, then coupled with our absolute net master lease structure, our real estate will be attractive to a replacement operator, in the rare event we must transition. Such underwriting characteristics include:

YOY AND SEQUENTIAL QUARTER COMPARISONS BY PROPERTY TYPE

Notes: All data presented is on a trailing twelve month basis. For properties acquired in the preceding twelve months, data is for the period between MPT acquisition and June 30, 2022.

(A) EBITDARM is facility-level earnings before interest, taxes, depreciation, amortization, rent and management fees. EBITDAR is EBITDARM less management fees (corporate overhead) as booked by the operator for most facilities; for facilities where management fees are not allocated to the facility or are more than 5% of net revenue, a normalized fee of 5% has been used. EBITDARM and EBITDAR include normal GAAP expensed maintenance and repair costs. EBITDARM and EBITDAR do not give effect to capitalized expenditures that extend the life or improve the facility and equipment in a way to drive more future revenues. The majority of these types of capital expenditures are financed and do not have an immediate cash impact. MPT's rent is not subordinate to capitalized expenses. In addition, EBITDARM and EBITDAR do not represent property net income or cash flows from operations and should not be considered an alternative to those indicators. EBITDARM and EBITDAR figures utilized in calculating coverages presented are based on financial information provided by MPT's tenants. MPT has not independently verified this information, but has no reason to believe this information is inaccurate in any material respect. TTM Coverages are calculated based on actual, unadjusted EBITDARM results as presented in tenant financial reporting and cash rent paid to MPT, except as noted below.

- Total CARES Act Grants received by tenants during the period between March 2020 and June 2021 have been spread evenly by quarter from Q2 2020 through Q2 2021. Any additional grants received after June 2021 are included in the quarter that they were recorded by the tenant.

- Steward Health Care EBITDARM has been adjusted for a one-time out-of-period legal settlement in July 2020.

- Prospect and Prime EBITDARM and EBITDAR for California facilities have been adjusted for amounts expected to be received under the Hospital Quality Assurance Fee ("HQAF") Program 7. Amounts included are derived from the current model from the California Hospital Association which was approved by CMS on September 30, 2022.

(B) General Acute Care coverages and Total Portfolio coverages include Prospect Medical Holdings's Connecticut facilities. Prospect Medical Holdings has entered into a binding letter of intent for its Connecticut operations.

OPERATING ENTITY INVESTMENT FRAMEWORK

MPT's hospital expertise and comprehensive underwriting process allows for opportunistic investments in hospital operations.

- Passive investments typically needed in order to acquire the larger real estate transactions.
- Cash payments go to previous owner and not to the tenant, with limited exceptions.
- Operators are vetted as part of our overall underwriting process.
- Potential for outsized returns and organic growth.
- Certain of these investments entitle us to customary minority rights and protections.
- No additional operating loss exposure beyond our investment.
- Proven track record of successful investments, including Ernest Health and Capella Healthcare.

Operator	Investment as of September 30, 2022	Ownership Interest	Structure
Steward Health Care	\$ 362,825	N/A	Loan, for which proceeds were paid to Steward's former private equity sponsor, is secured by the equity of Steward and provides for an initial 4% cash return plus 37% of the increase in the value of Steward over seven years.
International Joint Venture	231,402	49.0%	Includes our 49% equity ownership interest and a loan made for the purpose of investing in select international hospital operations. The loan carries a 7.5% interest rate and is secured by the remaining equity of the international joint venture and guaranteed by the other equity owner.
Springstone	200,827	49.0%	In order to close the 2021 acquisition of 18 behavioral facilities, we made a 49% equity investment and a loan, proceeds of which were paid to the former owners of the Springstone operating entity. The loan carries an 8% interest rate and is secured by the remaining equity of the other equity owner.
Priory	144,266	9.9%	In order to close the 2021 acquisition of 35 facilities, we made a 9.9% passive equity investment and a loan, proceeds of which were paid to the former owner. The loan carries a variable interest rate.
Swiss Medical Network	147,189	10.0%	Includes our passive equity ownership interest, along with a CHF 45 million loan as part of a syndicated loan facility. Earned approximately \$2.1 million in dividends in Q3 2022.
Steward Health Care	139,000	9.9%	Includes our passive equity ownership interest. Proceeds from our investment were paid directly to Steward's former private equity sponsor and other shareholders.
Prospect Medical Holdings	112,774	N/A	Loan originated in connection with the overall \$1.55 billion acquisition of 14 facilities, proceeds of which were paid to the prior owner. The loan carries an interest rate of 8% and matures in 2026. The loan is secured and cross-defaulted with real estate and guaranteed by Parent.
Aevis	73,746	4.6%	Includes our passive equity ownership interest in Aevis, a public healthcare investment company. Our original investment of CHF 47 million is marked-to-market quarterly.
Aspris	16,032	9.9%	Includes our passive equity ownership interest in Aspris, a recent spin-off of Priory's education and children's services line of business.
